

## "CASCARETS" FOR LIVER, BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box. Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passage every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

**Knew What Would Happen.** Lovely weather, isn't it? A lady whom we know went to see the doctor yesterday.

"Well, how are you today?" said the physician cheerfully.

"Well, doctor," she replied, "the cold I caught Tuesday is a little better, thanks to your prescription. But the one I caught Thursday is much worse. The thing I called to see you for, however, is the severe cold I caught last night."

The doctor sat down and wrote a long line of hieroglyphics. "Here," he said, "is something for the one you catch this evening with that V-neck and those skimpy skirts. Good afternoon!"

### THE RIGHT SOAP FOR BABY'S SKIN

In the care of baby's skin and hair, Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance, but its gentle emollient properties are usually sufficient to allay minor irritations, remove redness, roughness and chafing, soothe sensitive conditions, and promote skin and hair health generally. Assisted by Cuticura Ointment, it is most valuable in the treatment of eczemas, rashes and itching, burning infantile eruptions. Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

**Not That Kind.** "Do you eat much meat, my dear sir?"

"No, indeed, doctor; I am a valetudinarian."

**Not Worth the Wear and Tear.** The Beggar—Oh, lady—a halfpenny—but what a pity to open a beautiful bag for such a trifle!

## WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt.—"We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would blot. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me."—Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine. It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

**PARKER'S HAIR BALSAM**  
A toilet preparation of merit. Helps to eradicate dandruff. For Restoring Color and Beauty to Gray or Faded Hair. 50c and \$1.00 at Druggists.

### KEEPING GRAPES FRESH DURING WINTER

Handsome Clusters Are Preserved by Cutting a Piece of the Vine.

(By MRS. J. B. GLITZKE.) If you have a cool, dry cellar or fruit-room and the best-keeping varieties, the question of keeping grapes in the winter is a simple one. At the great vineyards the grapes are brought in from the vines in long, shallow picking-boxes, holding perhaps forty pounds, which are stored one above another in the fruit houses and left there until wanted for market or other purposes.

Months after they come out as fresh as when picked. If the room is damp, or the grapes placed in too large or deep boxes, they will mold.

Thick skinned grapes like the Catawba, I. bellas, or Wilder keep best, while such tender skinned ones as the Concord are the poorest; yet I have kept Concord in market baskets in dry sawdust.

A simple method is to place grape leaves between layers of grapes as you pick them, or sheets of paper. These keep the clusters from pressing against one another too closely, thus preventing mold and decay.

Handsome clusters are preserved by cutting a piece of the vine with each and placing one end in a bottle of water, also by covering the stem of the cluster at the point where cut with wax.

Remember to avoid too dry, too damp, and too warm rooms. Grapes should be kept as near the freezing point as possible, and not freeze. Of course all this is a little trouble, but you will feel well repaid for it when you serve delicious grapes at your Christmas and New Year's dinner.

One grower keeps grapes in the following way: Pick them on a clear day, using grape-scissors so as not to handle much, removing all imperfect berries and placing in clean, dry, earthen jars in layers a bunch deep, and filling the jar in this way.

Put a double sheet of paper over the top layer, and over this the cover of the jar. Strong, unbleached cotton is pasted entirely over the cover so that no air can possibly enter. When this covering has fully dried and hardened, the jars are buried on a dry knoll below action of frost, a stake being driven in over each jar to show where it is when wanted.

Catawba, and similar thick-skinned grapes keep well in this way.

### HOW TO SUPER A COLONY OF BEES

Among Other Things See That Each Honey Box Is New and Clean With a New Starter.

(By WARD H. FOSTER, Bee Inspector, Colorado Agricultural College.)

The super, or case that holds the pound section honey boxes, should be placed on the hive before they get the lower hive filled with honey. See that each honey box is new and clean with a new starter of comb foundation securely placed in the center of the top of each box. If you sell honey for shipping it is highly important to have a narrow strip of thin comb foundation at the bottom also. The best filled sections are secured where wooden separators are used between the rows of honey boxes. Look into the boxes twice each week to see that none of the starters pull off when the bees begin to draw off the wax. If they do drop down or come loose, remove the honey box and put in another starter or a new ready prepared box. The starter can be fastened by using a warm knife dipped in soap suds, pressing the edge of the wax starter into the wood. When the super is half full of honey, put another super on top and as soon as the bees begin working in it place it below the first super which will probably be ready to remove a few days later.

**Injurious to Apples.** Do not use red cedar as a wind break tree near an orchard. It gives a harbor to one stage of the apple rust which is very injurious to apples.

### COMPLETE ERADICATION OF DODDER PEST

Dodder—is a Leafless Annual With Very Slender Red or Yellow Stems, Is a Degenerate Parasitic Twine. Dodder Is Common in Low, Weedy Places, and Is One of Our Greatest Pests.

The Missouri experiment station has found as the result of analyzing a great many samples of alfalfa that as much as 28 per cent. of these samples contain dodder while in the case of red clover seed 76 per cent. of the samples carried a percentage of dodder.

Dodder grows in a peculiar way and instead of feeding upon the soil like other plants, it lives upon the juices of the legume. In appearance it is a "yellowish leafless vine." It entwines the legume plants and if it is not checked it will entirely destroy the crop.

The destruction of this pest means that a drastic measure must be applied, namely, the cutting of the infested portion of the field and the burning of the product when it has become dried out. It is suggested by Prof. J. C. Hackelman of the Missouri station, that where the patches are small it will pay to scatter straw over the surface before burning in order to insure complete eradication. Special attention is called to the fact that the removal of infested hay from one part of the field to the other can only result in contaminating a larger area.

## GOOD ROADS

### GOOD ROADS DURING WINTER

School Districts and Neighborhoods Can Do a Little Community Work From Time to Time.

In every community having dirt highways the roads are usually better in late autumn than at any other time in the year.

We ought to try to keep them that way, says a Missouri writer in the Farm Progress. We can do so by individual efforts. School districts and neighborhoods can do a little community work from time to time through the winter and the roads will be good at least until the deep thaws next March.

I knew how it is in a good many neighborhoods. If there is one man who gets the road-dragging fever and works a few days now and then on the highway, the rest of the community looks on. Finally the lone worker gets disgusted. He has reason to when there is no co-operation.

Last fall seven of us living along one of the county seat highways managed to keep up our interest nearly all winter. We hitched to the road drag every chance we got. One man was plowing about a mile down the road from his house. Instead of riding back and forth in a wagon, he hitched his

Good Road in Buchanan County, Missouri.

team to the road drag, making two round trips of a two-mile each every day. That road was in excellent shape nearly all winter. It is still one of the best pieces of highway in the county with the exception of the metalled roads.

South of here a few miles the merchants in a little town resorted to a dozen different plans to get the farmers to keep dragging the roads last winter. They made price reductions to the men who drove into town pulling road drags. The farther the drags had come the more the reductions. They advertised these plans extensively, gained a good deal of trade, had a steady trade all winter because of the good roads and the whole community was benefited by better transportation facilities.

It is remarkable how many miles of road a man can drag who gives some thought and just a little time to keeping the highways in good shape. No matter how badly "cut up" the highway may be if the surface is soft the road drag will smooth it down wonderfully. There was hardly a week last winter when every one of the seven men who formed the agreement failed to drag five or six miles of the highway.

Where the school is lively and vigorous there is always a chance of getting up some road-dragging enthusiasm there. Every man in the neighborhood is interested in the school; that the women are interested goes without saying. Good roads all winter mean a better attendance. A meeting most any Friday afternoon at the school-house ought to result in a good many miles of dragged road the next day.

### KEEP THE STRAIGHT ROADS

Department of Agriculture Advocates Building Highways Around Hills Instead of Over Them.

The United States department of agriculture is advocating the plan of building roads around hills instead of over them. From the road builders' standpoint this is a simple way to avoid expensive grading. From the practical standpoint it will never do, except perhaps in a few exceptional cases. The straight section line roads give the farmer rectangular fields, which are worked with the minimum of inconvenience. A triangular field, or one odd shaped in any way, greatly increases the labor of almost every field operation. Added to this inconvenience of farmers is the danger to road users from curves in these days of rapidly moving automobiles. The only practical way to do away with hills in the roads is to cut through them.

**Coarse Feed for the Cow.** Give the cow all the coarse feed she will eat, such as roots, silage and forage. Then grain one-fourth to one-third of a pound per day as she gives milk. This method insures that the cow gets enough to eat, yet not so much concentrates as to injure her.

## Weak Heart

Many people suffer from weak hearts. They may experience shortness of breath on exertion, pain over the heart, or dizzy feelings, oppressed breathing after meals or their eyes become blurred, the heart is not sufficiently strong to pump blood to the extremities, and they have cold hands and feet, or poor appetite because of weakened blood supply to the stomach. A heart tonic and alterative should be taken which has no bad after-effect. Such is

### Dr. Pierce's Golden Medical Discovery

which contains no dangerous narcotics or alcohol.

It helps the human system in the constant manufacture of rich, red blood. It helps the stomach to assimilate or take up the proper elements from the food, thus by helping digestion and curing dyspepsia, heart-burn and many uncomfortable symptoms, stops excessive tissue waste in convalescence from fevers; for the run-down, anemic, thin-blooded people, the "Discovery" is refreshing and vitalizing.

In liquid or tablet form at most drug stores or send \$3 one-cent stamps for trial box to Dr. Pierce's Invalid Hotel, Buffalo, N. Y.

Read Chapter VII on Circulatory Organs in the "Medical Advisor"—A French cloth-bound book of 1006 pages sent on receipt of 21 one-cent stamps, address as above.

### For DISTEMPER

Pink Eye, Epizootic Shipping Fever & Catarrhal Fever  
Here cure and positive preventive, no matter how long at any age and in any form of the disease. Cures Distemper in Dogs and Sheep and Cholera in Poultry. Largest selling live stock remedy. Cures the Grippe among human beings, and is the surest remedy for all influenza, colds, and coughs. 50c and \$1.00 a bottle. 50c and \$1.00 a box. Keep it. Show it to your druggist, and get it for you. Free booklet, "Distemper Cures and Cures." Special Agents wanted.

SPORN MEDICAL CO., Chemists and GOSHEN, IND., U. S. A. Bacteriologists

## Do You Need the Money?

JOHNNY COOK  
The Leader of the Leaders

### Great Western Commission Company

South Omaha, Nebraska

Nearly every man is willing to do his duty—as he sees it.

**Antislavery Tobacco Remedy**—Guaranteed to instantly remove taste for cigarettes or tobacco in any form, or money cheerfully refunded. Send \$2. and receive wonderful remedy by return mail. Address: Box 8, Tobacco Classes Co., Wichita, Kansas.—Adv.

**Misunderstood.** German—Vat I can do, I will do. Wag—Here, we've had enough of that vatican controversy.

**Interested the Felina.** "Serenaded my girl last night." "Any member of the family come out?" "Only the cat."

**It Would Be Apparent.** Mrs. Bleacher (upstairs)—Bridget, have you turned the gas on in the parlor, as I told you? The new domestic jewel—Yes, mum; can't ye smell it?

**Afraid of Lawyers.** An old colored man, charged with stealing chickens, was arraigned in court and was incriminating himself when the judge said: "You ought to have a lawyer. Where is your lawyer?" "Ah ain't got no lawyer, fudge," said the old man.

"Very well, then," said his honor, "I'll assign a lawyer to defend you." "Oh, no, suh; no, suh! Please don't do dat!" the darky begged. "Why not?" asked the judge. "It won't cost you anything. Why don't you want a lawyer?" "Well, fudge, Ah'll tell you, suh," said the old man, waving his tattered old hat confidentially. "Hit's jes dis way—Ah wan' tuh enjoy dem chickens mahse'!"

### FRIENDLY TIP.

Restored Hope and Confidence. After several years of indigestion and its attendant evil influence on the mind, it is not very surprising that one finally loses faith in things generally.

A N. Y. woman writes an interesting letter. She says: "Three years ago I suffered from an attack of peritonitis which left me in a most miserable condition. For over two years I suffered from nervousness, weak heart, shortness of breath, could not sleep, etc.

"My appetite was ravenous but I felt starved all the time. I had plenty of food but it did not nourish me because of intestinal indigestion. Medical treatment did not seem to help. I got discouraged, stopped medicine and did not care much whether I lived or died.

"One day a friend asked me why I didn't try Grape-Nuts food, stop drinking coffee and use Postum. I had lost faith in everything, but to please my friend I began to use both and soon became very fond of them.

"It wasn't long before I got some strength, felt a decided change in my system, hope sprang up in my heart and slowly but surely I got better. I could sleep very well, the constant craving for food ceased and I have better health now than before the attack of peritonitis.

"My husband and I are still using Grape-Nuts and Postum." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in page "There's a Reason." Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**Paw Knows Everything.** Willie—Paw, what is a piece de resistance? Paw—A steak after your mother gets through frying it, my son. Maw—You go to bed, Willie.

**Very Near It.** Sonny—Pa, what is a split infinitive? Pa—Something like this, Alabama ought to love Mobile.

### ENDS DYSPEPSIA, INDIGESTION, GAS

"Pape's Diapepsin" cures sick, sour stomachs in five minutes—Time It!

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stebborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction. It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Adv.

**Which Class?** "There is a woman out in the street hobbling along—" "Crippled or stylish?"

### 400,000 Settlers a Year

Immigration figures show that the population of Canada increased during 1913, by the addition of 400,000 new settlers from the United States and Europe. Most of these have gone on farms in provinces of Manitoba, Saskatchewan and Alberta.

Lord William Percy, an English Nobleman, says: "The possibilities and opportunities offered by the Canadian West are so infinitely greater than those which exist in England, that it seems absurd to think that people should be impeded from coming to the country where they can most easily and certainly improve their position.

New districts are being opened up, which will make accessible a great number of homesteads in districts especially adapted to mixed farming and grain raising.

For illustrated literature and reduced railway rates, apply to Sup't. of Immigration, Ottawa, Canada, or to W. V. BENNETT, Bee Building, Omaha, Neb. Canadian Government Agent

W. N. U., OMAHA, NO. 5-1914.
