**Two Companies Seek Franchises**

The privilege of operating a gas plant and an electric light and gas plant in North Platte is sought by two individuals. A man named McLaughlin, of Washington, D. C., desires to erect and maintain a gas plant, while Mr. Todd, of Omaha, proposes plants for gas and electric light and power. Mr. McLaughlin submits to the council a proposition to have the people vote on his franchise at the next regular election. He proposes to charge \$1.25 per 1000 feet for gas—if bills are paid when due—and in return for the franchise will turn over to the city three per cent of the gross earnings of the plant. Mr. Todd introduced an ordinance at the council meeting Tuesday evening which grants a franchise for an electric light and gas plant. He asks that a special election be held to give the people an opportunity to grant or reject this franchise, and that he will pay the expense of the election. He proposes to charge \$1.50 per 1000 for gas with a penalty of ten per cent if bills are not paid when due.

Both propositions were referred to the committee on lights of the councilmanic body, and this committee will probably make a report at the next meeting.
