

## MOREHEAD AND HOWELL WINNERS

LATEST REPORTS SHOW LEAD IS INCREASING.

### SOME STATE OFFICES IN DOUBT

Returns on Congress Make Outcome Certain; All Nominations for State Legislature Assured.

Omaha.—The latest primary election returns show the lead of Morehead and of Howell for the major party nominations for governor are increased as are those of the apparent winners of most of the state office nominations. But the contest for the republican and democratic nominations for state superintendent of public instruction, republican nomination for lieutenant-governor and republican nomination for university regents have become closer.

Receipts of practically complete returns from Lancaster county are a

principal factor in the latter feature. Lancaster gave Hoagland a 1,400 plurality over Shotwell for republican lieutenant governor, which cut just that much out of Shotwell's big Douglas county lead. Hoagland is gaining steadily on Shotwell throughout the state and it is simply a question of whether the latter's "home county" lead can hold out against these inroads.

Returns on congress make the outcome practically certain.

John A. Maguire, democratic congressman in the First district, has been renominated. C. F. Reavis of Falls City will be his opponent on the republican ticket.

T. W. Blackburn has defeated Howard and Sorenson in the Second district. Congressman Lobeck, democrat, is renominated over Monahan.

Congressman Stephens, democrat, is renominated in the Third district. Spillman is the probable republican nominee.

In the Fourth district, Congressman Sloan, republican, is renominated. The nomination of Walter H. Rhodes, democrat, is assured, he having no opposition.

In the Fifth district, Shallenberger has the democratic nomination for congress, with Congressman Barton renominated on the republican ticket.

Sixth district congressional returns are practically nil. M. P. Kinkaid, republican, had no opposition.

The following figures on the state ticket include Lancaster county practically complete and 116 of the 122 precincts in Douglas county.

#### Supreme Chief Justice.

Ten counties and seventy-eight precincts on the non-partisan judicial ballot: Palmer, 5,392; Reese, 6,215; Hollenbeck, 8,722; Brogan, 5,240; Hunt, 4,288.

#### Repudiate Federal Money.

Mexico City.—A decree has been issued by the governor of the federal district, repudiating government notes of the issue of July 25 last. This issue was made during the regime of Provisional President Francisco Carbajal on the authorization of the \$60,000,000 6 per cent. ten-year gold bonds made by the Huerta administration. About \$10,000,000 of this paper is now in circulation.

The repudiation is based on the decree issued by Venustiano Carranza on April 26 refusing to recognize the

#### File Expense Accounts.

Candidates for offices have begun to report their items of expense to the secretary of state as required by law. All of these with few exceptions show that the largest item was for printing and advertising.

Ross L. Hammond for governor reports \$591.75. George C. Hale, democratic nominee for state treasurer, \$264.24. Will M. Maupin, \$79.06. W. H. Young, nominee for railway commissioner, \$276.00. James Pearson, democratic nominee for lieutenant-governor, \$90.00. Richard L. Metcalf, democratic nominee for governor, \$647.20. Henry Peterson, republican nominee for railway commissioner, \$54.80. James C. Dalzell, for congress, \$108.67. Addison Wait, for secretary of state, \$252.80.

#### Plan to Attack Law.

Assault on the blue-sky law, passed at the last session of the state legislature, is being planned by Omaha firms, which come under its jurisdiction. That is the word brought to the railway commission.

The law's safety has been the cause of many anxious moments on the commission's part for several months. Weaknesses have been found which were not seen by the legislators. And apparent foundations of the law have been determined constitutionally void in other states, and the Nebraska law is affected thereby.

A provision inserted in the Nebraska statute may or may not save this entire law. This says in effect that "should the courts declare any portion of the act unconstitutional or unauthorized by law, or in conflict with any other section or provision of the act, then such decision shall affect only the section or sub-section so declared to be unconstitutional."

Further the Nebraska lawmakers took the unusual step of declaring in the act that "each section and provision thereof, so far as inducement for the passage of the bill is concerned, is independent of every other section, and no section or part thereof is an inducement to the passage or enactment of any other section or part of a section."

#### Help Boys' Fair Encampment.

Eight lines of work with two lectures in each line will be furnished by the Nebraska College of Agriculture at the state fair this fall. The subjects to be treated will come under the departments of agricultural engineering, agronomy, animal husbandry, animal pathology, dairy husbandry, entomology, farm management, and horticulture. This will be one of the many features of the fair that will be of interest to the boys.

#### Refuge Gold in Payment.

A more pleasant incident was when a party of Uhlans clamored for admittance at a villa on the Louvain road. They disposed of a dozen bottles of wine and bread and meat. The non-commissioned officer in command asked what the charge was and offered some gold pieces in payment. The money was refused.

#### March Forward for Hours.

Hour after hour, hour after hour, the Kaiser's legions marched into Brussels' streets and boulevards. Some regiments made a fine appearance. It was notably so in the case of the Sixty-sixth, Fourth and Twenty-sixth. Not one man of these regiments showed any sign of excessive fatigue after the grueling night of marching, and no doubt the order to break step was designedly given to impress the onlookers with the powers of resistance of the German soldiers.

#### What It Costs to Kill One Man in Modern Warfare

The cost of killing a man is obtained by dividing the total cost of a war to any of the belligerents by the number of men killed on the other side.

In 1870-1871 France spent \$400,000,000 in the actual expenses of the war. Repairing materials and giving succor to the victims of the war, expenses that are justly to be added, cost another \$200,000,000. France paid \$1,000,000,000 as war indemnity, plus another \$400,000,000 in interest on the sum, loss of revenue, forced contributions by the enemy and upkeep of the German army of occupation. This third category of expenses, not being inevitable in all wars, cannot properly be included.

On a similar basis here are some facts about other wars:

Russo-Turkish war (1877-1878)—Turkey, \$400,000,000.

Russo-Japanese war (1905)—Russia, \$1,200,000,000.

The number of men killed or who died of wounds in these wars were:

France-Prussian war—Germans, 28,600.

Russo-Turkish war—Russians, 16,600.

Russo-Japanese war—Japanese, 58,600.

Whence it results that the cost of killing each man was as follows:

In 1870-1871, \$21,000.

In 1877-1878, \$15,000.

In 1905, \$20,400.

What will kill the greatest number and reduce the effective force most will be not the rifle or cannon, but fatigue, typhus or cholera.

#### Phantom Ships.

British war vessels swarm (just out of sight) off our coast, says the Hartford Courant. German war vessels (just out of sight) are hovering about the Atlantic to capture French or British ships. Mysterious searchlights flash along the eastern horizon for the entertainment of those at the seashore. Startling, indeed—and then "nihil fit." What does it recall to the adult mind? Don't you remember that mysterious "Spanish fleet," which spread a scare all along the coast, not by any means omitting Washington? There never was any such fleet, but that made no difference. Thoughtful residents of Boston quietly transferred their safe deposit contents to similar depositories in Worcester. Conservative New Haveners went to Hartford and put them in safe deposit there. The fleet never showed up, but the scare did, and now the ghost, the same old specter, is on the job again. Will it materialize this time?

#### Modern Russia's Founder.

Alexeevitch, usually styled Peter the Great, was the creator of modern Russia, the father of such civilization as Russia may be said to possess, as well as the first czar of Muscovy to assume the title of emperor, as students know. The students also know that the father of his country, while reforming others, neglected to reform himself, an omission not peculiar to Peter—and remained to the last a coarse and brutal savage and tyrant, addicted to the meanest vices and finding his greatest joy in torturing his enemies. Often he lopped off ten or twenty heads in succession, and was immensely proud of his horrid dexterity with the sword.

## MORTGAGES FILED

SHOW MILLIONS OF DOLLARS LESS THAN PREVIOUS YEARS.

### CANDIDATES GIVE EXPENSE

Primary Election Reports Are Being Filed with the Secretary of State.

Lincoln.—Farm mortgages filed in Nebraska during the year 1913 aggregated millions of dollars less than at any time in the past five years. And farm mortgages released during the same period totaled millions more than at any time in the five-year period. This interesting piece of news is conveyed in the annual report just issued by the state labor commission. There were 21,543 mortgages filed in 1913, totaling \$42,628,098. The year previous the total amount of the 20,716 mortgages filed was \$58,766,518. Mortgages released in 1913 totaled \$40,241,192. This is the first time in the history of the state that mortgages released have come so near equaling in amount the mortgages filed.

Butler county led in the total value of farm mortgages filed. Its figure was \$1,891,523. Hayes county recorded a total of only \$50,229 and was low in the list. In farm mortgages released Knox county led with \$1,779,239. Hitchcock county was low in this column with releases totaling \$27,480.

Douglas county figures show farm mortgage filings to the number of 113 for the year. The aggregate amount represented was \$563,668. Mortgages released in the same county were valued at \$335,999.

Totals for the state during the past five-year period were:

Mortgages Filed.		
Year.	No.	Value.
1913.	21,543	\$42,628,098
1912.	20,716	\$58,766,518
