

The North Platte Semi-Weekly Tribune

TWENTY-EIGHTH YEAR.

NORTH PLATTE, NEB., MAY 9, 1913.

No. 30

Notes From the City Council Chamber.

The city council at its meeting Tuesday evening took favorable action on the admission of the Dolson addition and the Bellvue addition to the city. Both the additions are located north of the track in the vicinity of the new round house.

Plumbers' licenses were granted to R. F. Stuart, Ashley Peters, Palmer & Lintz, C. H. Boyle and Frank Hibner. Licensed plumbers complained that they did not, under the existing ordinance, receive proper protection from unlicensed workmen engaged in that work. To remedy this the water commissioner and the plumbers were instructed to confer and draft an ordinance that will afford protection to those to whom licenses are issued.

It was the sense of the council that when houses are fumigated following cases of contagious diseases the occupant should pay the cost of which work, unless financially unable so to do. Hereafter the City Attorney Gibbs will look after the collection of such bills.

Certificates of service were granted to several members of the fire department who had several five years.

Monthly reports of the clerk, treasurer and police judge were submitted, also the report of the water commissioner for the year ending April 1, 1913.

Notice.

A number of young ladies have written to me asking for a place to stay during the Junior Normal where they can work for their board and room. These are worthy young people and we desire to place as many as possible. If you can take one of these young ladies during June and July and give her board and room or allow her part pay on either, it will be appreciated and will help her get the work of the Junior Normal.
