Sealed bids will be received up until Friday evening, August 21st, 1914, for the log school house in District No. 3. Removal must be made at once. Address bids to D. E. McDONALD, 5414 North Platte, Nebraska.

EVERY POSSIBLE TEST BEING MADE ON WATER

SAMPLES SENT TO THE STATE BACTERIOLOGIST AND ALSO TO THE UNIVERSITY

Also Make Test to Find if Sewage is Seeping Into Wells—All of the Old Wells are Cut Off.

Every possible test is being made to determine if the water from the city water works plant is impure or not, and so far the tests have shown that the water is not the cause of the scare of typhoid that is going around. In case it were the water there would probably be two hundred and fifty cases instead of the six or seven actual cases that have been reported.

Water Commissioner Welch has made an actual test that shows conclusively that there is no seepage from the sewers into the wells as has been reported by many. The test was made on the shallowest well that is being used, also the closest to the sewers, and with a forty-eight hour pumping test on the well it showed that there was no possibility of there being any seepage. The test was made by digging down to the surface water at the well, and coloring the water, so that if there was any seepage the colored water would get into the pumps. The water was watched closely for forty-eight hours and none of it went through the pumps. The well was also tested to find out if it leaked any place and it was found to be all right. It is seventy feet deep and the seepage would have to go to that depth to get into the well, in which case it would be well filtered.

All of the old wells and the shallow wells have been cut off and no water is being used from them. Six wells at the southeast corner of the plant which have been abandoned for several months were disconnected so that there could be no possibility of the water from them being used. These wells range in depth from thirty-eight to forty-three feet.

Samples of the water were sent off some time ago to the state bacteriological laboratories of which Dr. Wild has charge to have it analyzed, and it was sent back because the laboratories were so busy that they could not make the test before the middle of the month. Saturday evening Commissioner Welch sent a sample to Dr. Waite of the state university and it will take about a week to hear from that. Tests of the water have been made by local physicians and they have so far failed to find anything wrong with it.

A number of people have spoken about the water having a smell when it is freshly drawn from the hydrant. This is due to the fact that there is iron in it and not because it is impure or is in any way contaminated. All water that is pumped through iron pipes has more or less smell from coming in contact with the iron, whether it be city water or pumped from a private well. According to the statement of Dr. Lucas, city physician, there is no danger from the water, so far as can be determined, and that is also the opinion of the other physicians of the city. He, however, says that there might be some danger from the milk supply, although the dairies of the immediate vicinity of the city have been inspected and found to be clean. Investigation will be extended to the dairies in the country that bring milk into the city.

A Washington dispatch states that Congressman Kinkaid, in line with suggestions made by State Senator Hoagland of this city, is prepared to introduce a resolution in congress requiring the secretary of the interior and reclamation officials to release the surplus water in the Pathfinder dam and allow it to flow down the North Platte river.

The Woman's socialist study class will meet Wednesday afternoon with Mrs. Frank Martin, 304 east Tenth street. A letter from a friend will be read and all members are requested to be present.

I hereby announce myself a candidate for democratic nomination for sheriff subject to the decision of the voters at the primary election August 18th. I. D. BROWNFIELD, Hershey, Nebraska.

Mr. and Mrs. J. N. Scofield left yesterday for their home in Lincoln, having spent several weeks visiting at the home of Mr. and Mrs. Fred Ginn.

Anyone wishing sewing done call on Miss Katie Spies, Phone black 161. 5612p

Mrs. Harris, of Lyons, Kan., is the guest of her daughter, Mrs. J. B. Red field.

Notice
Sealed bids will be received up until Friday evening, August 7th, 1914, for the removal of the log school house in district No. 3. Removal must be made at once. Address bids to D. E. McDONALD, 5414 North Platte, Nebraska.

CITY AND COUNTY NEWS

Miss Vivien Knox of the district clerk's office is spending a vacation of two weeks visiting in Denver and other Colorado points.

Stove repairs. P. McGovern, 511 Locust street, Phone R. 260. 56-4

Miss Jennie Mitchell of Lexington, returned to her home Saturday after a two weeks' visit with her aunt, Mrs. M. V. Mitchell, of this city.

John E. Koontz and family will leave in a few days for their homestead, which is located twelve miles south of Hershey, where they will reside.

Miss Jennie Armstrong, who has been visiting in the city for a week at the home of Mr. and Mrs. Dorr Tarkington, left the last of the week for her home in Sidney.

Mrs. E. S. Davis and son Robert, who had been making an extended visit with friends in southwestern Iowa, returned home Friday evening.

A complete line of fall skirts, best and latest styles; see for yourself; and our prices are right, too. E. T. TRAMP & SON.

Mr. and Mrs. Anton Puschman leave this week for Arthur county where they will locate on a 640 acre homestead and which will be their home for three years.

Four gentlemen of German descent are in town for the purpose of organizing a lodge of the Sons of Luther. As we understand it, this society is anti-Roman Catholic.

For Sale—My household goods. Call at residence, mornings, or phone J. F. Claubaugh, 204 W. 2nd St. 53-4

The ladies aid of the Presbyterian church will meet at the church parlors Thursday afternoon. The Mesdames Morris Fowler, Ora DeFord and T. J. Kerr will be hostesses for the occasion.

Miss Harriet Dixon was operated on for appendicitis at the Mayo brothers' hospital at Rochester, Minn., Saturday and is reported to be getting along nicely. In the past Miss Dixon has had several attacks of the trouble, but relief was afforded without an operation. Three weeks ago in company with her mother and brother, she went to Lake Minnetonka and while there was again afflicted. This time an operation was imperative and she was taken to the Rochester hospital.

Outdoor Meetings are Popular.
Many attended the union church services on the high school park Sunday evening and the interest is now gaining rapidly. The audience was well pleased with the services and better order is being observed as the people get more accustomed to outdoor meetings. Music was furnished by the choir of the Presbyterian church and Rev. Christie of that church delivered the address.

The largest crowd of the season attended the band concert following the church services. The court house lawn was crowded almost to capacity. A nice program was rendered and the solo by Arthur Tramp was deserving of special mention. A number of the band boys have spoken about the order and they ask that the people make less noise while the music is going on. Especially, the children are asked to keep more quiet and not run and play near the band stand. It not only bothers the band boys, but it also prevents the people from hearing the concert. The concert is for all and all are welcome, but each is asked to appoint himself a committee of one to keep good order while the band is playing.

OMAR E. GARWOOD, 'SUFFRAGIST' SPEAKS OF EQUAL SUFFRAGE

Attorney Omar E. Garwood of Denver spoke last evening on the school house lawn to a good-sized audience on the question of equal suffrage. His address was of an educational nature and was especially adapted to the skeptic. He took up largely the arguments against the equal ballot and showed the inconsistency of each one in a clear and concise manner.

Following the lecture Mr. Garwood held an open meeting and asked that any present who had questions to ask would ask them and that they do not go around and misquote things that he had said. A number responded and many points were brought out in this way in favor of the ballot for women.

FOR SALE

Rare bargains in city property. See Bratt & Goodman.

Buchanan Ranch For Sale
480 acres 1 1/2 miles west of Sutherland. 120 acres under ditch, 95 acres in alfalfa, 20 acres in beets, 80 acres dry farming above ditch, 5 acres orchard and grove, 280 acres pasture, all well fenced, good six room house, large barn, corn crib, granary, chicken house, hog shed and pasture, sheep shed, corrals and two good wells, and windmills. International Harvester Farm Wagons

FOR many years the Weber wagon has been accepted as the standard of wagon value everywhere. No model of the Weber wagon was ever so good as the 1914 model now on the market.

The Columbus wagon this year is the equal of the Weber wagon in every way; where quality and features are concerned, the Weber and Columbus wagons are twins. One good feature common to both is the International fifth wheel, making these **The Only Fifth Wheel Farm Wagons on the Market**

The International fifth wheel prevents the pulling up or pitching of the bolter, and therefore does away forever with bent and broken king pins and circle bolts. This one feature is worth a trip to town.

Go to the I H C local dealer who handles Weber or Columbus wagons and ask him to show you the fifth wheel on these wagons. If you don't know who handles them, write to us and we will tell you where you may see them.
