

# STOMACH MISERY GAS, INDIGESTION

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, or foul breath.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapepsin from any store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.

## Had the Rudiments.

Youthful human nature is much the same the world over. Here is the story told of the eleven-year-old son of a Philippine head-hunter, recently brought to San Francisco by a returning missionary. The boy, being introduced to some friends of his guardian, remarked that he knew much about the United States, and understood baseball—although he called it "miki fula."

"So you know baseball?" one questioner remarked. "What do you call the umpire?"

The boy hesitated, and the missionary encouraged him.

"Tell the gentleman what you call the umpire, my boy!"

"Thief, sometimes, but robber mostly," was the unexpected reply.

## ERUPTION ON ANKLE BURNED

Kingsville, Mo.—"My trouble began eighteen years ago. Nearly half of the time there were running sores around my ankle; sometimes it would be two years at a time before they were healed. There were many nights I did not sleep because of the great suffering. The sores were deep running ones and so sore that I could not bear for anything to touch them. They would burn all the time and sting like a lot of bees were confined around my ankle. I could not bear to scratch it, it was always so sensitive to the touch. I could not let my clothes touch it. The skin was very red. I made what I called a cap out of white felt, blotting paper and soft white cloth to hold it in shape. This I wore night and day.

"I tried many remedies for most of the eighteen years with no effect. Last summer I sent for some Cuticura Soap and Ointment. The very first time I used Cuticura Soap and Ointment I gained relief; they relieved the pain right then. It was three months from the time I commenced using Cuticura Soap and Ointment until the sores were entirely healed. I have not been troubled since and my ankle seems perfectly well." (Signed) Mrs. Charles E. Brooke, Oct. 22, 1913.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

## To the Rescue.

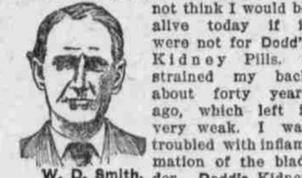

An Englishman sat at a New York boarding-house table. One of the boarders was telling a story in which a "dachshund" figured. She was unable for a moment to think of the word.

"It was one of these—what do you call them?—one of these long German dogs."

The Englishman dropped his fork; his face beamed. "Frankfurters!"—Lippincott's Magazine.

## A GRATEFUL OLD MAN.

Mr. W. D. Smith, Ethel, Ky., writes: "I have been using Dodd's Kidney Pills for ten or twelve years and they have done me a great deal of good. I do not think I would be alive today if it were not for Dodd's Kidney Pills. I strained my back about forty years ago, which left it very weak. I was troubled with inflammation of the bladder. Dodd's Kidney Pills cured me of that and the Kidney Trouble. I take Dodd's Kidney Pills now to keep from having Backache. I am 77 years old and a farmer. You are at liberty to publish this testimonial, and you may use my picture in connection with it." Correspond with Mr. Smith about this wonderful remedy.

W. D. Smith. Dodd's Kidney Pills cured me of that and the Kidney Trouble. I take Dodd's Kidney Pills now to keep from having Backache. I am 77 years old and a farmer. You are at liberty to publish this testimonial, and you may use my picture in connection with it." Correspond with Mr. Smith about this wonderful remedy.

Dodd's Kidney Pills, 50c. per box at your dealer or Dodd's Medicine Co., Buffalo, N. Y. Write for Household Hints, also music of National Anthem (English and German words) and recipes for dainty dishes. All 3 sent free. Adv.

## Bad Enough.

"Here's a fellow offers to teach you to talk and drink at the same time."

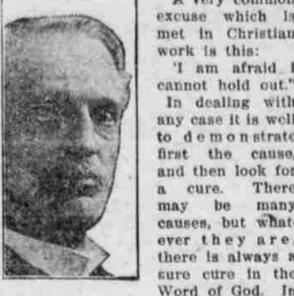

"For pity's sake don't let my wife find out about him."

It pays to be honest, but sometimes pay day seems far off.

# How to Help Inquirers— The Fearful

By REV. HOWARD W. POPE  
Superintendent of Men  
Moody Bible Institute, Chicago

TEXT—"Look unto me and be ye saved."—Isaiah 45:22.

A very common excuse which is met in Christian work is this: "I am afraid I cannot hold out." In dealing with any case it is well to demonstrate first the cause, and then look for a cure. There may be many causes, but whatever they are, there is always a sure cure in the Word of God. In this case it is evident that the cause of the man's fear is this: He is thinking of saving himself, instead of committing the case to Christ. He means to try a little harder than ever before to do good, but he has failed so often in the past that he has little confidence that he will succeed any better in the future. And the man is right. He certainly will fail if he relies upon his own efforts to lead a Christian life.

The remedy in this case is to take the man's attention away from himself, and fix it upon the Lord Jesus, who alone can save him. Say to him, "My dear friend, the question is not whether you can hold out, but whether or not God is able to save you. Let us see what he says about it." Opening your Bible ask him to read aloud Hebrews 7:25. "Wherefore he is able also to save them to the uttermost that come unto God by him, seeing he ever liveth to make intercession for them." After he has read it, say to him, "If God is able to save to the uttermost, there is certainly some hope for you. With an uttermost salvation such as Christ offers, there are no hopeless cases, do you see?"

"Yes, it does look a little more hopeful, I must confess, but I am afraid I should fall, if I started in the Christian life. My bump of persistence is not very prominent, and I am easily discouraged."

"That may be true, but do you know this 'uttermost' Savior has made provision also to keep you from falling? Read what he says in Jude 24." "Now unto him that is able to keep you from falling, and to present you faultless before the presence of his glory with exceeding joy."

"Isn't that splendid? 'Able to keep you from falling, and to present you faultless.' Blameless would mean a great deal, but without fault means much more. And that is the condition in which Christ promises that you shall be when he presents you before the Father. (And the joy referred to in that verse is not the joy of the sinner, though that will be unspeakable, but the joy of the Savior as he looks with actual pride upon his finished work. It doesn't seem possible, does it, that you can be saved so completely, and made so perfect and beautiful, that the Lord Jesus will put you on exhibition as a sample of his handiwork, with actual pride and joy? And yet that is precisely what he says he can do, and he certainly ought to know.) Now does not your case seem hopeful, looking at it from God's standpoint?"

"Yes, I must admit that it does, but you see my case is peculiar. I had a grandfather who was a drunkard, and I have inherited from him an appetite for liquor. Occasionally an awful craving for strong drink comes upon me with irresistible power, and down I go before it. That is the real cause of my apprehension. If it were not for that I think I could be saved, but you see my case is peculiar."

"Yes, I see your case is peculiar, but do you know we have a peculiar Savior? In the first place, he was acquainted with that grandfather of yours, and he knows all about that appetite. In the second place, he has made ample provision for it in the Book. Indeed, he has provided a special promise for just such cases. Read if you will 1 Corinthians 10:13. 'God is faithful, who will not suffer you to be tempted above that ye are able; but will with the temptation also make a way to escape, that ye may be able to bear it.'"

If the man is sincere in his desire to be a Christian there is only one alternative, and usually he will accept it.

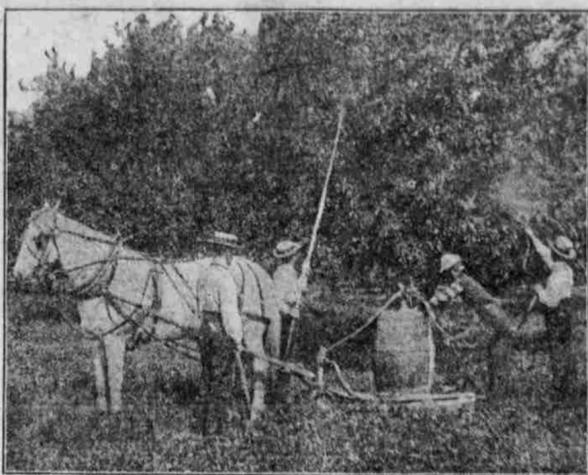

If these verses do not lead a person to a decision I have sometimes tried this method: "You are lost now, anyway, are you not?" "Yes, I am lost now." "Well, if you should try the Christian life and fail, you could not be any worse off than you are now, could you?" "No." "But if you should succeed you would be a great deal better off, would you not?" "Certainly."

"Then it looks to me as if you had found everything to win and nothing to lose by starting, is that not so?" "Yes, but I never thought of that before."

"Will you then kneel right down here and commit the keeping of your soul to Christ?" "I will."

I have seldom found a person who could not be convinced by such simple reasoning, if they honestly desired to be a Christian.

# SELECTION OF VARIETIES FOR ORCHARD

Power Sprayer Using Steam. The Care of the Trees Early Will More Than Repay the Work Involved When the Harvest is Ripe.

(By L. R. JOHNSON.)  
Although almost without exception, fall is to be preferred to spring as the season to plant fruit trees and shrubs, spring has the not unimportant advantage of being preceded by a season when the fruit grower has unlimited time to study books and catalogues and arrive at intelligent conclusions as to what varieties to plant.

The choosing of varieties is the most important process in the calendar of fruit growing. Without wisdom here, the best judgment and the most assiduous labor result in disappointment if not loss.

It is generally characteristic of the young and enthusiastic fruit grower to look with more or less indifference and contempt on the old, well tried varieties and to give his affections to new comers for favor which are being bestowed by certain nurseries as far surpassing anything in existence.

But the man who is planning his first orchard and suffers himself to be enticed into planting new varieties on a large scale, falls into a grievous error and one that will have years to repent of.

Let him understand that though the process of improvement is sure and steady yet it is not once in a genera-

tion that an old standard variety is displaced by a new one and that in numerous cases trees listed as standards fifty years ago still retain their prominence.

Even after a new variety is introduced it requires years to subject it to a thorough test under various conditions of soil and climate.

Buy a few trees, if you like, to test, but for your new orchard seek out experienced orchardists in your vicinity and secure the names of those varieties that have been regular and prolific yielders and are well known and in demand at the leading markets.

Do not imagine that Jonathan and Grimes Golden, the Winesap and Ben Davis, are about to be discarded for more fashionable rivals, or that the Keiffer pear should be passed by for some new seedling warranted to bear every year and never blight, or that the Oldmixon, Elberta or Heath Cling peach is far inferior to some new wonder just discovered.

Plant, then, the old and well proved money makers and confine to your experiment acre those new fruits whose glowing description would persuade you that untried friends are to be preferred to those who have long proved their worth.

ing the night or if it rains the trees may be damaged before day.

Beware of the lure of the seed catalogue "novelties and wonders." It is pleasant of course to try a few grandees, but stick to the tried favorites for the main crop of blossoms.

If the pansy has a little fence around it of boards and leaves and brush heaped upon it not too closely, you may look for blossoms almost any time in cold weather. Such a bed will do wonders in April and May.

When an ambitious window plant spreads beyond its given territory, cut off two or three inches of its foremost branches and make cuttings of them.

Moisture is supplied to plants in a living room I am familiar with by means of a sponge dipped in water several times a day and hung against the wall register of a hot air furnace.

Frozen plants may be survived if not too deeply bitten, by removing them to the cellar or some place just above freezing and keeping them cold and dark. Shower them with cold water. In two or three days cut off the blighted leaves and stalks well into the injured parts. Return to the window garden by degrees.

Give the turkeys plenty of corn these days and see that they have plenty of sharp grit.

# FRESH LETTUCE ALWAYS FINDS MARKET

This is the Way Lettuce is Shipped From Experiment Farms in Long Island.

(By L. M. BENNINGTON.)  
The value of lettuce for the table depends upon its being entirely fresh. A small plot of ground may be made to produce a large amount for an ordinary-sized family. The plant is healthy and hardy and stands considerable frost without injury. It is subject to few enemies and its successful culture is easily understood by novices. As early in the spring as the ground is at all dry dress the ground well with manure, putting on the manure and then well spading the ground, making the bed as smooth and fine as possible. Plant about one

inch deep and cover with a quarter of an inch of fine soil pressed down with the hoe or hand.

This vegetable is one of the principal money crops of the market gardener in winter. The demand may drop off for a few days or even weeks, but it is sure to revive. Good lettuce seldom goes begging for customers. The price at which lettuce can be grown at a profit is a question very difficult to answer, but the fact that there is always a demand for it shows that there is still room in the market for those who have a good article to sell.

# PUBLIC HIGHWAYS

## GET RID OF DUST ON ROADS

One of the Most Important Problems to Confront Highway Engineers—Two Methods Suggested.

(By L. W. PAGE.)  
The most important problem which has confronted highway engineers in recent years is the getting rid of the dust on roads. Not until the introduction of motor vehicles, however, did this become a factor of sufficient importance to engage the serious consideration of road builders and road users. Fast motor traffic has reached such proportions at the present time as to shorten the life of our most carefully constructed and expensive

macadam roads to a great extent, and to keep them in a loose and uneven condition.

The macadam road has been developed with the object in view of withstanding the wear of iron-tired horse vehicles, and it has met successfully the demands of suburban and rural traffic until the advent of the automobile. When in its highest state of perfection, the rock from which such a road is made is so suited to the volume and character of traffic which passes over it that only an amount of dust is worn off sufficiently to replace that removed by wind and rain. The dust remaining should be just enough to bond the surface stones of the road thoroughly, forming a smooth, impervious shell. A road of this character wears uniformly under the traffic for which it was designed, and always presents an even surface.

When such a road is subjected to automobile traffic, entirely new conditions are brought about. The powerful tractive force exerted by the driving wheels of automobiles soon disintegrates the road surface. The fine dust, which ordinarily acts as a cementing agent, is thrown into the air and carried off by wind or is easily washed off by rains. The pneumatic rubber tires wear off little or no dust to replace that removed by natural agencies. The result is that the stones composing the road become loose and rounded, giving the greatest resistance to traction, and water is allowed to make its way freely to the foundation of the road.

Many remedies have been suggested and tried for meeting this new condition, but a perfectly satisfactory solution of the problem is still to be found. Some success has attended the efforts of those who have sought to find a cure for the evil and this is encouraging when the many difficulties to be overcome in the treatment of thousands of miles of roadway are considered. It is apparent that this problem can be solved only by the adoption of one or two general methods.

(1) By constructing roads in such a

manner and with such materials as to reduce to a minimum the formation of dust; and (2) by treating the surfaces of existing roads with materials that will give the same result. Among the materials which have been applied with some success to the finished road surface without the agency of water, the mineral oils and coal tar are undoubtedly the most important.

Aims to Promote Road in West.  
A plan to promote road building in western states was embodied in a bill introduced by Senator Warren. It would grant 500,000 acres of public lands to each of the following states to be sold for the aid of road building: Arizona, Colorado, Idaho, Montana, New Mexico, Nevada, Utah and Wyoming.

Better Roads for Ontario.  
Better roads for Ontario province are to be made with the \$10,000,000 appropriation, expenditure of which will be under the supervision of a nonpartisan commission appointed by the government.

Road Treated With One Application of an Oil Emulsion—Automobile Traveling at Rate of 40 Miles an Hour, With No Dust Resulting.

Our cook is so careful about thieves. She always locks the door, even in the daytime."

"That's nothing. Our cook always keeps a policeman in the kitchen."

In Ante-Reno Days.  
"Well, Thomas," said father, "what did you learn at Sunday school today?"

"Nothing."

"Oh, surely there was some information for you."

"Well, Solomon hasn't lost any of his wives."

Joy for All.  
"Optimists are right, provided they are not unreasoning and excessive," said a fusion leader at a fusion luncheon in New York.

"The optimism of our opponents," he went on, "reminds me of Smith. A druggist said to Smith one night at the lodge:

"There's a movement on foot to make drugs cheaper."

"Good!" said Smith. "Good! That will bring sickness within the reach of all!"

## NO GUSHER But Tells Facts About Postum.

A Wis. lady found an easy and safe way out of the ills caused by coffee. She says:

"We quit coffee and have used Postum for the past eight years, and drink it nearly every meal. We never tire of it.

"For several years previous to quitting coffee I could scarcely eat anything on account of dyspepsia, bloating after meals, palpitation, sick headache—in fact was in such misery and distress I tried living on hot water and toast.

"Hearing of Postum I began drinking it and found it delicious. My ailments disappeared, and now I can eat anything I want without trouble.

"My parents and husband had about the same experience. Mother would often suffer after eating, while yet drinking coffee. My husband was a great coffee drinker and suffered from indigestion and headache.

"After he stopped coffee and began Postum both ailments left him. He will not drink anything else now and we have it three times a day. I could write more but am no gusher—only state plain facts."

Name given by Postum Co., Battle Creek, Mich. Write for a copy of the famous little book, "The Road to Wellville."

Postum now comes in two forms: Regular Postum—must be well boiled. 15c and 25c packages.

Instant Postum—is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage instantly. 20c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.—sold by Grocers.

# "CASCARETS" FOR SLUGGISH LIVER

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now. Turn the scales out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Charity begins at home, and is often kept right in the family.

No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue. Adv.
