### Want Leaving Time of Branch Train Changed

General Manager Ware, of the Union Pacific, who had been inspecting the North River branch, arrived in town Tuesday night and remained until Wednesday night. Wednesday forenoon he met in conference with members of the chamber of commerce and discussed the proposition of changing the leaving time of the branch train. This train arrives at 10:20 at night and leaves at eight the following morning, which necessitates a loss of a day and a night to the North Platte valley man who comes here to transact business. It was suggested to Mr. Ware that the leaving time be made 9:30, which would give the visitor time to transact business at the bank, the land office or the stores. Mr. Ware stated that he would further investigate the matter, and thought the desired change could be made.

While in town Mr. Ware issued orders for a general cleanup of the waiting room at the depot, considered the erecting of more arc lights at the crossings, and consulted with local officials in regard to additional improvements at the new round house.

T. R. Casey, who for the past eighteen months has been working in the Colorado Southern shops at Denver, returned to North Platte Wednesday and next Monday will re-enter the service of the Union Pacific as assistant day foreman at the new round house. ### New Trial Asked in Dixon Damage Case

Motion for a new trial in the case of Arvid Norgreen vs. Harry Dixon has not yet been brought up for hearing in the district court. Dixon filed a motion for a new trial on the grounds that the evidence proved that he had done everything possible to divert the accident, as was proved by a number of witnesses, and that damage was granted on the information that Norgreen has sustained injuries that would disable him for life, which has been shown untrue by reliable physicians of the city.

Norgreen was granted damages by the court to the extent of \$750 for injuries claimed to have been received when Dixon's auto collided with his (Norgreen's) buggy. Dixon immediately filed a motion for a new trial and it will probably be acted upon by Judge Grimes the latter part of the week.

Court will adjourn Saturday and Judge Grimes will leave next week for Lexington to preside over the district court there.

## Classification Yards for North Platte

Plans are being made to make North Platte a classification station, to switch all the through freight here and make up train loads that will go straight through to the coast by fast freight. Much of this switching is now being done at Grand Island, but with the change it would all be done here and would require an extra force of men at the local yards. If this is done it will mean much more work in the local yards. It is being done already to some extent.

Changes are being made as rapidly as possible in the Union Pacific yards that will leave the Locust and Willow street crossings open except when trains are passing by. These changes will be made as soon as possible and all the freights except the locals will stop in the west end of the yard to test air and get ready to leave the yards.

As it has been heretofore, the trains were stopped on the crossings to test for air in accordance with the state laws and often the brakes would stick and the train could not be started for fifteen or twenty minutes. There is a city ordinance to the effect that the crossings could not be blocked longer than five minutes, but some times the train could not be started in that length of time and the citizens would register a kick on account of the crossings being blocked. This change will eradicate all such trouble.

The office of Yardmaster Blalock will be moved up near the new round house in the very near future. They are waiting now for two electrical clocks for the men to compare time with, and the move will be made as soon as these arrive.

The working hours at the shops have been set one half hour earlier. Formerly the hours were from 8 a. m. to 5 p. m., but with the change they will be from 7:30 a. m. to 5:30.

### Fistic Combat Result of Quarrel

James Bechan was brought before Justice O'Connell Wednesday on complaint of W. C. Meeks on the charge of assault. He was fined \$1 and costs. The young men have been at outs for some time. Meek alleges that he worked all summer for Bechan and that he has not yet received any pay. He filed suit against Bechan in the county court and since that time, he claims that Bechan had been after him.

Bechan caught Meeks in front of the North Platte Steam Laundry struck him and broke his nose in two places. Meeks was taken to a local physician to have his wounds dressed and immediately after that filed suit against Bechan for assault. He threatens now to sue Bechan for damages.
