Petitions are being circulated for signatures by the Union Pacific protesting against the passage of the bill introduced in the legislature making fifty cars the maximum of a freight train. The company contends that the bill will be a bad one for stock shippers as a full train could not be stopped to pick up a car of stock. The bill is favored by the Brotherhood of Railway Trainmen and we understand was introduced at their request. They argue that shorter trains would expedite traffic and at some time make their work easier and more safe.

Baptist Church Dedicated.
Following preliminary meetings held each evening last week, the Baptist church was formerly dedicated Sunday, each service of the day being largely attended. First came the bible school session at 9:30, conducted by Rev. Fred Berry, with an attendance of 150; then the morning dedicatory service with sermon by Rev. Mr. Proper of Omaha, the attendants crowding the main auditorium. In the afternoon a Y. M. C. A. meeting was held with an address by Rev. Berry, and in the evening the final dedicatory service was held, Dr. Mills of Omaha, delivering the address. Dr. Mills stated that \$500 was needed to fully discharge all financial obligations resting upon the church, and within twenty minutes this sum was forthcoming from the big audience present. We congratulate the Baptist people that they have a church property valued at \$17,000 that is absolutely free of incumbrance.

Twenty-Seven Years.
With this issue The Tribune begins the twenty-eighth year of its existence. It was established January 25, 1885, to fill "a long felt want," and though for the first year or two the receipts were such as to question whether it was needed in the newspaper field, it finally "got on its feet" financially and has since—with the exception of about four years in the depression of 1892-1896—made the publisher somewhat more than a comfortable living. During those twenty-eight years the publisher has been subjected to considerable drudgery, but with it all there have been the bright spots that make life worth the living. The dark spots in life tend to make the bright spots all the brighter.

Reason for Change of Route.
Secretary Crosby of the Chamber of Commerce is in receipt of a letter from Honorable Moses P. Kinkaid, referring to the matter of reestablishment of service on the North Platte to Myrtle Star Route, a matter which the Chamber of Commerce had had under advisement for some time. This letter inclosed a letter which was received by Mr. Kinkaid from the Fourth Assistant Post Master General, setting forth the reasons why the service was discontinued and why at this time the department did not feel justified in continuing the same.

The original change was made because of a numerously signed petition from the patrons of the Myrtle, Garfield and Gandy offices, requesting service between those points in lieu of the North Platte to Myrtle and Garfield service. While this change cuts off the entire north-east portion of our county from any mail service whatever from North Platte, direct, and leaves them with their mail delivered some 48 hours later from this point, the department justifies the action from the fact that there is an annual saving in expenditure in the sum of \$65.00.

It would seem that the only thing can further be done would be to allow a trial of the substituted service for a time and then again present the matter to the department, for the entire patronage of the offices mentioned seem to have been misinformed as to the original petition they signed asking for the change, and are now desirous of the old North Platte to Myrtle and Garfield Star route service.
