### ORGANIZING ASSOCIATED

#### CHARITIES WORK

#### COMMITTEE MET LAST EVENING AND DISCUSSED THE DIFFERENT PHASES OF WORK

Both Money and Children's Clothing Needed at Once to Meet the Needs of the Unfortunate.

The executive board of the Associated Charities met last evening at the library building for the purpose of getting the work better organized, and several different phases of the work were taken up and widely discussed.

The matter which was talked of most was getting clothes for the needy children in the city. The committee has fitted up some shelves at the library building for the purpose of keeping the clothes in a way so that they can get them handily. The clothes are sorted and classified and a record kept of all of them. The great need now is children's clothes, especially from the ages of two to fourteen years. Reports were brought in by different members of children who were in crying need of clothing and they have not enough children's clothes to supply the need. The residents of the city are all asked to save what children's clothing they have and to turn them in to the committee where they will be repaired and sorted into the different classes. Mrs. McKay has been engaged to look after the repairing and altering where it need be done.

The committee brought in a good report of the work that has been done thus far. A number of cases have been found where the families are in actual need. An investigation committee is at work each day looking up the cases and proscribing for them where it is necessary. In some cases the families are worthy of aid from the county, but they are in such destitute circumstances they need food at once and in these cases they are given aid to tide them over and the case is then reported to the county officer. In other cases the fathers have work but they are in need until they can get money for their work. In all of these cases there are several children in the family and many of them very young.

A committee has been out this week canvassing the merchants to get merchandise donated in quantities in which they see fit to give. A large number of merchants have already made donations and there are a number of others yet to be seen. As well as needing clothing in many cases there is need of food and fuel.

The people are asked to get in their donations of clothing, especially for children, as soon as possible, for in case of a cold snap there will be much need in the city and many children will suffer from cold.

A committee also reported that the organization is doing quite well with the finances. A canvass for personal subscriptions was made this week and it resulted in getting over a hundred dollars. However, there is need of much more. In addition to this several of the lodges and other charitable organizations have reported their offerings of money, but in most cases the money has not yet been paid in.

A committee was appointed at the meeting last evening to decide upon what each lodge would be assessed. Some time ago a circular letter was sent out to all the organizations asking for an expression as to what they intended to do. The committee decided that the better way to go about getting in this money was to decide upon an assessment from each lodge and then ask them to make an appropriation of this amount. The large lodges will be asked to give more than the smaller ones and in this way they will give on an equal basis and it will work no hardship on any of them.

Attention Knights Templar. There will be work in the R. C. degree tonight Friday November 13th. Arrange to be present. J. F. Clabaugh, recorder.

Geo. W. Anderson, former photographer, now working for the Union Pacific, was held up and slugged in front of the L. B. Dick residence on west Sixth street shortly after seven o'clock last evening. As Anderson reached the street corner two men suddenly appeared, one striking him on the side of the head with a club or sand bag. He fell unconscious, and when he revived one of the men was sitting on him holding his arms while the other man attempted to get the watch in Anderson's pants pocket. Before the time piece was secured, the highwaymen were frightened away by the approach of two women. Anderson has a bad bruise on the side of his face where he was struck.

### Switzerland's President.

There is one highly civilized country in which not one person in four could give their ruler's name. That country is Switzerland. One reason why the president is almost unknown either by name or by sight is that he is not a public figure at all. He has no privileges as president and no official uniform—not even of the army. Switzerland has a fresh president every year. He has no personal authority as president and is practically only the speaker of Switzerland's unassuming little parliament. It is recorded that at a meeting of Swiss business men no one could recall the name of the president. The waiter was asked. He happened to know, because the president was his uncle.—Philadelphia Times.

### Mayor Says No Fight.

To the Public:—  
Rev. "Kid" Wedge, formerly minister and lecturer, but lately aspirant for pugilistic honors, is in the city training for a ten round "go" with Jack Fitzgerald Monday night.

As much as I would like to see, and have my friends see these men in action, the state and city laws preclude the possibility. I make this statement that no one may regret the price of admission. Respectfully,  
**E. H. EVANS,**  
Mayor.
