## Empress Theatre Will Soon Open.

The finishing touches are being made today to the Empress Theatre, John R. Ritner's new play house on west Sixth street, and it is expected that the formal opening will either be next Saturday or Monday night.

The dimensions of the room are 22x110 and the seating capacity is 234. This capacity could have been increased had Mr. Ritner purchased the ordinary 18-inch chairs, but for the comfort of his patrons he purchased chairs twenty inches wide and will give each chair three inches more floor space than is ordinarily given, thus avoiding uncomfortable crowding. The room is well ventilated with windows and ceiling ventilators, the front is artistic and well provided with lights, and the floor has a descent that guarantees an excellent view of the curtain.

The machine has been received and will be operated by Dick Cox, who has been with the Keith theatre for a number of months. The chairs and other furniture was shipped from Chicago last week and will reach here today or tomorrow. The machine and curtain is of the latest model, and steady, well defined pictures will result.

Mr. Ritner has not, apparently, spared any expense in building and furnishing this new place of amusement, and by giving first-class programs hopes to merit a generous portion of the patronage of picture show attendants.

The exact date of the opening will be announced in a day or two.

At the meeting of the city council on Wednesday of last week a resolution was passed revoking the printing contract with The Telegraph. This resolution was vetoed by Mayor Evans at a special meeting of the council Friday morning. A motion was made to pass the resolution over the mayor's veto, but it failed to receive the necessary number of votes. For a number of years past both The Tribune and The Telegraph have been designated as official papers, and as one or the other enters practically every home in town, wide publicity has been given the official notices, which is the real purpose of their publication. It would therefore seem that the council in reconsidering their action of Wednesday evening did the right thing, as by using both papers property owners and citizens generally have a better opportunity of learning of the official acts of the city's governing body.

Arthur Stubbs, whose father was division master mechanic at this terminal in 1902, visited friends in town Sunday.

The Brazilian minister and family and other prominent men of Brazil, passed west in a special train last night.

## Refurnishes the Vienna.

The balance of new furnishings for the dining room and lunch room of the Vienna Cafe arrived yesterday and were placed in position. The tables, chairs, and decorations for the dining room were received two weeks ago, but the counters, cases and stands for the lunch room had been delayed. All the furniture is in mission finish, and very attractive in appearance. Through the use of these new furnishings, bread, cakes, pies, in fact all eatables, are kept in neat cases, free from dust and flies, and therefore more cleanly and sanitary.

The dining and lunch rooms have been repainted and repapered, and the former has been tastefully decorated with artificial vines and flowers, giving it a decidedly inviting appearance. The floors in both rooms have been covered with matting and the establishment as a whole presents a much improved appearance since Mr. Hupfer assumed charge.

A new chef and a new baker arrived from Omaha today, and whenever it is possible to improve the service changes will be made. In fact Mr. Hupfer proposes to make The Vienna a credit to North Platte.

Bratt & Goodman have many real bargains in houses, lots, improved farms, unimproved farm land and stock ranches. See them before you buy.

### Myrtle and Vicinity.

# THE NATIONAL EVENT

Saturday, June 21st,

—to—  
Saturday, June 28th

The best retailers all over the United States have set aside this week to make a complete demonstration of Marx Made Trousers. They are garments of a national reputation with individual character in every pair—that's why we think them worthy of this special consideration. Marx Made Trousers embody so many new and practical ideas in trouser construction that it's worth your while to do some investigating on your own hook.

For example—Take the "Wunder Waist Band," an exclusive feature to be found only on Marx Made Trousers.

The "Wunder Waist Band" insures perfect fit at the hip—it keeps your trousers from sagging at the waist—it makes them hang perfectly, because it is a belt-holding device, made of one thickness of cloth on scientific principles.

Marx Made Trousers are superior, because they are perfect and more desirable—more are sold than any other make, that's why the manufacturers of Marx Made Trousers command first choice of trouser materials on the market.

Remember the Date—June 21st to June 28th.  
It's hot, to be sure, but you can't go without trousers, even if you do shed your coat and vest.

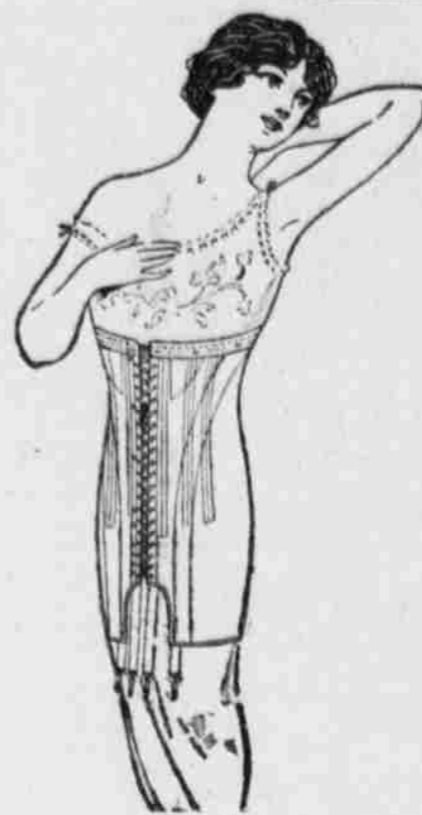

More than a million men wear MARX MADE Trousers with the "Wunder Waist-Band"
