

# KANSAS WOMAN WHO SUFFERED

From Headache, Backache, Dizziness and Nervousness, Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lawrence, Kans.—"A year ago I was suffering from a number of ailments. I always had pain and was irregular. During the day I suffered a great deal with headache, backache, dizziness, feverish spells, nervousness and bloating. I had been married nearly three years. I took Lydia E. Pinkham's Vegetable Compound and now I feel better than I have for years. I recommend Lydia E. Pinkham's Vegetable Compound to all who suffer as I did."—Mrs. M. ZEUNER, 1045 New Jersey Street, Lawrence, Kansas.

Montana Woman's Case. Burns, Mont.—"Lydia E. Pinkham's Vegetable Compound cured me of awful backache which I had suffered with for months. I was so weak I could hardly do my work and my head and eyes ached all the time. Your Compound helped me in many ways and is a great strengthener. I always recommend it to my friends and tell them what a grand medicine it is for women. You may use my name for the good of others."—Mrs. JOHN FRANCIS, Burns, Montana.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, also they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

## ALBERTA THE PRICE OF BEEF

60 ACRES FARMS IN WESTERN CANADA FREE

IS HIGH AND SO IS THE PRICE OF CATTLE. For years the Province of Alberta (Western Canada) was the Big Ranching Country. Many of these ranches today are in the hands of Americans, and the cattle have given place to the cultivation of wheat, corn, barley and flax. The change has made many thousands of Americans settled on these plains, wealthy, but it has increased the price of live stock. There is a splendid opportunity now to get a

## SUITABLE AND PRETTY GIFTS FATIGUE A FOE TO BEAUTY

Few Things for Prospective Bride Are in Better Taste Than the Easily Made Sachets.

Woman Who Would Retain Charm Should Avoid Allowing Herself to Be Victim of Overwork.

Are any of your friends engaged? If so, why not make them some pretty sachets for an engagement gift? They are always appreciated and can easily be made. Purchase a quantity of satin ribbon two inches in width. The shops offer many bargains in ribbons at this season. Cut the sachets in squares, pad them with cotton and sprinkle with sachet powder. Then whipstitch the edges together.

Stack a dozen of these together and tie with baby ribbon. On top place a flat bow ornamented with tiny rosebuds made from ribbon. An eighth of a yard of half-inch ribbon is required for each rose and they are formed by swirling the ribbon round and round a center. Foliage may be made from green silk to accompany these roses if desired.

This is a charming gift for the graduate. So prepare for June, which is not far distant.

## AFTERNOON GOWN

An afternoon gown of printed silk over lace and embroidery, set off with a belt and sash of black satin ribbon.

Crude Colors for Blondes. Crude, brilliant colors are seen on the hats as on the dresses, and one should be very young and of a blonde complexion to stand the combination of certain clashing colors. The trimmings are still very high.

# What is Castoria.

**CASTORIA** is a harmless substitute for Castor Oil, Paregoric, Drops, and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. Albert W. Kahl, of Buffalo, N. Y., says: "I have used Castoria in my practice for the past 20 years. I regard it as an excellent medicine for children."

Dr. Gustavo A. Eisengraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin P. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

## HAVE LONG DURATION OF LIFE

Salt Water Denizens Attain Immense Age, if Scientific Investigations Are Correct.

Water, particularly salt water, seems to conduce to longevity. There are gigantic mussels and oysters whose age is assumed to be comparable only with that of the Cape Verde baobab tree and the big tree of California, which live for 5,000 years. Indeed, there appears no particular reason why mussels should ever die, though it is also true that, considering the sort of life a mussel leads, there seems no particular reason why it should ever have lived.

Sea anemones, again, delicate and sensitive though they look when we see them in the rock pools, may attain great age. Sir John Dalyell, a Scottish naturalist, captured in 1828 a sea anemone of the liver-colored sort so common around our shores. Its age was then estimated at seven years. It flourished in Edinburgh until 1887, and was still attaining a vigorous and sober maturity when, from some unknown cause, it died.—London Mail.

## Our Wonderful Energy.

Andre de Fouquieres, whom society lionized during the New York season, praised on his departure for Paris the wonderful energy of the American business man.

"I once asked an American business man," he said: "Do you know what leisure means?"

"Why, to be sure, I do," the business man replied. "Leisure is spare time that can be devoted to some fresh job of work."

## Woman's Way.

"When she wasn't looking I kissed her."

"What did she do?"

"Refused to look at me the rest of the evening."—Wasp.

## Best Way.

"How would you make these remedies popular?"

"Make them anti-septic."

## Very Plain Criticism.

Children are not always grateful beings, and they are notably hard to entertain. At a birthday party a kindly natured adult had toiled hard in the effort to amuse the children by means of parlor magic, ventriloquism, burlesque dancing and the like. The other adults present were highly amused, and some of the children deigned to chuckle mildly. The mother of the hostess, however, felt that full justice had not been rendered, so before announcing refreshments she took pains to thank the entertainer, and to call the attention of the youngsters to his gifts.

"Mr. Blank is very funny, isn't he, children?" she concluded.

From the rear of the room came a small, shrill voice:

"Yessum, but not so funny as he he thinks he is!"

## Love Would Be Short.

"Oh, swear not by the moon, the inconstant moon," said Juliet.

How about the modern maidens who are going to be loved "till the sands of the desert grow cold?"

Don't their physical geographers tell them that the sands of the desert grow cold every night, "owing to the lack of aqueous vapor?" Ours used to.

## Ready Answer.

"Be mine. I cannot live without you."

"Bah," said the heiress. "You have lived without me for years."

"True," retorted the duke, "but the cost of living has got me at last."

## What Ails You?

An invitation is extended by Doctor Pierce to every sick and ailing man or woman to consult the Faculty of the "Loving" Hotel at Buffalo, N. Y., by letter. Write your symptoms fully and frankly, and every letter will be carefully considered, fully answered and its statements held as strictly private and sincerely confidential.

**Dr. Pierce's Golden Medical Discovery**

makes for rich, pure blood and thus invigorates the system. For a torpid liver and its attendant indigestion, dyspepsia, headache, nervous distress, foot trouble, many coated tongues with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good.

## Young Financier.

Freddie came into the house one day and said that the woman next door had offered him a penny if he would tell what his mother had said about her.

"I'm so glad you didn't tell," remarked his mother. "I wouldn't have her know for anything that I even mention her. You're a wise little boy, my dear."

"You bet, I am," returned Freddie. "When she offered me the penny I told her that what you said was something awful and it was worth half a dollar."

## Paraphrasing the Immortals.

Tennyson's "Brook" and Scott's "Lochinvar" were recently set for paraphrase at a girls' school. The conscientious students set to work with a dictionary. Here follow specimens of the results: To bicker down a valley—"To have an undignified quarrel in a low place among the hills." He staid not for brake—"He never stopped for a mechanical contrivance to reduce speed by means of friction."

## Quite So.

"Do you believe in the office seeking the man?"

"That depends altogether on the amount of his shortage."
