Travel on the Union Pacific is mighty light these days, in fact one train would accommodate all the passengers that ride on the three through trains. The other day the Pacific express had thirteen passengers. Hauling an eight-car train with so few passengers will not enable the Union Pacific to declare dividends regularly.

Beginning next Monday local trains No. 21 and 22 will have a mail car attached and will handle mail between North Platte and Grand Island, both going east and coming west. Mail and parcel post matter for all stations between these two points on the east bound train will be made up in the local office each morning prior to the departure of the train.

The general fund of both the county and city has become depleted and those having claim against those funds are completed to wait until after the levy in June. Road damages paid out of the general fund during the past year exceeded six thousand dollars, and this largely accounts for the depletion of that county fund.

At the B. of L. E. May Party next week an innovation will be made in that there will be no printed programs, the dances being called in succession. This plan is adopted for the reason that much complaint has been made by those who are late in reaching the hall and find that practically all dances have been engaged.

Several days must elapse ere he can take charge of the office as his bond is to be approved and his commission forwarded to him before he can enter upon his duties.—Free Lance.
