The annual state shooting tournament will be held in this city next Tuesday, Wednesday and Thursday, and members of the local gun club have received assurances that about one hundred shooters from all sections of the state will be present. Among these will be at least a half dozen professionals, who will shoot in all the events but will not participate in the division of the stakes.

This is the second state shoot North Platte has entertained, and the shooters attending the former one were so well entertained that they were glad to accept the invitation to "come again," so they will be here in greater force next week.

Some of the shooters are expected to arrive Sunday and will do more or less shooting Monday in order to get accustomed to the grounds.

Union Pacific Has Received New Engines.

The fifty new engines ordered by the Union Pacific from the Baldwin and American engine works have been received and will be put into service as soon as they can be broken in. The fifty engines cost approximately \$1,000,000 and add over 70,000-horse power to the engine equipment.

The present order of engines is the largest placed by the Union Pacific in ten years. It consists of ten Pacific type passenger, twenty-five Mikado passenger and freight and ten switch engines. The road engines are all equipped with super heaters and carry everything in the way of modern appliances.

A distribution of the new engines will be made along the main line, and most of the freight machines will go into service in moving the crop of wheat that is expected to be ready for market early in July.—Omaha Bee.
