Will Hold Annual Picnic.

The annual picnic of the members of the fire department will be held next Sunday. All members who desire to attend—and it is hoped this will include all—will please meet at the Fourth ward hose house at 7:30 in the morning, as it is desired to reach the grounds before it gets too hot to make traveling uncomfortable.

Ship in Laborers.

The Union Pacific shipped in twenty-three laborers from Denver this morning, the men being brought here to assist in the grade work at the new round house. The company found it impossible to secure the necessary laborers in this section. This is the second bunch that has been shipped in during the past ten days.

Edis Ice House Burns.

The Edis ice house, located southwest of town, was struck by lightning last night during the storm and burned to the ground. The house had a capacity of about 2,000 tons, and at the time of the fire was about half filled. Mr. Edis will protect the remaining ice as best he can and dispose of it as rapidly as possible. The loss to Mr. Edis will be quite heavy.

Back from Germany.

Julius Essig, for many years a resident of Cottonwood precinct, is in town today visiting friends while enroute to his home in Oregon from a two years' visit in Germany. Enroute to Germany he stopped in town, and at that time said his visit there would be for an indefinite period—evidently found everything congenial, for he made an extended stay. Mr. Essig is looking fine and feels good.

Heavy Rain Last Night.

The period of hot and dry weather was broken last night by a rain which is reported by Observer Shilling to have been 1.15 inches. It was one of the heaviest rains of the season, and came at an opportune time, as corn had begun to show the need of moisture. The rain extended as far west as Julesburg, at least such is the report by trainmen, but we have not been able to learn the area covered north and south.

C. P. Howard, of the Howard ranch northwest of town, leaves tomorrow for Columbus, Ohio, where he goes to look after his real estate interests. Petition Laid on Table.

The petition asking that the use of water meters be optional with the consumer, was presented at the adjourned meeting of the city council last evening and laid on the table. This action was taken because the petition was irregular, the heading having been changed and altered after the signatures had been attached.

This action does not bar the petitioners from presenting a new petition regular in form.

A Splendid Band.

The concert last evening by the Italian Royal Guards band was unquestionably the most finished program ever rendered in North Platte, and was highly appreciated by the audience, which was the largest of any of the Chautauqua sessions. The program included selections that gave the organization an opportunity to display its real ability.

Miss Myrtle Murphy had a narrow escape from being killed Tuesday afternoon, as it was she was badly bruised up. She with other members of the family was assisting in putting up hay when a team became frightened and Myrtle ran to pick up the lines, she only succeeded in grasping one line and was thrown under the horses feet, one of the animal's feet grazing her side. Dr. Fetter reported her as resting easy last night.—Brady Vindicator.

Reports gathered by Union Pacific station agents show that the hot dry weather of the past week has seriously damaged corn in many sections of the Platte valley and the country contiguous thereto. From Grand Island to Gibbon the conditions up to yesterday were critical and it was reported that unless rain came in a few days the loss would be almost total.

A Good Investment.
