SCALP ITCHED AND BURNED

Greenwood, Ind .- "First my hair began to fall, then my scalp itched and burned when I became warm. I had pimples on my scalp; my hair was falling out gradually until I had scarcely any hair on my head. I couldn't keep the dandruff off at all. My hair was dry and lifeless and I lost rest at night from the terrible itching sensation. I would pull my hat off and scratch my head any place I happened to be.

"For several years I was bothered with pimples on my face. Some of them were hard red spots, some were full of matter, and many blackheads. I was always picking at them and caused them to be sore. They made my face look so badly I was ashamed to be seen.

"I tried massage creams for my face and all kinds of hair tonic and homemade remedies, but they only made things worse. Nothing did the work until I used Cuticura Soap and Ointment. I washed my face with the Cuticura Soap, then put plenty of Cuticura Ointment on. Three months' use of Cuticura Soap and Ointment has made my face as smooth and clean as can be." (Signed) C. M. # **AFTERNOON GOWN** A TRIUMPH OF FRENCH DESIGN

HERE is an unusual and attractive gown from the salon of a notable French designer. It has the grace of simplicity and it embodies several of the best style features of the present season. Among these there are the could scarcely loose and comfortable management of the sleeve, the tunic, the girdle, the easy adjustment of the bodice and a

Sometimes a girdle is in several colors. those in plaid of bright tones being favored for plain cloth gowns. An other development of the always present girdle shows silk in three colors laid in pleats, making a three-toned girdle. Certain it is that, in the management of the waist line, our present modes are the most artistic, the most easy and graceful of any that lie with in the memory of the women of our country.

The study of a gown of as great artistic value as this one should involve that of the dressing of the feet and the arrangement of the colffure, because both these matters should enter into the consideration of a dressy costume at any time. Satin slippers in black with rhinestone buckles, and silk hosiery of the color of the gown take care of the clothing of the feet appropriately.

The colffure is one of those designs classified as the "casque" style, in which all the hair is waved. It is arranged over the head like a turban. There is no chignon at the back. The ends of the hair are turned under the waves and tpread about in such a way as to dispense with a coil.

In cutting a gown of this character wide goods are more easily managed than narrow. Skirts, overlapping at the front, while narrow, give room for easy walking because the front seam is not joined down to the bottom. The under petticoat must be soft; the most clinging of fabrics, as chiffon or creps de chine, or lace. An inserted flounce will take the place of a petticout. Anything heavy enough to interfere with the falling of the skirt in close and clinging lines would destroy an important item in the beauty of the design. It is the hang and not fit of garments which is of paramount imskirt a little shorter at the front than portance now.
