Fire Fifty Greeks, Import Fifty Italians

The national complexion of the Union Pacific track employees at North Platte and on sections nearby, under went a change Tuesday when fifty Greeks employed on that class of work were discharged and an equal number of sons of sunny Italy imported to take their places. The Greeks had received no implication that they were to be "fired," and when told Tuesday that their services were no longer required, they were considerably stunned; and more so when they found that the Italians were on the spot to take their places.

The reason given the Greeks for their discharge was that they did not do enough work; that the Italians were more speedy.

Twenty-five of the imported men were given work in the local yards, the remainder were sent out to sections between here and Julesburg. The Greek colony in North Platte is now reduced to about sixty men.

Arrested on Charge of Stealing Barn.

A case was filed Tuesday afternoon in Justice P. H. Sullivan's court against Henry Giese, John Giese, Joseph Giese and Arthur Giese charging them with stealing and receiving stolen property. On the first count they are charged with the theft of about 1000 feet of pine lumber and using it in the construction of a barn. The value of the lumber is fixed at \$45 and Carl Schmidt is the complaining witness. In the second count they are charged with receiving stolen property with the knowledge that it was stolen.

The men appeared Tuesday evening in the justice court and entered into appearance bonds to appear on March 20, on which date the case will be brought up for preliminary hearing.

Henry Giese is the father of the other three and they all live in the Maxwell vicinity. Mr. Giese owns several sections of land and each of the sons is a landowner. Mr. Giese was convicted about four years ago of stealing cattle and was sentenced to the penitentiary, but was later paroled and the parole is still in effect. The Giese ranch is located adjoining the Schmidt farm, which is not occupied. The barn was built on the Schmidt place and in the complaint it is alleged that the men tore down the barn and used the lumber in construction of a barn on their own premises. A case entitled the State of Nebraska vs. John Giese was filed last week in the county court charging him with destruction of property, but this case has been dismissed and has been consolidated with the case in the justice court.
