Roundhouse Employee Killed at Hershey

Charles Stover, employed at the Union Pacific round house in this city, was killed at Hershey Sunday afternoon while attempting to get on a moving freight train. There was but one eye witness to Stover's death. V. B. Winburn, who was his companion on the trip to Hershey. Winburn, in a statement to Coroner Maloney, who went up to view the remains, says Stover won a gun in a drawing at Huffman's cigar store and Sunday Stover invited him to go along and try the gun. A man named Varie started out with them, but when they reached a point a couple of miles west of town Varie turned back. Just then a freight train was pulling out of the yards and Stover and Winburn concluded that they would ride west to Hershey. They got on the sixth car from the engine and rode to the main-tainer's house east of Hershey, and started to walk west along the track. Stover remarked that he would get on the train again and ride to the depot. Winburn advised him not to do so as the train was moving at least fifteen miles an hour, but before he realized it, Stover caught hold of a car at about the middle of the train. He was thrown under the car and rolled about, the first wheels passing over his abdomen. When the caboose came along Winburn motioned the trainmen and pointed under the train. Conductor LeDioy surmising something was wrong signaled for a stop, and going back found Stover badly mangled. A physician was sent for, but life was found extinct. The body was taken to Hershey and later brought into this city and prepared for burial. The remains will be shipped today to the deceased's former home in Springfield, Ohio.

Credit, while in the employ of the company, was killed in a collision at Herndon during the blizzard last March. The jury brought in a verdict of \$25,000, which is one of the largest amounts ever given against the Union Pacific for the loss of a life. The company was represented in case by Edson Rich and A. G. Ellick, of Omaha, and W. H. Miles, of Sidney, while Wilcox & Halligan were assisted by Devos & Swenson, of Sidney. The case will be appealed.

Appoints Delegates to Roads Meeting

The directors of the Chamber of Commerce met last evening and appointed M. J. Forbes, T. C. Patterson and O. H. Thoelecke as North Platte's representatives to the Platte Valley Transcontinental Route Association which meets at Central City tomorrow. These three delegates are among our stoniest good roads boosters.

The petition for the creation of a bridge district to vote bonds for the construction of a bridge east of town was presented for endorsement by the Chamber of Commerce. The directors seemed to be heartily in accord with the movement to build a bridge, but it was found that the present petition is illegal inasmuch that a city of this class cannot be included in outlying territory in the formation of a bridge district. In this case the outlying territory must represent one district and the city another, each to vote bonds proportioned to the assessed valuation.

A committee was appointed to look after the thousands of visitors who are expected here during the registration for the forest reserve lands. This committee will have quite a problem on its hands.

A committee was also appointed to arrange for the trip of the business men to Hershey next Friday afternoon and secure as large a turnout as possible. It is probable the band will be taken along.

Fancy Mice.

That the rearing of fancy mice can be made not merely an interesting hobby, but also a source of substantial profit, is illustrated by the experience of a Scarborough (England) man, hundreds of whose tiny pets find their way annually into the hands of the British admiralty. Time mice are required principally for use in submarines. They are exceedingly prone to suffocation. The Scarborough fancier, Mr. Bealand, illustrated this by covering the palm of his hand with ordinary liquid paint and placing a tame mouse on it. The tiny creature was at once overcome by the smell of the paint and suffocated in an incredibly short time.

Byron's Habits.

While Byron was in Ravenna, Italy, he adopted strange habits. It was his custom to rise at 2 in the afternoon, breakfast and dine at 4. Then he would sit and talk until 5 or 6 in the morning, or, if no company were there, he would write a bit of "Don Juan." But his life was like that of Aubrey Beardsley—upside down—the day was the night.

In Training.
