The fire department was called out Tuesday shortly before noon to the Iddings lumber yard where the grain elevator was on fire. It had started in some unknown way in one of the upper bins. The department put it out with chemicals before any great damage was done.

Court House Project Thoroughly Discussed

About two hundred men attended the get-together banquet held Wednesday evening at the Presbyterian church by the Chamber of Commerce for the purpose of discussing the project of building a new court house in the near future and an enthusiastic meeting was held. A large number from this city attended and a number of the prominent farmers and business men from over the county were present and several others sent in letters to be read at the meeting.

A nice supper was served at 7 o'clock by the ladies of the Presbyterian church and it was followed by a smoker. President E. F. Seeberger, who presided in the capacity of toastmaster, then introduced the speakers of the evening and after they had responded the discussion was further carried on by different men from over the county responding with impromptu talks. Music for the occasion was furnished by Stamps' Orchestra.

Attorney J. G. Beeler was the first speaker and he spoke largely upon the need of a new court house from the economical standpoint and for the safety of the valuable records that are housed at the present court house and all are in danger of destruction by fire. The inadequacy of the present court house for the accommodation of the county officers was also emphasized. He then took up the question of a campaign for a new court house and discussed the former campaigns and told of their failure on account of the hardships a bond issue would work upon the citizens of the county. He told how the proposition could easily be handled by a special levy not to exceed five mills for a term of five years. The contract could be let as soon as the first levy was made.

This speech was followed by the reading of letters from a number of the citizens of the county who were unable to be present. These letters were all more or less in favor of a new court house and the men all wished to be placed in the class of boosters for a better, richer Lincoln county.

Col. William Beatty from Brady Island was then called upon and he gave a good boosting talk in favor of the project. He spoke as a taxpayer and as a representative of the men in the community in which he lives. He emphasized the fact that it would build up North Platte and in this way would build up the rural communities and the other towns in the county. He voiced the sentiment of a number of the residents of Brady Island as they had been expressed to him and classed himself as a booster to the project.

Architect Gernandt, who built the new Lexington court house, was then called upon and gave some interesting figures as to the cost of a new building for this county and also gave an idea of the material that would be used. He brought with him a drawing of a building that would be adequate for this county and submitted it for the inspection of all present. He estimated the cost of a building at \$100,000.

Senator W. V. Hoagland was then called upon to give the facts and figures from the standpoint of taxation by a special levy. He advocated the necessity of a rest room for the accommodation of the farmer's wives and in this way give them more of the benefits of the new building. He then took up the question of a special levy and showed what a nominal sum it would cost each taxpayer.

"The assessed valuation of Lincoln county" said Senator Hoagland, "is approximated \$5,600,000. A levy of four mills for five years would make \$112,000 which would be more than enough for building. The Union Pacific railway company would pay on this amount \$5,496 per year, or a total of \$27,480. The Burlington would pay an annual tax of \$1,312 for this purpose or a total of \$6,560. These two would pay more than one-third of the cost of building, leaving only two-thirds for the citizens of the county to pay. The First National Bank would pay an annual tax of \$102.54 or a total of \$512.70. The average assessed valuation of each taxpayer is not over \$1,500.

This would leave them only \$6 per year to pay or a total of \$30 on the entire building."

He then spoke of the saving on insurance on account of having a fire-proof building, the safety of the county records and the increase of land values. He also brought out the fact that it would boost the county.

The meeting was then turned over to a general discussion and several men were called upon. H. P. Stevens, C. A. Liston of Wallace, George Shoup of Sutherland, George White of the Hershey vicinity, Frank Johnson of Wellfleet, J. C. Wilson of the North Platte vicinity, G. E. Gunderson of Hershey, Mr. Brown of Maxwell, James Abbott, Earl Brownfield and A. B. Yates of Hershey and C. P. Howard all responded and announced themselves as boosters. Some of them had come to the meeting "on the fence" and some of them opposed to the project, but all agreed upon the need of a new building.

Senator Hoagland then proposed that a committee consisting of two men from each precinct and all the editors in the county be appointed to carry on an educational campaign and canvass the votes in their district to ascertain the sentiment and report to the Chamber in order that they might find out if it were expedient to hold a special election or wait until the fall election. After some discussion the motion carried by a unanimous vote.

The meeting was the most enthusiastic that has yet been held and a spirit of good fellowship and the get-together spirit prevailed during the entire evening.

Among the country residents present were J. C. Wilson and N. B. Spurrier, of Nichols, Jake Koch, D. M. Leypoldt, J. W. Abbott and Earl Brownfield of Hershey, Geo. Shoup, A. B. Yates, Gus Gunderson and Jas White of Sutherland, Frank Nugent of Maxwell, Wm. Beatty and Tom Marcott of Brady, Frank Johnson and Dr. Rundstrom of Wellfleet, C. P. Howard of the north side and S. S. Reynolds of Cottonwood. There was also present County Commissioner Calling and Will May of Gothenburg, and D. M. Doubell of Gothenburg, the three latter having been boosters for the new court at Lexington.

Emil Tollefson returned to his home in Sutherland yesterday after a short visit in this city on business.

District Foreman Jack McGraw returned yesterday from Omaha where he spent a few days on business.

Wanted—Competent girl for general house work. Inquire 412 West Fourth.

Dan Hoy, a druggist from Wood River, visited in the city a few days with Francis Dunn of the Nyal store. He returned home yesterday.

We've Got It Down Pat.

That's what customers say, anyway—we've got the lumber business "down pat."

Guess we have, too---and here's why.

We sell at small profits and sell quickly. Selling quickly we sell much. Quickly selling much at small profits, we earn little on much, and much on many.

No secret about it, you see.

What you want is what we aim to keep. And we aim to give, and do give, the best values in Building Material in this city.

And the good people hereabouts know it.

C. F. Iddings Company,
North Platte Nebraska.

MR. FARMER:---

Why not be up to date and have the same lighting convenience as your city brother.

A small isolated light plant run by your gasoline engine is what you need. The electric light is as far ahead of the ordinary oil lamp as the oil lamp was ahead of the pine knot. When in town, call and let us explain this system.

"Anything Electrical."

Electrical Supply Co.,
217 East 6th Street.

Why Don't You

Make Ironing Pleasant Work by using a

Westinghouse Electric Iron

We have just received a shipment of Westinghouse Electric Flat Irons. This is the iron that you will eventually buy because the heating element is guaranteed FOR EVER.

It will soon be too hot to keep a fire in the range for ironing and you will see the need of an Electric Iron which you can use any place in the house where it is the coolest. Remember the guaranteed FOR EVER, WESTINGHOUSE. Better buy one now and have the use of it, for you will surely buy one later.
