## Wooltex Tailored Suits and Coats

in Fullest and Finest Assortments now

IT is most gratifying to make the important selection of a new spring suit or coat while our collections of Wooltex garments are at their height; for naturally we cannot undertake to keep continuously in stock such a large variety of models as is now on exhibition.

Suit No. 1720

THE picture illustrates Wooltex suit No. 1720—a very effective youthful model, which is equally becoming to all slender women. The jacket is in Polo effect, moderately full, with smart pockets on both jacket and skirt. Materials are checks, poplin and covert.

Every day you wait shortens the time of service which the new garment will give you, and likewise every day you wait takes off something of the enjoyment of possessing the new styles while they are at their height.

Women who have been to see the Wooltex exhibition express their delight over the moderateness of the prices that are marked on garments of such excellence and refinement.

The hand-tailoring at the vital points in the apparel, which gives permanency to the shapeliness of the garment, is a Wooltex feature of added cost in the production, which it seems amazing to secure at such moderate prices.

If you have not yet seen our full spring exhibition of Wooltex garments, come at the first moment you can, whether you anticipate buying or not. An equally hearty welcome if you come only to see the new styles.
