

Columbia the Gem of the Ocean doesn't show her age though she has long since passed the century mark. She is still dazzlingly beautiful, but not a bit more so than the gems and jewels to be seen in our cases. If you have a gift to make to some fair daughter of Columbia or want some adornment for your own use, this jewelry shop is the place to find the prettiest and best.

The Big Carnival Comes Next Week

There is a very pretty pantomime story portrayed during the performances of the Rice and Dore water circus, which is here next week starting next Monday night on the U. P. right of way grounds, for the benefit of the North Platte Military Band.

It tells the story of the mermaids who have been enjoying their daily sunbaths on the rocks, when Father Neptune becoming alarmed for their safety as they have been on shore a little longer than usual, comes up out of his watery home and calls his darling nymphs, who reluctantly follow their father as he disappears under the dashing waves, to the bottom of the sea.

There they tell him of the wonderful beauties that they have beheld on land and try and prevail him to transform them into the sort of images that they have seen walking on shore and to give up his watery castle of coral and shell and to live on the land of sunshine and flowers, and after much persuasion the old man finally gives up the sea, which he has been the king of for hundreds of years and returns to mother earth for a new world to conquer.

This beautiful marine spectacle is enacted at every performance under the captain of "Neptune's Daughters" and is a replica of the same attraction that started and astounded thousands upon thousands at the New York Hippodrome for years.

Aside from the Water Circus there are sixteen other high class attractions to be found with the Rice and Dore Water Carnival organization, perhaps the Motordrome or the Death Whirl would be considered by many as the second best attraction, as it is one that is full of sensationalism, three kinetic demons present an act that pinches the heart and chills the blood, as they race around a circular saucer track that is pitched at an angle of 75 degrees, and maintain a speed of sometimes ninety miles an hour.

It has not been fully decided as yet whether the shows will be on the U. P. right of way for four days or not at all as there are quite a few merchants who are determined to have the shows on the side streets facing Dawey all week instead of just the Fourth and Saturday. The carnival managers are neutral in the matter and state that they are here to please the merchants and meet with their desires and not to dictate where they shall go.

Revoles Order.

The order posted in the Union Pacific shops the early part of last week declaring that the shops should be closed from June 21st to July 1st, was revoked Friday and work this week is running along as usual. Division Master Mechanic Beery was in town Thursday and finding that so many of the employees had taken vacations following pay day, recommended the revocation of the order. The time lost by employees on vacation equaled the retrenchment of expenses demanded of the local shops.

Will Longpre, of Maxwell, has been appointed section foreman at Stapleton on the Kearney branch.

Mr. and Mrs. G. A. Thompson left Friday evening for Denver and Kansas City to visit for a week.

John O'Neil, of Lincoln, who visited at the Stack and Tighe homes last week, left Saturday afternoon.

The total operating revenues of the railways of the United States for April were \$237,862,424, an increase over those of April, 1912, of \$22,892,968 in the aggregate, or 9.7 per cent per mile of line. This was cut down by an advance in operating expenses of 12.3 per cent per mile to an increase in net operating revenue of \$1,834,073 in the aggregate, or 2.4 per cent per mile.

When you have friends from the east or west come to visit you this summer don't fail to take them to the top of the hills south of the river and let them view the Platte Valley from that elevation. It is a view that they will long remember, and one that in beauty can be surpassed by few places in the west. Residents of North Platte, and there are probably many of them, who have never viewed this scene should do so.

For bargains in choice residences see Buchanan & Patterson's bargain list in another column.

Missouri Pacific trainmen and especially those in Missouri, are according to reports which are being sent out from that state, inclined to look forward with a great deal of apprehension to the time when the 2-cent fare law and the maximum freight rate law, recently sustained by the United States supreme court, shall go into effect. The men are fearful that the putting into effect of the reduced rates will result in taking off a number of trains and that this will be the case not only with the Missouri Pacific, but with every other roads in Missouri.

Many Cattle Coming North.

Cattle from the dry sections of Texas continue to move toward the western Nebraska and South Dakota ranges in large numbers, with indications that still more are coming and within the next week they will commence to come from old Mexico where it is reported the drought is the most severe of many years.

The Rock Island brought 1,500 head of cattle into Nebraska from Texas, and the Burlington about the same number. The animals coming now are all spring poor, but it is said they will take on flesh rapidly as soon as they get onto the Nebraska grass.

The Rock Island officers estimate that during the next month fully 50,000 cattle will be shipped north from Mexico and that most of them will come to Nebraska, Wyoming and South Dakota.

Mrs. Alfred Johnson and son left Sunday afternoon for Eutte and Denver to spend several weeks.

Mr. and Mrs. Edward Yearsley left Sunday for Ogden, expecting to be absent for two weeks.

Mrs. John Grant returned the latter part of last week from an extended visit in eastern points.

Mrs. Lena Salisbury left Saturday morning for Paxton to visit her daughter for several days.

Mr. and Mrs. John Holcombe, of Brady, visited Mr. and Mrs. James Loudon last week.

Miss Ethel Armour, of Stapleton, spent the latter part of this week in town with friends.

Mr. and Mrs. Harry Boyle are enjoying a visit from Mr. and Mrs. A. L. Tolle, of Kearney.

THE MUTUAL BUILDING & LOAN ASSOCIATION.

The assets of this association exceed the sum of half a million dollars. The reduction of the rate of interest to borrowers has increased the demand for loans; and in order to meet this demand the association will issue a limited amount of its PAID UP STOCK.

Money invested in this paid up stock draws six per cent interest, payable semi-annually, and may be withdrawn at any time upon thirty days notice, such notice being waived where there are funds in the treasury to meet the withdrawal.
