The report comes to us that several of our young men attempted to beat the conductor of No. 3 out of the fare from North Platte to Hershey last night. As a result one has a badly bruised up-head, caused by the conductor's lantern falling rather heavily several times on his coco. Giggie water had been partaken of rather freely by the boys and this helped to aggravate the disturbance. It is probable that the railroad may prosecute some of them involved.

NEW CREAMERY!

Now Ready for Business

We have installed all our machinery and solicit the patronage of all cream producers around North Platte and surrounding territory. We have faith in the development of the dairy business in this territory and that the farmers will help us in building up a good patronage. We will aim always to be fair and square and make all who patronize us feel personally interested in our creamery.

Patronize Home Industry

We intend to pay as much for butterfat as the market affords, and there is no doubt but what producers will realize more profits in the future than received heretofore. To do this we must have the support locally. Give us a trial, and we know you will be satisfied with results. Drop in and let us get acquainted and talk over the dairy interests together. Bring us your next can of cream.
