On a hot day what is better than an afternoon under a cool tent listening to a worth-while Chautauqua program?

Install Large X-Ray Machine.

The Physicians and Surgeons hospital has just completed the installation of a large new X-ray machine which will add greatly to the efficiency of their already well equipped hospital. The X-ray is recognized as one of the greatest scientific discoveries for the treatment of many diseases and ailments and the one installed is of the most modern design and is equipped with all modern appliances. The hospital has made a marked growth since its organization but a few years ago and this has been due to the fact that nothing was spared to make it one of the best in the state and the best in western Nebraska. It has handled a large number of patients and they have all gone away satisfied with the treatment that they had received and with words of praise for the hospital staff and the corps of nurses. With the addition of the new machine they are now better equipped to handle patients and it is something that should command the attention of everyone, for none knows just when he will need a hospital and want the best.

Edward Hastings, wanted in Chicago for white slavery and safe blowing, jumped from passenger train No. 8 Saturday evening at the railroad bridge east of town. He had been captured in San Francisco and was being taken to Chicago by the sheriff of Cook county. The train was stopped and the sheriff phoned Sheriff Salisbury who at once began a search. Hastings was followed north and located in the barn of Charles Robinson, four miles northeast of town. He was brought to town, lodged in jail and taken east on No. 4.

Word was received here yesterday from Keith Neville from Florida announcing that he and his family would start home today, arriving here in about a week or ten days. They will come by boat to Baltimore and from there will go to Charlestow, where they will visit for a week with Mrs. Neville's relatives. He also announced in his letter that he had been made a member of the St. Petersburg Tarpon club at St. Petersburg, Fla., and that he made a good record with tarpon-fishing, catching several large ones. He will bring several of them home with him and one of them, which is seventy-three inches long and weighed one hundred twelve pounds, he will present to the local Elks club.

Saturday is the Last Day! Even tomorrow may end your chance to have the NEW HOOSIER for \$1.

Will you decide now to come down tomorrow and settle the matter once for all, or will you let tomorrow drift by—and then realize you are too late to decide, because of the close of the Hoosier Plan of Sale?

Scores of other women are in your state of mind. They are reading this final call tonight. And many who have postponed as you have are making up their minds tonight to come down tomorrow for a final decision.

A choice still remains between "White Beauty" (selected by 3 out of 4 women) and the Hoosiers with "Oak" interior. But the numbers are few and you cannot hope to get one if you delay. You incur no obligation by coming, so let other matters wait tomorrow while you settle this important question.

You could scarcely imagine a decision of more importance to you. For the new Hoosier is a wonderful labor-saver—already used by 700,000 women. It saves miles of steps and hours of valuable time. It saves health and good looks. It is very low in price—and on the liberal terms of the Hoosier Plan is the Cheapest Kitchen Cabinet Ever Built.

The Hoosier Plan is Simply This:

1. \$1 puts any Hoosier you select in your Home.
2. \$1 weekly quickly pays for it.
3. The Low Cash Price fixed by the Factory prevails strictly.
4. The Sale is under direct supervision of the Hoosier Company.
5. No interest. No extra fees.
6. Your money back if you are not delighted with your Hoosier.

What Possible Reason can remain to deprive you of the use of this Hoosier? Only the small number of Hoosiers left and the certainty that more women will come than we can supply. Every day we have enrolled more women on the Hoosier plan than we expected. There are fewer cabinets left for tomorrow than we have sold in one day. These few undoubtedly would be taken without this ad, but we make this final announcement to keep our promise to advise you of the last day.

We Now Have Kept Our Promise to You

Please remember, if you come too late, that we have told you every day of the progress of this sale, and that we now warn you of the final date in time for you to still enroll if you act early tomorrow.

His hair is bothering most and it is in a rather serious condition. An X-ray examination of the hip will be made in order to ascertain the exact extent of his injuries. His sister, Miss Helen Adair of Kearney, accompanied him here and will remain here during his illness.
