Changes to Be Made In Trainmasters

In railroad circles it is said that changes will soon be made in trainmasters on the Third and Fourth districts. Trainmaster Sage who has been stationed here for several months, will resign and return to Omaha and resume his run as passenger conductor. He will be succeeded by Trainmaster VanWirt, of the Fourth district, who is well known to Third district employees. Claude Delaney, who has been foreman at Northport, will succeed Van Wirt as trainmaster on the Fourth district. These changes are scheduled to be made in the near future.

Effective at once, trains between North Platte and Cheyenne will be operated from the North Platte dispatchers' office. For some time past the jurisdiction of the local office has been to Sidney, where dispatchers have been maintained. The Sidney office will be abandoned, and J. T. Davis will come to North Platte a night chief. This permanently puts a quietus on the much-talked-of removal of the train dispatchers' office from North Platte to Sidney, and which at one time was seriously considered by the Omaha officials.

For Elks Only.

The luncheon and program to be held at the country club next Tuesday afternoon will be limited to Elks and those taking part in the program. To all others the gates will be closed. An impression seems to have been gained by some that the exercises were open to everybody, but this is a mistake.

The city council took up the matter of lighting the water plant at their regular meeting Tuesday evening. The matter was taken up some time ago and a letter was sent to the Skinner Engine company to get a price on an engine adequate for use here and word was received that they did not make a small engine but could furnish a large one for a little over \$700. The one they suggested would more than fill the present needs and with this addition the city could save some of their lighting expense by furnishing their own lights from the power they already generate.

Shoot to Hold Next Week.

The local gun club will hold their annual gun shoot next Monday and Tuesday, May 11th and 12th at the Buffalo Bill gun club west of the city. A number of outside shooters are expected to participate for the honors and some nice prizes will be given. The shoot will be only a district shoot carried on by the local club. The local men expect about fifty or sixty outside men. They have ordered twelve thousand blue rocks and are anticipating a fine time. The visitors will be taken to and from the grounds in automobiles.

Lest We Forget.

Members of the G. A. R. and W. R. C. are reminded to be on hand Monday, May 11th for the presentation of flags to the Washington school at 2 o'clock, thence to the Jefferson school at 3:30. Short programs are being arranged, and everyone who can come will be welcome. Old glory is just as bright and just as dear as when we went to war over fifty years ago, so turn out and do some of the cheering.

To the Public.

W. J. Jones has opened up a bakery and confectionery store on north Locust street and will handle bakery goods, home-made candies, cigars, tobacco and serve lunches.

The cadets and the glee club boys have been doing some heavy practice this week for the entertainment this evening and the evening will be one of great interest to any who wish to attend. The glee club boys have a number of good selections and the comedy "Heirs at Law" which will be given by the cadets is very humorous and either of the attractions is well worth the small price asked for admission. The proceeds of the concert are to go toward the expenses of the high school cadet encampment at Gothenburg the last week of the school year.

Arrangements have been with Frank Wedge, known as the "fighting parson," to come to this city May 21st and lecture in the Christian church. His lecture is along the line of temperance and popular amusements. Wedge was at one time a miner and then decided later to go into the prize ring. After several years in the prize ring he decided to be a preacher and took a college course and entered the ministry.

County Superintendent E. Minnie Grouse of Arthur county was in the city yesterday consulting with Miss Chappell. Miss Grouse was only recently put in office and her consultation here was to obtain information on the running of county affairs.

John R. Ritner has been hired by the county commissioners to build concrete bridges and culverts for the county this summer in the place of letting them all out by contract. Mr. Ritner has had considerable experience in this line of work and the commissioners are attempting to save money on the bridges by hiring the work by the job instead of letting it out by the contract. There are a number of bridges and culverts to be constructed in the south part of the county and they intend experimenting to find if they can not be built by the county at a saving. The engineer will figure on the cost of the bridges and the material needed and in this way they hope to save the contractors profit for the county.

The trial of Thomas Sloan and George Verd was resumed before Judge Grant yesterday afternoon and the two men were bound over to the jury term of district court which will meet in December and their bonds fixed at \$500. Both men protested their innocence and asked that they be allowed to go free. The evidence against them was strong enough that the judge bound them over, although all the evidence was not introduced.

THE

Rexall

STORE.

There are in the United States, Canada and Great Britain over 5,000 retail druggists who have affiliated for the purpose of cementing public confidence in their stores. Each of these men is a dependable druggist, a man of business integrity and his store up-to-date.

That the public might easily locate these stores they display the sign "The Rexall Store." When you want your prescriptions accurately compounded with pure, fresh, full strength drugs, in the exact manner as intended by your physician, and wish all that is best in drug store service—look for and patronize "The Rexall Store." By doing so you are assured of prompt pleasing service and lowest prices, consistent with high quality.
