MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa .- "From a small child my 13 year old daughter had female

weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vege-

table Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy." - Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy. If you are ill do not drag along and

One of the principal owners of a promising gold mine was expatiating on its merits to a capitalist and prospective investor. He described the vein in which the miners were work ing, showed him specimens of the ore, and backed up his statements with the written opinions of experts.

"Well," admitted the capitalist, "it looks as if it might be a good investment. As my old Uncle Hiram would say, it has 'p'ints.' "

"Pints!" exclaimed the owner, carried away perhaps by his over-anxiety; "why, sir, we're in quartz right now!"

Wring the clothes out of hot water, put into it the hot pulp twoquarts at a time, and hang up to drain. When no more of the juice drops, squeeze the pulp as dry as possible, keeping the cloudy portion separate. To a quart of the juice add a cupful of sugar or less, cook for twenty manutes, then bottle and seal the corks with wax.

Spiced Grapes.-Wash and stem the grapes, rejecting all that are not perfect. Remove the pulp by hand, dropping the pulp into a kettle and cook until the seeds may be easily separated in a sieve. To this sieved pulp add the skins, then measure. For four quarts add a half pint of good cider vinegar, three pounds of granulated sugar, one ounce of whole cloves, a half ounce of cassia buds and two ounces of stick cinnamon. Tie the spices in a cloth and put into the kettle with the vinegar and stir until the sugar is dissolved. Add the grape mixture and boil until thick as marmalade. Bottle and seal.

Grape Ice .- Boil together a pound of sugar and a pint of water, cool and add a pint of grape juice and the juice of one lemon. Freeze as usual.

DEMAND FOR BETTER ROADS

o Reason Why Portion of Tax Should Not Be Used in Putting Highways In Better Condition.

There is a growing demand for nore and better road making during the autumn months. In many localiles the roads become filled with deep ruts and the wheel tracks so depressed during the summer that they collect rains which soon wash them nto gutters which soon ruin the roads for heavy loads and comfortable travel. There is no reason why a portion of

A Durable Stone Culvert.

the road tax should not be used for putting the highways in good condition for travel, says Northwestern Agriculturist. The split log drag and other road-making implements should be put to work before the ground freezes. The outside of the roads should be brought into the center of the track which will establish a crust that will shed the water, rather than retain rains, which are sure to occur during the late fall and early spring months. Roads having a full-high center are quite sure to remain in goodcondition during the rainy season of fall and spring. Steep hills, where water is apt to collect in wheel tracks. should be provided with open gutters on each side into which rains may be diverted with an occasional crest over which water cannot pass. Approaches to bridges and culverts should be so filled with earth that vehicles of all improved when covered with gravel. This is a season of the year when such work can be accomplished at a minimum expense. Every township should own gravel pits from which road-making material can be cheaply obtained Concrete roads will soon become popular. The time material only should be used in making small bridges and culverts. A good quality of sand and gravel is necessary to make serviceable concrete. Every farmer should have a special interest in all roads adjoining his premises and leading to market.

INCREASE THE LAND VALUES

Strong Argument in Favor of Good Roads is That They Enhance Value of Bordering Farms.

It takes all kinds of arguments to interest the numerous types of men found in every community in public improvements. One man will sanction and work for good roads when he is convinced that they will shorten and expedite the haul of some special crop that he produces. Another will assist because he owns a motorcar. One of the most effective arguments is that good roads will enhance the value of farms bordering upon them, says Breeder's Gazette.

Several real estate dealers in lowa have begun to advertise land as located "on the Lincoln Highway." Experience has shown that this is a strong "talking point." Of course the great national road is not finished, but it is already famous, and since it will steadily increase in historic interest many properties abutting it will probably acquire an augmented selling value. Unfortunately only a small percentage of farms are located on the Lincoln Highway, but that thoroughfare marks the inauguration in this country of the old-world attitude toward convenient and pleasant highways and byways as a means of socializing and upbuilding a largehearted, broad-minded citizenship.

Age of Progress.

The age is progressive. Fifty or sixty years ago this country began to build railroads, and now we have more than nearly all the rest of the world together. In place of crude industrial facilities, we have the very best on earth; yet we are behind other civilized nations in the improvement of our roads. We are beginning now to do with our highways what should have been done long ago.

The spirit of good roads is hereditary.

WITH TRAGEDY IN HIS MIND

Husband Dashed Home in Response to Telephone Call to Find His Worst Fears Were Groundless.

Smithson said a thunderstorm always reminded him of this absurd incident in his early married life. He said it happened when their first baby was only two months old, so he might be pardoned if his solicitude exceeded his sober judgment. He was at his office one afternoon when a terrific thunderstorm broke which crashed enough to frighten anyone, so when the 'phone rang and his wife's voice tremulously asked "George, dear, can you come home right away?" he said, "yes," quickly, nor paused to question, but frantic with misgivings, grabbed his hat and almost ran through town to his home.

Arriving all breathless, he found his wife awaiting him on the porch, her face the very picture of distress. Rushing up to her he said anxious-

A Good Shot.

A San Franciscan, who had been hunting in the vicinity of Lake Tahoe without bagging any game, came upon a mountaineer who was feeding a caged wildcat he had caught the day before.

"How much will you take for that beast?" he asked.

The captor said \$5, and the money was paid over. "Now," said the Nimrod, "tie one

another to the cat's neck, and then open the door of the cage." This was finally accomplished and the fierce animal stood straining at its

end of a strong cord to that tree and

tether. The sportsman, who was watching the exercises from the interior of the cabin, leveled his rifle across the window sill, took careful aim and blazed away. The wildcat gave a joyful yell and disappeared in the forest. The bullet had cut the rope,

FACE FULL OF PIMPLES

4240 So. California Ave., Chicago, Ill. -"About a year ago my face was full of pimples and red spots. To sleep one night without ltching was almost impossible.
