If \$20 Is Your Limit for a Suit, Our Shop Should Be Your First Stopping Point

UNLESS you differ greatly from most of the men we meet, you expect your clothes to set gracefully on the figure and to bestow a certain distinction. To accomplish these points your clothes must embody refinement, individuality and decidedly correct fitting qualities.

COLLEGIAN CLOTHES

Those Elks and their ladies who have been taking instructions in dancing from Mrs. Taylor, of Omaha, are learning many new dances, and in addition are having a splendid time socially each evening.

Reporter Wortman is convalescing from his light attack of small-pox and will be released from quarantine some time next week. His suffering from ennui, due to loneliness, has been greater than from the disease.

The legislature has killed the bill appropriating ten thousand dollars for a new building and other improvements at the North Platte substation. The proposed appropriation of \$50,000 for a cow barn at the Curtis school of agriculture was also killed.

The sale of base ball season tickets has been delegated to Miss Edna Sullivan, who for several days has been canvassing the business section with very fair success. It looks, however, as though it will be quite a task to dispose of the one thousand tickets.

If you expect to build this spring, now is the time to get your lot. I have good residence lots in all parts of the city. Let me show them to you.—C. F. Temple. 1812

A committee of merchants who are displaying spring and summer goods waited on Weather Regulator Shilling yesterday and issued an ultimatum to the effect that if warm, bright weather is not forthcoming at once there will be a vacant chair at the weather bureau.

Reports are privately circulated in London that the allies are trying to persuade Austria-Hungary to make a separate peace. The negotiations are necessarily very delicate for they clash with the Italian national aspirations and are based primarily on what Austria-Hungary may win if peace is arranged before Italy joins the belligerents.

Den Wins Gilbert Cup.

The Gilbert silver cup, offered to the member of the Buffalo Bill Gun Club making the best score at 100 trap targets, was won by Colonel John C. Den at a shoot held Tuesday afternoon at the gun club grounds. This cup, which stands about five inches high, was donated by the Dupont Powder Co., but as Fred Gilbert has been with the Dupont Co. for twenty years, he was assigned the right to put it up as a trophy to be competed for by gun clubs in the territory in which he travels, each receiving a cup.

The men taking part in the shoot Wednesday, together with the handicaps given, the number of targets broken, and the total score, was as follows:

A dozen or more North Platte members of the Yeoman lodge attended the banquet and dance given at Sutherland Wednesday evening by members of the lodge at that place. The attendance was large, the menu excellent, the toast replies good and the dance enjoyable. Among those who attended from here were: Mr. and Mrs. W. V. Hoagland, Mr. and Mrs. Chas. Leininger, Mr. and Mrs. Arthur Salisbury, Mrs. J. T. Kerr, Mrs. A. N. Durbin, Misses Maude Owens, Helen Minshall, Cre Diener, Irene O'Donnell, Margaret Craigie and Vivian Knox and Messrs. An Idle Curiosity.

Teacher—The sentence in the lesson is, "He went there out of idle curiosity." How would you define "idle curiosity?" Give me an instance, if one occurs to you.

Bad Boy—Well, I think a mummy is about as idle a curiosity as any I know of, ma'am.—Exchange.

Earthquakes.

An eminent authority on earthquakes believes that any great displacement of the crust of the earth makes the earth to rotate unevenly, or "wobble," and that that unevenness of motion has to be neutralized by displacements in other regions.—Exchange.

Nought.

"I tell you what, sir," said a Yankee of his opponent, "that man don't amount to a sum in arithmetic. Add him up, and there is nothing to carry."—Christian Register.

An Exception.

"How did he get his start?"
"His uncle left him some money."
"Humph! That's usually a young man's finish."—Detroit Free Press.

Excellence of Quality and Correctness of Style are Superbly Combined in these

New Wooltex Tailored Coats and Suits for Women

WOMEN are charmed with the refinement and elegance of Wooltex coats and suits the moment they try them on, but one of the chief reasons why we so confidently recommend Wooltex garments, is because of the superlative quality of the fabrics and the superior workmanship with which the garments are constructed.

Style Correctness and Quality

Wooltex garments express in the highest degree style-correctness and artistic beauty; but in addition they possess a superiority of quality in every detail which is most gratifying to the woman who wears the coat or suit. There is a sterling honesty about the all-wool materials. They are thoroughly shrunken before being cut. Every seam is sewn with care by expert workers in one of the best equipped, most sanitary factories in America.

Every Wooltex garment is fully guaranteed by the manufacturers as well as ourselves. We are glad to have our customers select Wooltex garments because we know that they will always give the fullest possible satisfaction.

The picture shows a very handsome coat which expresses many of the points of superiority of Wooltex garments. The pleasing girle effect in front is produced by cleverly applied folds of the material. The fullness of the skirt in the back is gathered below a long curving waist-line set low down and outlined with closely-set buttons. This is a model that will be especially becoming to tall women with full figures. Many other equally charming models in both coats and suits are now here inviting your inspection.

Wooltex coats, \$16.50, \$20.00 and \$25.00
Wooltex suits, \$25.00, \$30.00 and \$35.00
