Forty-five members of the Knights of Columbus order from this city attended the initiation and banquet given by the order at Kearney Sunday. They report a fine meeting and a jolly good time. Seventy-two members were initiated into the order at Kearney.

Mrs. Road, the temperance lecturer, who has been spending some time in North Platte, made some especially good talks in the various grades of our schools. She used various charts of a scientific nature to illustrate her pointed and well adapted lessons. One teacher remarked that her work was a splendid supplement to the instructions given in the text books used. Such talks help to impress these vital lessons of the harm done to the system by the use of liquors and the abhorrent cigarette and tobacco habit, among growing boys especially. Mrs. Road wondered if all boys knew, and all grown people were aware that we have a cigarette law in Nebraska that could and should be enforced. Appointed Reporter.

Considerable spring wheat will also be sown. The Hein family moved from Seward county eight years ago and Fred says they made no mistake when they made the change.

Chickens, they'll begin to cackle Roosters start to strut and crow, Brooders they'll give up their hatch Little chicks will start to grow. LEMASTER'S place is two-fifteen 'Phone number four-sixteen. He fixes mowers, rakes and stoves Or any other old machine.

Carpet-sweepers now a-days Grace most all the domiciles, LEMASTER fixes them with ease As doctors issue liver-pills.

If, you, d like your work done well Fixed up in first class style, To see LEMASTER in the start Surely will be worth your while.

So bring your work most anytime, We know that we can help you, LEMASTER stays right on the job Till bells ring evening curfew.

Friends, don't think that I am vain (In fact I feel a blush of shame,) When thinking of the time I've lost By writing this long English name.

JOHN WESLEY LEMASTER

Attorney M. E. Crosby, secretary of the chamber of commerce, issued the call yesterday to the committeemen who were appointed last week to talk over the court house project. They will meet this evening at 8 o'clock at the library building. About twenty-eight men were appointed on the committee and the meeting this evening will be to talk over plans and the advisability of a campaign at the present time for the new court house. Plans will also be introduced for the holding of a get-together meeting in the near future, at which meeting the citizens of the county will be invited to discuss the worthy project.

Why not be up to date and have the same lighting convenience as your city brother.

A small isolated light plant run by your gasoline engine is what you need. The electric light is as far ahead of the ordinary oil lamp as the oil lamp was ahead of the pine knot. When in town, call and let us explain this system.
