## Railroad Notes

F. W. Newhart, of Omaha, arrived in the city Monday to locate the new sewer for the Union Pacific round house. Mr. Newhart is an engineer for that company.

One of the switch engines was temporarily taken off in the local yards Tuesday evening on account of the slack time of the year. There is still an enormous amount of switching to be done but orders were sent from headquarters to take one engine off.

Foreman P. J. Norton at the round house states that there is the greatest overflow of unemployed mechanics this year that has ever been seen in this part of the country. Every day for the last few weeks from one to five applications have come in to him from skilled workmen, such as boilermakers and blacksmiths. The work at the round house is well caught up at present and he has very little need of these men.

For Sale—Household goods: chairs, tables, beds—plain, but good and in good condition—one bed room suite of bed, marble-top bureau, wash stand, and chairs to match; buffet, kitchen cabinet, hard-coal burner, gasoline stove, galvanized iron tubs, wash boards, wringer, refrigerator, yard and garden tools. Canned fruit and pickles. Must be sold at once. Phone Bik 464. 94-2
