Word came to this city a few days ago concerning an accident which befell W. H. Broach of Denver a former townsman and well known photographer. Mr. Broach was riding a wheel on one of the principal streets when he was struck by a motor truck and thrown off. His right arm was broken, his limbs badly crushed and one ear partly torn off. The Campaign is On.

At one o'clock this afternoon the campaign for securing \$40,000 with which to erect a Y. M. C. A. building in this city will begin, and for the next week or ten days seventy-five men, whose motto is "success," will wait upon every man in North Platte, and not a few ladies. The campaign will start with vim and vigor, the "line will be bucked" from the first minute of "the play" and there will be no let up on the strenuous work until the hand on the dial reaches forty thousand. The committee is composed of men of energy, and they will put into this movement all the force at their command; there will be no halting; no obstacle will be too great to surmount; discouragement will be an unknown factor; the goal has been set—and it will be reached.

As a preliminary to this great and good work, a banquet was held in the parlors of the Presbyterian church last evening when seventy-four men and two ladies surrounded the five tables and were served with a fine spread by the ladies of the church. Following the meal, addresses were made by State Secretary Baily, Secretary Rose of the Grand Island association, and Secretary McKim of the St. Louis association. Letters of regret were read from Bishop Beecher and Genl. Manager Ware, of the Union Pacific, both of whom had expected to be present, but were unavoidably detained by business.

The speakers talked on the different phases of association work, how to conduct a campaign such as is now in hand in North Platte, and the lists of 1300 men presented as possible contributors to the fund. These lists were passed among the five groups of committees—which bear the designation of A, B, C, D and E, and each committee checked off the names of the men they would see. This gathering then adjourned until 12:15 when the members will gather at the Baptist church parlor for dinner and immediately thereafter will start out on the campaign.

There is not a man in North Platte who can gain the benefits to be derived from a Y. M. C. A. building equipped with all the modern appliances for moral, intellectual and physical growth; our boys and young men need such an institution, and need it bad. The opportunity to secure such a building is now here; shall we embrace it? The Tribune hopes our people will respond with their accustomed liberality and by this time next week it can announce that full amount has been raised. Headquarters have been established in the Schatz Co. store where State Secretary Baily will be stationed as director general.

To start the subscription, Mr. McKim announced that the trustees of the Sidney Dillon fund will contribute \$2,000.

Two Gossard Corsets Are Better Than One

AND it is surprising how many women are being fitted with two Gossard Corsets instead of one.

Then too, it is better to have one corset for morning wear, and another for afternoon and evening.

Two Gossard Corsets fitted at the same time and worn alternately will give one-third more wearing service than two purchased singly and worn until worn out.

You have from two to six pairs of shoes and the investment is a wise one. They all look better—wear better and feel better. The same simple reasons apply to your having two Gossard Corsets.

Many things can be shown you in our fitting rooms that cannot be explained on paper. We will count it a privilege if you will ask our Corsetieres for this information and further proof as to why two Gossards are better than one.

A fitting today with genuine Gossard—the original front lacing corsets—will be a revelation to you, in comfort, grace of carriage and added beauty which this corsets Alone can impart.

Gossard Corsets from \$3.50 to \$25.

A model for every figure.
