

**IF HAIR IS TURNING GRAY, USE SAGE TEA**

Don't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Adv.

**The Unreasonable Sex.**

Knicker—Does your wife make you wear rubbers?  
Outlate—Going out; but she won't let me wear sneakers coming in.

**CUTICURA SHAVING**

is Up-to-Date Shaving for Sensitive Skins. Trial Free.

Prepare razor. Dip brush in hot water and rub it on Cuticura Soap held in palm of hand. Then make lather on face and rub in for a moment with fingers. Make second lathering and shave. Rub bit of Cuticura Ointment over shaven parts (and on scalp if any dandruff or itching) and wash all off with Cuticura Soap and hot water, shampooing same time. One soap for all—shaving, shampooing, bathing and toilet. It's velvet for sensitive skins. No slimy mug. No germs. No waste of time or money. Free sample each if you wish. Address postcard, "Cuticura, Dept. XY, Boston." Sold everywhere.—Adv.

Poverty has its good points. A poor man never has the gout.

**Mealtime**

Should always find you waiting with a hearty appetite—  
And your condition should enable you to enjoy your food.  
A "don't care" or a "no thank you" disposition indicates—  
A lazy liver, clogged bowels or impaired digestion.

**HOSTETTER'S STOMACH BITTERS**

Will tone and sweeten the stomach and bowels—  
Regulate the appetite, assist the digestion—  
Help Nature in every way towards improving your general health.  
Try a bottle today, but be sure you get Hostetter's.

**Sprains, Bruises Stiff Muscles**

Sloan's Liniment will save hours of suffering. For bruise or sprain it gives instant relief. It arrests inflammation and thus prevents more serious troubles developing. No need to rub it in—it acts at once, instantly relieving the pain, however severe it may be.

Here's Proof  
Charles Johnson, P. O. Box 108, Linton's Station, N. Y., writes: "I sprained my ankle and dislocated my left hip by falling out of a third story window six months ago. I went on crutches for four months, then I started to use some of your liniment, according to your directions, and I must say that it is helping me wonderfully. I threw my crutches away. Only used two bottles of your liniment and now I am walking quite well with one cane. I never will be without Sloan's Liniment."

Split-Log Drag of Great Service in Keeping Thoroughfares in Shape—How It is Built.

The use of the split-log drag is important in putting the roads in shape. There are over 2,000,000 miles of earth roads in the country, and the split-log drag is of great service in keeping them in economical repair. The drag is used in many states and in foreign countries. It is used with two, three, or four horses, and is easily constructed.

It is a mistake to construct a heavy drag. A dry red cedar log is the best material for a drag. Red elm and walnut when thoroughly dried are excellent, and box elder, soft maple, or even willow are preferable to oak, hickory or ash.

The log should be seven or eight feet long, and from ten to twelve inches in diameter, and carefully split down the middle. The heaviest and best slabs should be selected for the front. At a point on the front slab four inches from the end that is to be at the middle of the road locate the center of the hole to receive a cross stake, and 22 inches from the other end of the front slab locate the center for another cross stake. The hole for the middle stake will lie on a line connecting and halfway between the other two.

The back slab should then be placed in a position behind the other. From the end at the middle of the road measure 20 inches for the center of the cross stake, and six inches from the other end locate the center of the

The Split-Log Drag.

outside stake. Find the center of the middle hole as before. When these holes are brought opposite each other, one end of the back slab will lie 16 inches nearer the center of the roadway than the front one. The holes should be two inches in diameter. Care must be taken to hold the auger plumb in boring these holes in order that the stakes shall fit properly.

The two slabs should be held 30 inches apart by the stakes. The stakes should taper gradually toward the ends. There should be no shoulder at the point where the stakes enter the slab. The stakes should be fastened in place by wedges only. When the stakes have been placed in position and tightly wedged a brace two inches thick and four inches wide should be placed diagonally to them at the ditch end. The brace should be dropped on the front slab, so that its lower edge shall lie within an inch of the ground, while the other end should rest in the angle, between the slab and the end stake. A strip of iron about three and one-half feet long, three or four inches wide, and one-half of an inch thick may be used for the blade.

An ordinary trace chain is strong enough to draw the implement, provided the clevis is not fastened through a link. The chain should be wrapped around the rear stake, then passed over the front slab. Raising the chain at this end of the slab allows the earth to drift past the face of the drag. The other end of the chain should be passed through the hole in the end of the slab.

**Make-Up of Dairy Cow.**

A wide, deep and full barrel or side is very important in a dairy cow. She must have plenty of room in which to manufacture milk from food and a large barrel indicates large digestive organs. A wide mouth and long, strong jaws also indicate that Bossy is, like Bill Nye, "fond of food." She ought also to have a large belly and moderately high flank.

Beautiful Home Grounds.  
Set out fruit trees where they will add to the beauty of the grounds.

**ENDS DYSPEPSIA, INDIGESTION, GAS**

"Pape's Diapepsin" cures sick, sour stomachs in five minutes—Time It!

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, unaged food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Adv.

**Only Fair.**

"Do I understand you to say," asked the judge, "that his remarks were acrimonious?"

"No, judge, your honor, I didn't say that. I said he just swore at me. I ain't a-go'n' to claim that he done what he didn't do."—St. James Gazette.

**GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR**

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any store and just try it. Adv.

**Feminine Charity.**

The Man—I understand that Miss Angular comes of a very old family.  
The Maid—Well, she certainly looks it.

**IF BACK HURTS CLEAN KIDNEYS WITH SALTS**

Drink Lots of Water and Stop Eating Meat for a While if the Bladder Bothers You.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

When a woman has no faith in her husband she can generally find consolation with the fortune teller.

Have Healthy, Strong, Beautiful Eyes  
Oculists and Physicians used Murine Eye Remedy many years before it was offered as a Domestic Eye Medicine. **POULTRY FACTS**

**ORIGIN OF WHITE WYANDOTTE**

White Cochon Blood Was Introduced in Making of Breed as Feathers on Legs Would Denote.

A question has been asked relative to the Wyandotte breed, and why the White Wyandotte will sometimes show a dark feather and even show a faint ruff of feathers on its legs? There are several varieties now of the Wyandotte, but the first to be admitted to the standard was the Silver Wyandotte. From the first the Silver Wyandotte had the rose comb. The next

Flock of White Wyandottes.

variety of Wyandottes to be admitted was the White Wyandotte. The Towie and the Briggs Wyandottes were the first to be shown, each of these fanciers stating that the White Wyandottes kept by them came as sports from the Silver Wyandotte, and yet claim is made that no one can tell exactly where the first Wyandotte originated, as several breeders must have been breeding for this type of fowl at about the same time, and that all the early White Wyandottes were sports from the Silver variety is not likely to be true. It is thought that White Cochon blood was introduced in the making of the White Wyandotte at the beginning, as the size, shape and color of the eggs not only denotes this, but that feathers appear at times on the legs makes this seem probable. Why dark feathers often appear in certain of these birds good enough to show is often a mystery to the breeder. These seldom appear in such numbers that they cannot hardly be pulled out. The purest blood may show these. However, White Wyandottes are improving away from most of their early tendency to reversion.

**HOME-GROWN POULTRY FEED**

Not a Difficult Task to Get Eggs During Winter if Ordinary Horse Sense is Exercised.

To get eggs in winter under the conditions obtainable on a general farm is, I find, no difficult task if ordinary horse sense is used in the matter of feeding and housing, writes W. K. Moore in an exchange. As far as possible I use the food grown on the farm, feeding as soon after daylight as practicable a mash composed of fine corn chop and alfalfa meal, half and half by measure. Feed all that the birds will clean up by noon, then give about one gallon of oats to each 100 hens, scattering it in straw litter in the scratching shed or hen house. At noon, or shortly after, I give all the ear corn they will clean up by night, and let them shell it.

For a meat food I get good results from the cracklings obtained from the local butcher for one cent per pound of which I give about two pounds to every hundred hens three times a week. I find that a good way to do this is to mix the cracklings in the mash when steaming it; this softens them so that the fowls will get every part that is not bone. I keep oyster shell and dry cracked bone before them at all times.

The mash referred to is mixed dry, and boiling water is poured over it and it is left to steam for at least two hours—or better, over night. For variety, I mix with the mash potatoes, beets or anything of the kind that is obtainable; however, a diet of oats, corn and alfalfa, with a little meat, will give good profit in eggs.

The poultry house must be air-tight and water-tight on four sides, the top, north, east and west. The floor may be of earth if proper drainage is arranged so that it will always be dry, and most of the south side may be made of common unbleached muslin.

**Feed White Clover Hay.**

White clover hay is the richest in lime. Feeding clover is a preventive of soft-shelled eggs. Cut clover hay has helped revolutionize the poultry business. Red clover hay contains about twenty-eight pounds of lime to the thousand pounds. Scald the hay at night, and keep it covered, so it can steam. See that the clover is cut to one-third to one-half inch lengths. When longer it is apt to pack in the crop, causing crop-bound.

**Talking Through His Hat.**

When you hear a farmer saying one hen is as good as another, don't waste time trying to find his name among those who attend farmers' institutes. If you don't find him at home he is talking politics at the corner grocery.

**STILL IT WASN'T SETTLED**

Ordinary Mortals May Continue to Pronounce Name of French City as They Desire.

"Wasn't it fearful about the Reems cathedral?"  
"Don't say Reems; it sounds horribly ignorant."  
"Well, how do you pronounce it?"  
"Why, Hranss."  
"How?"  
"Hn—Hranhss! Just as if you were clearing your throat. See? Hranss!"  
"Well, you sound as if you had a dreadful influenza, threatened with grippe!"  
"Well, that's right, anyhow. H—hn—hn—hranhss!"  
"You'd better go to Arizona! You'll never get well here! I don't believe you, anyway. Everybody says Reems."  
"They don't, either!"  
"They do so!"  
"Oh, well, it depends on the sort of people you associate with—"

"Well, I don't go with a lot of fake bigbrows, anxious to show off the French they learned in a course of lessons by mail—"

"Better than a lot of country junks who don't know how to pronounce—"

"Oh, well, the church wasn't hurt much, anyhow."

"No, they say it can be repaired. How do you like my hat?"

"Heavenly! What do you think of mine?"

"Adorable! Let's go in and have soda."

"Let's."—Carolyn Wells in The Woman's Home Companion.

**Remarkable Case.**

"Here's a remarkable account of a man who returns home after 20 years and finds his wife married again."

"Those cases are not so remarkable."  
"The remarkable part is that the narrator does not allude to the returned husband as an Enoch Adren."

Many a woman boasts that she can marry any man she pleases who doesn't please any of them.

The widow of a henpecked man can look as sad as any.

**TOO MUCH FOR TENDERFOOT**

Discovery That Western Life Was Not What He Had Anticipated Proved Fatal.

"Tough luck about the last tenderfoot that struck town," said Chuckwagon Cal.  
"What happened to him?"  
"Well, you know he come out here in fear and tremblin', thinkin' some cowpuncher here in Cactus Center was sure goin' to shoot at his feet and make him dance."

"Yes."  
"And likewise he was sure somebody was goin' to git him on the hurricane deck of a pitchin' boss and bust his neck."

"Uh-huh."  
"And he was dead sartin that, the fast time he stepped out on the street some frolicsome blade was goin' to rope him and drag him half a block jest for fun."

"Of course."  
"Well, none of them things happened, and we buried him today—jest natchely killed by the shock of disappointment."—Judge.

**Not a Bad Plan.**

"What are you doing to allay the suffering in Europe?" asked the self-conscious philanthropist.

"Nothing," answered the unobtrusive citizen.

"What!" exclaimed the other, indignantly. "Have you no heart?"

"Yes, I have a heart, but my means are limited and I'm trying to allay suffering at home by paying my debts."

**Both Bomb Proof.**

Maude—I just had a letter from the duke. Those horrid Germans have bombed his castle.

Chorus—How romantic! Do tell us, Maude—Yes; all they left standing was the mortgage and the mechanics' liens.

Dry-cell-fed incandescent lamps feature a recently invented spirit level for use in dark places.

Many a man is such an enthusiast that you can't even dampen his ardor with a drink.

**Why Try to Fool Your Stomach?**

Some folks have an idea that if they eat big meals, their brains and bodies will be strong.

Strength and energy don't come from gorging the stomach, but depend upon eating the right kind of food.

For nourishment of brain and body, Nature abundantly supplies in her field grains the elements needed.

The famous wheat and barley food

**Grape-Nuts**

contains in splendid proportion all the nutriment of the grains, retaining the mineral salts—phosphate of potash, etc., stored under their outer coat, and which are especially necessary for keeping brain, nerves and muscle in working trim.

Grape-Nuts food is in the form of crisp, nut-like granules—delicious with cream or good milk—easy to digest—economical—

The perfect food for sound nourishment!

"There's a Reason"

—sold by Grocers everywhere.
