We notice by a Humboldt, Kan., paper that the Monarch Cement works at that place will resume operations this week. This is the million dollar plant in which North Platte men hold about one hundred thousand dollars' worth of stock. The plant has not proven a very great success, but the stockholders are hopeful that it can soon be placed on a paying basis.

A Diminutive Sheet.
The indulgence of Tribune readers is asked today, for the size of The Tribune. Paper intended for this issue is reposing in a snow blockaded car on a sidetrack somewhere between Grand Island and North Platte. We trust the Union Pacific will not allow this to happen again.

Gets Jobs for the Jobless.
Postmaster Davis' employment bureau is working to perfection these days; at least it did business successfully yesterday. Five persons were furnished with employment, though the work in four of the cases was only temporary, it gave the men a chance to earn the price of a few "squares." In the fifth case employment for a man and wife was found on a ranch.

Will Vote on the Liquor Question
A petition signed by J. H. Van Cleave and forty-one others was filed with the city clerk Saturday asking that the license question be submitted to the voters at the municipal election April 6th.

It is also understood that a no license ticket, with F. A. Elliott as candidate for mayor, will be placed in the field.

The saloon question therefore becomes the issue in the election next month and it promises to develop into quite a vigorous fight.

The Tie-up at Grand Island
Last evening's Grand Island Independent had this story of the railroad tie-up in that section:

Train service has been crippled badly during the past week. Chief Dispatchers and others who are at the steering wheel in railroading are today beginning to get their heads above the snow drifts and from now on a gradual betterment in railroad traffic can be expected. That this section of Nebraska has suffered the worst of the week's storm is shown by the fact that the Union Pacific has sent its best snow plows here and the snow was sent flying along the different branch routes. The rotary plow was brought from Cheyenne and sent out over the Ord branch. After cleaning this up it will go over the Loup City and Pleasanton branches, over which the first trains for a week will be sent tomorrow. The Jull plow, which has a screw conveyor, was sent to Columbus to clear the main line and then sent over the branch north of that city, while the wedge plow was sent to Kearney and will go over the Calloway branch.

There has been no train service to Ord since last Wednesday. On Thursday Conductor Shoemaker came from Ord as far as St. Paul, and then turned back. There was no train Friday. On Saturday the train came through from Ord and the crew was held up at this end of the line and went out this afternoon on regular time. A freight train was sent up this morning with passenger coaches attached. A coal shortage with the Union Pacific was reported up the line and carloads of coal had to be sent. While there is plenty of coal in the yards here, there was none ready for movement and it was difficult to get at it.

There was no busier man on the job handling the railroad trouble than Chief Dispatcher McNutt. He had not finished explaining incidents of the last snow, before the next storm came on. No sooner would one line of the road be cleared than other blocks were reported. Following the blockades at Buda and Shelton on the main line, Saturday evening a freight train was buried in snow at Paddock, west of Central City, and all night the trains were held up. Yesterday afternoon, the wind which, in this city, did not appear to be strong, drifted the snow in the lower yards. The local passenger No. 21 was the first one to buck a seven foot drift, and it came within a car length of going through when the eyes of the draw bar broke. Trains Nos. 17, 7, and 5 were delayed as a result. Freight trains, which had been annulled, were placed on the schedules today and Chief Dispatcher McNutt expects to move them as fast as he can get the power and train

crews. Passenger trains have been running with two engines and this has taken most of the motive power for the past few days. It is expected that by tomorrow train service will be restored on all branches.

The Presbyterian ladies will hold an exchange in The Derryberry & Forbes window on Dewey street, Saturday, March 13th.

Stamp's eight-piece orchestra has been engaged to furnish their usual excellent music for the fire department dance April 5th.

S. W. McDermott, an employe of the round house, fell in a pit last night and sustained severe cuts and bruises on the head, requiring the services of a physician.

Weather forecast for North Platte and vicinity: Partly cloudy tonight and Wednesday; warmer tonight. Highest temperature yesterday 24, a year ago 54; lowest last night -2, a year ago 27.

We regret to learn that our old friend, M. H. McDermott, of Somerset, is not recovering as rapidly as was hoped from the accident which befell him a couple of weeks ago. At that time he was thrown from a wagon by a runaway team and suffered a broken ankle and a dislocated hip.

The library board held their regiments were made to order 70 new books. The board also decided to put a map of North Platte in the library. They would like a Lincoln county atlas, and would be glad to hear from anyone who will donate one or who has one to sell at a reasonable figure.

Mr. and Mrs. C. O. Weingand returned Sunday from their trip to California. The transition from the land of roses to the snow covered plains of Nebraska was somewhat radical, and probably not altogether enjoyable. The trip included visits to both the San Diego and San Francisco expositions, and was made all the more enjoyable through meeting a large number of former North Platte residents.

Engineer Andy Liddell, who has been sick for some time, is convalescing. He was taken suddenly sick one night while enroute to the round house to take out his engine, and had tied a handkerchief around his mouth to keep out the cold air. Fearing he would not be able to reach home he hailed an approaching automobile. The driver slowed down, but when he noticed that Andy had a handkerchief over his face, he evidently concluded the Andy was a hold-up man and he immediately gave his car the juice and quickly passed on.

Leonard Changes Plea.
James Leonard, who pleaded guilty in the county court to passing a worthless check on Harcourt & Jensen, changed his plea when taken before Judge Grimes Saturday and pleaded not guilty. It was supposed that he would plead guilty before the Judge, in fact he stated that he would, but at the last moment he concluded that he was "railroading" himself to the pen too rapidly and would stand for trial.

The penalty for forging a check in any sum is from one to ten years in the penitentiary.

WHY IT SUCCEEDS
Because His For One Thing Only, North People Appreciate This. Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills are for one thing only.
For weak or disordered kidneys. Here is North Platte evidence to prove their worth.
W. F. Blalock, North Platte, says: "I had an awful, heavy ache across my loins which seemed to take every bit of strength from me. My back was weak and I was so lame that I could hardly stand erect. The kidney secretions seemed to get more disordered as the pain in my back increased and they were unnatural and too frequent in passage. I was advised to try Doan's Kidney Pills and got a box. They cured me of the complaint and I have been well since."
Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Blalock had. Foster-Milburn Co., Prop., Buffalo, New York.
