Former Resident
Suicides in Omaha.

Isaac Marsh, who for a number of years made his home with his daughter, Mrs. E. Van Natta in this city, committed suicide in Omaha Monday. Last year the VanNatta family moved to Curtis and Mr. Marsh went with them. The story of the suicide is thus told in the Tuesday issue of the World-Herald:

With an open bible on the stand beside him and without a bit of clothing on him, Isaac Marsh, apparently an aged business man from Curtis, Neb., was found dead from gas asphyxiation in a room upstairs at 610 North Sixteenth street at 1:30 o'clock yesterday. The police believe it suicide, sickness being the reason.

A bankbook and business letters found in the dead man's clothing lead to the belief that he is a business man from Curtis, Neb. The bankbook shows large and frequent deposits with a remaining balance of several thousand dollars. The letters are from a number of business concerns from all over this state.

Sam Olander, part owner of the building where the body was found, smelled gas shortly after noon yesterday and investigated. The door and windows to the room were tightly closed and the gas jet turned on full force.

The man's nude body was leaned back in a chair. Open on the stand beside him was the bible, a brand new one. Numerous prescriptions and receipts from doctors lead to the theory that the man had been sick. Others in the building said he had been there nearly two weeks and never spoke to any of them. He was a large man, gray headed, gray mustache and owned plain, but expensive clothes.

Health a Factor in Success.

The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular, he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.
