Everett H. Kendall reporter for The Telegraph is reported slightly convalescent at the P. & S. hospital, where he was taken Friday night. He is quite sick, however, and will probably be confined to the hospital for several weeks. He is suffering from a severe attack of stomach, liver and intestinal trouble.

"Rally Day" will be observed next Thursday afternoon, at the Presbyterian Ladies' Aid Society. Mesdames Prosser, Perret, Sorenson, Dillon, Deates and Fenwick will serve a special lunch and every member is urged to be present and bring or invite their friends. A program of instrumental and vocal solos, and children's verses will be given in the auditorium beginning at 3:45.

S. T. Richmond was quite badly hurt Saturday afternoon at the home of B. A. Wilson of south Elm street when he fell from the roof of a building and struck on a wagon wheel. He was helping Mr. Wilson do some repairing and slipped and fell a distance of about ten feet. He was badly bruised about the body and the lower part of his spinal column was hurt, but he is in no danger. He is, however, confined to his home.

Orders were received the first of the week by Field Manager Bryan and and bees are being stored at Hershey, O'Fallons, Nichols and Sarben. The Grand Island factory grounds are already covered. These latter grounds extend about a half a mile along the tracks but the piles are not high, warm weather of the past forbidding, but these conditions at this time of year only going to show the enormous crop of bees that will be harvested this year. You might say the crop moving has hardly been started yet. The storing of bees will probably not last long, as it is expected all stations will be opened again some time next week for regular shipping. Mr. Bryan informs us that some of the last cars from Hershey received at the factory showed a decided gain in sugar and purity, testing as high as 14.5 percent.—Hershey Times.

LUTHERAN BROTHERHOOD WILL HOLD BANQUET

The men's brotherhood of the Lutheran church will hold a banquet at the Masonic hall Monday evening, November 9th to which all the men of the church will be invited. They expect to have a hundred men present and are planning a big time. The main feature of the banquet will be an address by Dr. Baltzy of Omaha who will address the men. Dr. Baltzy is pastor of the Kuntz Memorial Lutheran church of Omaha and he will speak on his travels in Palestine and other parts of the old world. He has but recently returned from Europe and was caught in the war trouble while there and has some interesting experiences to relate as to the conditions there. The ladies of the church will serve supper at the banquet and they will be invited to remain for the address and the other social features.

George Argirus, a Greek laborer in this city, was badly beaten up Saturday evening as the result of a brawl on east Front street and is now confined to the hospital with his injuries. The trouble started, he asserts, over a girl and he was assaulted by three of his fellow countrymen one of whom was armed with a club. He suffered several bruises and one collar bone was broken. He was unconscious when brought to the hospital. His head was also badly bruised up in the back. As near as he can remember he was approached from the rear and two of the men grabbed him and held him while the third beat him up with a club. He will be confined to the hospital for some time.

Mary to Mollie.
Mary—"What a beautiful new coat you are wearing Mollie; where did you buy it?"
Mollie—"Why you may know at Elsie's of course; they have the most beautiful line of coats in the city and you can save money enough to buy a good hat by buying your coat at Elsie's."

Two Schools Have Mothers' Day

Mothers' Day was observed at the Lincoln school building Thursday and at the Washington building Friday. At the former about ninety mothers were present and at the latter 125.

At the Lincoln building addresses were made by E. T. Tramp and Supt. Tout, and at the Washington building the speakers were Miss Annie Krampf, Dr. McCabe and Supt. Tout. At both buildings informal talks were made by mothers and teachers, and this was followed by the serving of light refreshments by the teachers employed in the respective buildings.

These meetings of mothers and teachers result in a more hearty co-operation in school work; the mothers become better acquainted with school work, and in cases where dissatisfaction has existed this feeling has been relieved by a better understanding of conditions on the part of the mother.

There has been a lack of co-operation between patron and teacher and this has been detrimental to the best interests of the pupil and lessened the efficiency of the teacher. Through these meetings a spirit of "pull-together" is created that cannot help but result in good.

Navy Yards and Naval Stations.
There are eight navy yards, located at Washington, Brooklyn, Boston, Norfolk, Va.; Portsmouth, N. H.; Philadelphia, Mare Island navy yard, near San Francisco, and Puget Sound navy yard, at Bremerton, Wash. There are naval stations at Charleston, S. C.; Key West, Fla.; Great Lakes, North Chicago; a training station at Yerba Buena Island, Cal.; a torpedo and training station at Newport, R. I., and the Naval War college at the same place. Naval stations have been established at Tutuila, Samoa; Island of Guam; Guantanamo, Cuba; Honolulu, Cavite and Olongapo, Philippine Islands. The latter has become an important naval base for the Asiatic fleet.—Philadelphia Press.

First Opera Glasses.
The single opera glass was first used in the time of Louis XIV. It became the rage, and everybody used one. The double opera glass (Jumelle) was invented in 1825, but did not at first find favor with women. A treatise was written in the early part of the nineteenth century on l'art de lorgner, in which it was shown that a woman with fine eyes would hold the glass with both hands. If she were blessed with fine hands she would take off her gloves, if her neck ached she would recline back in her chair, and so on. It was quite a treatise on coquetry.

Each good thought of action moves the dark world nearer to the sun.—Whittier.

An Engine And A Policy.
can do much to relieve one's anxiety in case of a fire, but it is a question if the policy is not the more powerful. It is a good thing to have, in any case, for the fire is liable to wipe out everything before the engines arrive. Suppose you let me write you out a policy in a reliable company? It will take a load off your mind for future days.

Our Papa protects Mamma and us with an old line life policy on his life. He protects hundreds each year. Let him protect yours too.

If you are paying for a home which is mortgaged you are forced to insure the buildings to protect the mortgage in case of fire. The same sense of mind should force you to carry a policy on your life so your family could lift the mortgage should you die. At age of 35 a man has only to bank ten and two-fifths cents a day to protect his family for \$1000.00. This amount he is actually saving if he does not die. It is but a small thing and any man can save this amount. Our Company writes Railroad men on the Endowment plan. Don't put it off, something may happen to you next time out.

It is old line sound as government. The only real insurance for all classes of people. If interested and would like to have it fully explained without obligation upon your part I will ask that you fill out the coupon below and mail at once, or if in town call by phone for appointment.

The Rural Telephone
In the United States the telephone has been extended to small towns, farms and ranches much more generally than in any other country.
In American towns of under 100,000 people, and on the farms and ranches, there is an average of one telephone for every 12 persons; in Europe there is less than one telephone for every 200 people.
Nearly 58% of American telephone exchanges are in very small towns with less than 300 subscribers. In the small towns and on the farms in Europe the telephone is a near curiosity.
The private companies in America have given the American people the lowest telephone rates anywhere and have extended the service until this country now has more telephones and more telephone wire than all the rest of the world.
