

Loving Cups—Trophies—Medals—Watches

The jeweler is very close to life in all its variations. His art expresses and typifies victory, achievement, superior performance, as well as beauty, utility, joy and refinement.

Athletic triumphs are acknowledged with a silver loving cup, a medal or a gold watch. The same with civic and business service and all forms of faithful performance.

Dress is adorned with a touch of art in the form of a pin, a brooch, a chain or a ring.

The refined and festive table sparkles with bright silver and cut glass. Life's heroic and joyful moments are marked with a jewel or a bit of gold or silver. Life itself is measured by the jeweler's watch or clock.

The jeweler serves the finest and best interests of life. His place can never be taken by those who dicker in jewelry, solely on a commercial basis, without the heart interest of one who loves his craft.

You suffer as well as we, if you are not in touch with a reliable jewelry store. The stocks in this store are chosen with skill and care from a wide and conglomerate market where experience is needed to distinguish the worthy from the worthless. We offer both economy and satisfaction.

Special Train for Fall Festival.

General Manager Ware, of the Union Pacific, wired President Seeberger of the Chamber of Commerce, that a special train would be run over the North River branch during the three days of the fall festival next week. A representative of the passenger department will be held here today or tomorrow to consult with the fair committee relative to the arrival and departure time of the train, the desire being to run the train on a schedule that will best accommodate the people along the branch. The running of this special train insures a big crowd of people from the various stations along the line of the road.

In his telegram Mr. Ware stated that the matter of placing a daily motor car service on the branch as an experiment would be taken up during a visit he will make North Platte in the near future. Mr. Ware has been in the west for ten days past and is expected to arrive here within a few days.

Roberts Withdraws His Resignation.

County Commissioner Geo. W. Roberts, who filed his resignation with County Clerk Yost Friday, served notice on Clerk Yost Tuesday that he had reconsidered the matter and would withdraw his resignation. This withdrawal, however, apparently comes too late, for when Clerk Yost, as recording officer of the county, filed the resignation it was an act of acceptance, and the vacancy in the office existed from that time, for the letter of resignation stated that it became effective at once. Had Mr. Roberts set a definite time in advance for his resignation to become effective and before the date set he had served notice of its withdrawal, then it would have been recognized.

The withdrawal of the resignation is a move on the political checker-board, and it was made in order to prevent the appointment of a republican member of the board. The power to appoint a successor to Mr. Roberts lies with the county clerk, county treasurer and county judge. The two former officials are republicans, and in case of a democratic and a republican applicant, with fitness being equal, it would be no more than proper that the republican be selected. This is a point at once seen by democrats when the resignation of Mr. Roberts became known, hence their insistence upon him that he file a withdrawal. To have a republican member of the board—even though the other two members are democrats—would, from a democratic standpoint, be a disgrace.

County Clerk Yost, backed by the advice of the acting county attorney, will stand pat on a non-acceptance of the withdrawal, and will hold that a vacancy on the board of county commissioners exist. Arrangements have been made for an appointment next Monday morning.

The two most active applicants for the position are John Kelleher, democrat, of Maxwell, and E. H. Springer, republican, of Brady, both of whom have been members of the board in the past. We understand that Mr. Springer is backed by a petition signed by a very large number of residents, both democrats and republicans, of the Second district.

School Opens

The local school opened Monday morning under very favorable conditions for a profitable year. The registrations were made the latter part of last week and assignments made to the different grades.

The enrollment in the high school the first day was two hundred and thirty-five. Last year the enrollment for the first week was two hundred and twenty at the end of the opening week and the year previous the record showed one hundred and ninety.

Owing to the crowded condition of the rooms in the Lincoln school in the Fourth ward the school board voted Monday evening on a division being made and an extra teacher employed. It is expected that she will be here Monday to take the new grade.

Seven teachers will be employed in the new Jefferson building in the First ward which owing to the interior painting not being completed, did not open until Thursday morning.

A telegraphy course will be introduced in the high school under the direction of E. H. Flowers. The Union Pacific company thru the Western Union are furnishing the equipment which will be ready for use in a few days.

Two extra typewriters have been ordered for the commercial department which is in charge of Miss Hartley.

The enrollments for the ward schools are uncertain owing to their crowded condition and a report of the number in each grade cannot be made until the necessary divisions are made which will be made the latter part of this week. The high school cadets and foot ball team will organize this week.
