Local and Personal

Miss Isabelle Doran has been elected to teach in the local schools.

Barney Guyman is now driving a Buick touring car which he has just purchased of the J. S. Davis Auto Co.

Mr. and Mrs. G. S. Huffman were called to Omaha the latter part of last week by the death of the latter's mother.

Miss Leila Rateliff, of the Leader, who had been off duty for some time on account of illness resumed work yesterday morning.

Miss Harriet Fresno late of Lexington enroute to Denver where she will make her home.

Miss Maud Jaques, formerly of the local postal telegraph office, has taken a position as traveling agent for the Hygienic Cream Co., of Chicago.

C. E. Martin, who moved from Wallace to this city a year or so ago, left with his family last week for Bayard where they will permanently locate.

The Yeomen lodge will hold its regular monthly meeting this evening. A large attendance is desired and the usual ten cent lunch will be served.

Let me show you the Rapid Fireless Cooker, cooks quicker than any other cooker on the market. Mrs. M. V. Mitchell, phone Red 104.

The steel work on the new round house is nearly completed and brick work began the latter part of last week. Fifteen brick layers are working on the outside walls.

Mrs. Levi Duke was called to Des Moines Saturday afternoon by the illness of her daughter Mrs. Thomas Golden who will be operated upon this week for appendicitis.

Word was received in this city yesterday of the birth of a son to Mr. and Mrs. William Patterson at Sioux City. The latter was formerly Miss Hattie VonGoetz of this city.

Dean Burnett, of the state agricultural school at Lincoln, came up yesterday morning and spent the day at the sub-station. He was accompanied by the state landscape gardener.

Stud Gamen, of Cozad, was in town Saturday evening and purchased a model "31" Buick touring car of the J. S. Davis Auto Co. He was accompanied by A. Loble who placed his order for a model "25" Buick touring car.

The former Clabaugh stock which was recently purchased by J. E. Ammons, of Chicago, changed hands the latter part of last week. The new proprietor is H. Scoonover, of Chicago, who immediately took possession. In company with Corbin Jones the salesman Mr. Scoonover left Saturday evening for Chicago to purchase stock. The new firm expects to be open for business with an up to date line of clothing in about ten days.

One Good Gossard Deserves Another

A PROVEN statement, if the increased sale of two Gossards at a time, is any criterion.

Really, there is no good reason for not buying your Gossard corsets two at a time. It is an immediate saving—two Gossards fitted at the same time and alternate will give one-third more wearing service, than if they were purchased singly and worn out.

Gossard corsets correct figure imperfections, because they lace in front and are so designed and constructed as to accentuate every graceful line.

The comfortable, easy poise you acquire in the afternoon or evening wearing of your Gossard can just as well be enjoyed in the morning hours whether you work, walk or ride. You really need a Gossard corsets for morning wear and another for afternoon and evening.

Since it is more economical, modish and comfortable to have two Gossards fitted at a time may our Corsetier have the opportunity of explaining further in our fitting rooms?

Wilcox Department Store

N. B.—Gossard Corsets are the original front lacing corsets. They are priced at from \$3.50 to \$25

Liberal Appropriation For State Sub-Station.

The state legislature which passed into history last Saturday, treated the North Platte experimental sub-station quite liberally; the appropriation not being as large as asked, but the funds will be sufficient to conduct the work effectively. The total amount for the coming two years was \$47,500; of this amount \$30,000 is for the general expenses of the station, and \$17,500 is for the establishment of a dairy farm in connection with the station. This includes the erection of the necessary buildings and the purchase of a herd of cows. This dairy farm has been a needed adjunct to the station; the work is properly part of the agricultural work of the station, and especially so since western Nebraska has become so largely interested in dairying. Here in the western part of the state, as well as in all sections of Nebraska, dairying is becoming a very important factor in the farmers' receipts; on a majority of the farms the cream sold or the butter made is a monthly receipt that goes far toward meeting the running expenses. In fact many farmers who have nice herds of cattle largely accumulated them by selling cream to meet current expenses and thereby enabling them to keep the increase of the cows milked.

To Senator Hoagland is due the credit of securing the appropriation for this dairy farm. Before going to Lincoln he announced that this measure was one that would receive his earnest work, and through his influence the appropriation was passed. He asked for \$20,000, but it was cut down to \$17,500. In view of the general inclination of the legislators to cut down appropriations, Senator Hoagland is to be congratulated that he fared so well on this particular appropriation.

Local and Personal.

Four Kinds of Paint Whats Yours?

Don't guess what kind of paint is best and don't buy a paint that's claimed to be best everywhere.

The map above shows you just what paint is best for use here.

There are four climates in the United States. Paints not made to fit our climate will crack and peel.

LINCOLN CLIMATIC PAINT

is the only paint made to fit each of the four climates. It's the only one that can be made because the formulas are protected by United States patents.

Call at our store and see the large climatic map of the United States and get a book telling all about how the paint is made for our climate.
