NEW SUPERINTENDENT OF HOSPITAL ARRIVED WEDNESDAY

Miss Gertrude Whiston, new superintendent of the Good Samaritan hospital arrived in the city Wednesday evening on a late train and will take charge of the hospital today or tomorrow.

Miss Whiston came here from Detroit, Mich., where she had been studying in the Grace hospital. She is a graduate registered nurse under the Nebraska laws and has had considerable experience in hospital management. For nearly a year and a half she had charge of the hospital at Kearney, leaving there in June of last year.

Since leaving Kearney Miss Whiston has studied in both Chicago and Detroit. She took a full course in hospital economics and institutional management. She is well qualified to be at the head of an institution such as the Good Samaritan hospital is and will become.

Miss Whiston spent yesterday visiting the hospital and getting acquainted with the different people in connection with it. She will take up her duties as soon as her equipment arrives.

The hospital is fast getting on a paying basis. Patients are coming in daily and it is becoming well known over the county and the western part of the state as a reliable institution.

Whiskey is Good in Its Place

A dispatch from Jackson, Miss., quotes the supreme court in upholding a law prohibiting the keeping of intoxicants in social clubs as saying the following: "Whiskey is a good thing in its place. There is nothing like it for preserving a dead man when he is dead. If you want to keep a dead man put him in whiskey; if you want to kill a live man put whiskey in him." Evidently the supreme judge of Mississippi is slightly averse to the use of intoxicants as a beverage.

SUIT AGAINST COMMISSIONER D. B. WHITE AND PARTNER

Suit for judgment was filed yesterday in the county court against White & Brooks, a partnership composed of County Commissioner White and Wm. R. Brooks. The suit was brought by W. H. Jenkins of the Hershey vicinity who is suing to recover money alleged to be due for the sale of hay to the partnership.

In his petition Mr. Jenkins alleges that on or about October 1st 1911 he sold to Messrs. White & Brooks fifty-eight tons and eighteen hundred pounds of hay at the price of ten dollars per ton, a price which was reasonable market value at that time. That the full amount for the hay was \$589. That on or about November 1st of that year the men paid two hundred dollars of the amount and that there is still due \$389 together with interest from November 1st, 1911. He asks judgment for the full amount yet due together with interest at seven per cent and the costs of the suit.

JAS. A. LEONARD PLEADS GUILTY TO FORGING CHECK

James A. Leonard yesterday in the county court pleaded guilty to forging a check to the amount of \$32.25 on the firm of Harcourt & Jensen of this city, signing the name of H. M. McConough. He was bound over to the district court on the charge and his bond was fixed at \$1,000 which he was unable to furnish. He will be held at the county jail until his arraignment in the district court.

Mr. Leonard stated yesterday to County Judge French that he pleaded guilty because he did the deed. However, he stated that he was drunk at the time and did not realize what he was doing. He does not appear to be a man who would do such a thing with criminal motive and evidently did not fully realize the enormity of the act. He states that he will plead guilty before the district court and accept the penalty of the law. He will be brought before the district court as soon as Judge Grimes returns.

Blackleg Among Cattle Near Keystone.

According to the post mortem examination made Wednesday by Dr. W. T. Pritchard of this city there is danger of an epidemic of blackleg among the cattle in the Keystone vicinity. He examined some cattle which had died there and found the ailment to be blackleg.

The cattle upon which he made the examination belonged to the fine herd of beef cattle owned by Jens Sillisen of that vicinity. Six young cattle had died with the plague within the past few days. They were apparently in excellent condition and their pens were absolutely sanitary and no cause was known for their death until after the examination was made.

Immunity of Children.

Professor Armbruster asserts that the reason very young children are relatively immune to infectious diseases is that their hearts beat so much more rapidly than those of older persons that the blood flows swiftly through the arteries, and this swiftness of flow makes it difficult for micro-organisms to gain a foothold in the blood stream.—New York World.
