FALLS FROM WAGON NECK IS BROKEN

Family of Six.

Grover Dean, a laborer in the employ of Clyde Lake of this city, was killed yesterday afternoon by a fall from a sand wagon, while hauling sand to the Frank Martin home in the Fourth ward. The accident happened about two-thirty o'clock and he lived only about thirty minutes.

Mr. Dean had been in the employ of Clyde Lake for several weeks. was subject to fainting spells and for this reason Mr. Lake had cautioned him to be careful. It is thought that he was attacked with one of these spells which caused him to fall. The accident happened in front of the residence of R. M. Lamb and Mrs. Lamb was the only eye witness.

Mrs. Lamb noticed the man driving past and had just remarked what a large load of sand he had. She was watching him and stated to a reporter yesterday afternoon that he had appeared to stoop over to look at the harness on his off horse. He then stooped over and apparently looked at the horse on the other side when he seemed to lose his balance and pitch head foremost down between the The wagon passed over his Mr. Lamb ran to the Westenfeld grocery and turned in an alarm and men ran up and got the doctors who picked the man up and took him to the hospital where he died in about thirty minutes without regaining consciousness. His neck was broken and he had sustained other injuries, probably internal, and some bruises.

The body was taken from the hospital to the morgue at the Howe & Maloney undertaking parlors and an attempt is being made to find the man's relatives. No arrangements for the disposal of the body have as yet been

Mr. Dean had lived in this city for only a short time. He was a man of about thirty-eight years of age. He came here from southern Kansas and moved into a house on south Walnut street, where he has a wife and five children. They are in almost desti-tute circumstances. He has no other relatives here. Mr. Lake had been keeping him in his employ for the reason that the man needed work. He was a good worker, and while Mr. Lake was concerned about him on account of the fainting spells, he did not feel like discharging him for that reason as he did his work well. A wire was sent yesterday afternoon to Benton he has relatives.

The Marshall Oil company of Lincoln, an independent company in competition with the Standard Oil company, will open up a station here in a short time according to a statement made by Mr. Gregory, a representative of theirs, who visited here Saturday. They will begin work in the near future on the tanks for the distribution of the oil.

Mr. Gregory visited here last week and closed negotiations for the ground which followed proved pleasureable to upon which the station will be lo- the many who participated. They will be located on east Front street near the new power plant and two large tanks will be put in. This will bring probably two more families to this city, one to handle the maker to the right man. work at the station and one for the wagon. It will take some time for the construction of the tanks, but they expect to be doing business this winter. ; This company is entirely indepen-

dent of the Standard company and they have a string of stations all over Minnesota, Iowa and eastern Nebraska. They are continuing to extend their chain of stations and are a growing

VERNE SMITH INJURED THIS MORNING AT MILL

GROVER DEAN IS KILLED AS RE. SUPERINTENDENT TUCKER FINDS SULT OF A FAINTING SPELL HIM WHEN HE COMES TO WORK AT 7 A. M.

Accident Happened on east Eighth Lying in Pool of Blood with Head Street While Hauling Sand—Leaves Badly Cut and Right Arm Broken— And Lain for Some Time.

> Verne Smith, second miller at the North Platte mill, was found this morning at seven o'clock by Superintendent O. W. Tucker lying unconscious in a pool of blood near his rolls with a badly lacerated wound over his right temple and his right arm broken and badly bruised. He had evidently been ying there for several minutes

He was picked up and taken to the P. & S. hospital where it was found that his injuries were of a serious The doctors fear that his skull is fractured, in which case he will have slight chances for recovery. He is lying there now at the point of death and has not yet regained consciousness.

The details of the accident are not known. Mr. Smith works from midlight until noon and goes to breakfast at seven o'clock in the morning when Mr. Tucker arrives. Mr. Tucker came down this morning and failing to see him around walked around in the roll room to find him and send him to breakfast. He found him lying near one of the rolls where he had been wiping. He was bleeding profusely and had already bled a large amount He was lying near some pulleys that run at the rate of about three hundred evolutions per minute

From all appearances he had been viping up the rolls and his arm was caught in one of the belts, throwing him against the machinery which inflicted the wound on his head. He had wiped up the roll near where he was ying and his waste was found on the opposite side of the roll. He had been lown in the engine room only about a half hour previous and had talked

with the engineer, W. E. Carlson. Mr. Smith is a son-in-law to Mr. and Dave Scott of this city. He is thirtyone years old and has a wife and three children. He has been living with Mr. and Mrs. Scott on east Ninth street until his household goods would arrive from Lexington. The goods will arrive today. He is known to many in this city, having lived here off and on for the past several years. He has been employed by the Lexington milling company for some time as second miller and came here fromt hat place.

WAR SUMMARY

Antwerp and the forts surrounding he city are now in complete possession of the Germans, but the greater part of the Belgian army has escaped. It took the Germans just eleven days to capture the strongest fortress in the world.

The fall of Antwerp is evidence that Since assuming the management of even the most powerful forts are no the invaders have successfully employed against every fortified place that stood in their way. These huge guns open gaps through which the besiegers find an entrance for their field artillery and infantry.

With the fall of Antwerp it has beannouncement by the British admiralty that a British force consisting of

With the Belgian army when it marched out of Antwerp went the British, but during the retreat one of the British brigades was forced to find refuge in Holland, where it is now interned. The other two brigades reached Ostend. The British losses at Antwerp are reported to be 300.

On the East Prussian frontier the battle between the German and Russian forces continues with unabated

lin to Lemberg.
