Another Convention During August.

The Chamber of Commerce directors held a meeting Wednesday evening and received reports from the committees on the electrolier lighting system, the Fourth of July and the publicity fund. That North Platte is to have the electrolier system for four blocks on Dewey, two block on Front and probably on other streets is now an assured fact, and it will require but a short time to wind up the preliminary arrangements preparatory to installing the system.

The committees on the publicity fund reported pledges of about \$2,100, with the saloon men and several other business men excepted. These will be solicited some time during the coming week.

Supt. Snyder, of the state sub-station, who is a member of the board, reported that the dry land investigation association would hold its convention in North Platte some time in August. This association is composed largely of federal officials connected with the agricultural department and who are stationed at governmental experimental stations in different sections of the west. There will also be in attendance officials from Washington and representatives from experimental stations of a number of the western states. This convention was secured through the efforts of Messrs Snyder and Burr, of the local sub-station, upon the excellent showing made by the station. A committee was appointed to arrange for this convention.

The Fourth of July committee, the manager of the carnival company which will be here the week of July 4th, and a representative of the military band appeared before the directors and the celebration was discussed at length. The three organizations will work in conjunction and promise to give one of the liveliest celebrations North Platte has ever known.

A bulletin was posted Tuesday stating that the shops would close June 21st and remain closed until July 1st, the order applying to all shops on the system. Usually at this time of the year a reduction in the working force is made, and it is thought that the retrenchment of expenses is made by this year cutting the working hours instead of the force.

A few years ago he retired from the farm and moved to Farnam in order to give his children the school advantages of that town, but expects to return to the farm next spring. Hobo Arrested for Stealing Money.

A hobo giving his name as Dunn and Omaha his place of abode, was arrested Wednesday morning on the charge of stealing twenty-seven dollars from the residence of Mrs. Lottie Cronen on west Sixth street. Mrs. Cronen had laid a purse containing about \$45.00 dollars on the dining room table and had gone up stairs for a moment. While temporarily engaged she heard foot steps below, and upon descending confronted Dunn in the hallway, who asked her if she had a vacuum cleaner that needed repairing. She answered in the negative, and started to the dining room to see if her purse had been disturbed, and as she turned to go Dunn started out on a run. Picking up the purse she found that twenty-seven dollars had been taken from one of the compartments, but that eighteen in another compartment had not been disturbed.

Sheriff Salisbury was at once notified and after a short search picked up Dunn and took him to jail. Upon being searched the twenty-seven dollars were recovered. Later Dunn was identified by Mrs. Cronen as the man who had been in her house. The prisoner was arraigned yesterday and bound over to the district court.

THE MUTUAL BUILDING & LOAN ASSOCIATION.

The assets of this association exceed the sum of half a million dollars. The reduction of the rate of interest to borrowers has increased the demand for loans; and in order to meet this demand the association will issue a limited amount of its PAID UP STOCK.

Money invested in this paid up stock draws six per cent interest, payable semi-annually, and may be withdrawn at any time upon thirty days notice, such notice being waived where there are funds in the treasury to meet the withdrawal.
