Senator Hoagland for Lieutenant-Governor

Senator W. V. Hoagland, of this city, mailed to Lincoln last night his nomination as a republican candidate for lieutenant-governor. This action followed the urgent request of republicans of western Nebraska as well as many in the eastern part of the state. Mr. Hoagland had been prominently mentioned as a candidate for governor, but declined, as success in such a candidacy would mean the abandonment of his law practice for at least two years. If nominated and elected lieutenant-governor it means his absence from his business only during the session of the legislature.

The Tribune is pleased with Senator Hoagland's action, and will have more to say of his candidacy in the near future.

Land Case is Settled out of Court.

The case of the Benton cattle company vs Fred Pierson, J. W. Baughman, W. S. Coker and Simon Brogan, which was recently taken before the federal court, has been settled out of court. The case involves nearly 25,000 acres of land in the Sutherland vicinity and has been under dispute as to who had the rightful lease of it. The Benton cattle company had it last year and their lease run out this year and they leased it again from the Union Pacific company, who claimed the land belonged to them because the buyer, Mr. Baughman, had failed to make payment on it.

Suit was filed in the district court to compel the Benton company to remove their stock from the premises and they in turn filed suit in the federal court to enjoin the Sutherland men from pushing their action to the district court. The judge was sick and the case did not come to trial and was later settled out of court.

They expect to reach San Francisco, which is their destination, about October 25th.

CHASE & SANBORN'S Seal Brand Tea

The Best TEA for ICE TEA

BREW in the same manner as though serving hot, only make a little stronger, as the addition of ice will reduce the strength.

When cold, add a small quantity of lemon juice and allow a few thin slices of lemon to float on top.

Add sugar to suit taste. Use cake of ice large enough to keep it thoroughly chilled.

FOR LARGE QUANTITIES

use three ounces of tea for each gallon of water.

As a special favor from Chase & Sanborn we are able to give to our Tea and Coffee buyers

A Handsome Four-Cup China Tea Pot

with every purchase of two pounds of Chase & Sanborn's Coffee or one pound of Chase & Sanborn's Tea. The tea pots will be limited one to a family as our supply will enable us only to do so.

This is a treat that we are not able to offer very often as these tea pots are direct from the Chinese potteries in the heart of the tea growing districts.
