

Beginning Saturday, April 17th, we will give the famous "S & H" Green Trading Stamps. Free Souvenirs in the Premium Parlors, second floor, Saturday.

Beautiful, New, Sheer, Summery Waists in both long and short sleeve models—and just the most extraordinary values—will go on sale tomorrow.

THE length of the sleeve in a Waist is merely a matter of comfort and of personal preference, and not at all a question of style. Some women prefer long sleeves and some short, and all are equally correct. We have here both kinds in styles that are pretty, attractive and appealing, in Wirthmor Waists for only one dollar, on up at the various prices. Because of the comprehensiveness of our stocks the variety and distinctiveness of our styles and the unusualness of the values that always obtain here, our Waist Department has quite generally come to be regarded as the one best place to satisfy Waist wants.

Tomorrow we will place on sale four unusually pretty models in the ever desirable Wirthmor Waists. As always these Waists are just

\$1.00

and always they are worth much more. Wirthmor Waists are sold here and here only.

Car Goes Into Ditch.

As the result of reckless driving a young man by name of Timmer residing south of the city barely escaped serious injury Tuesday evening when his car turned over in the ditch one mile north of the experimental station. A passing car noticed the automobile turned over and lying in about three feet of water and a little further along discovered the young man, much the worse for association with John Bareycorn and for the ducking he had received when the car went into the water. He stated that no one was hurt, although he asked about a friend of his. He was brought back to the city where it was learned that the friend had remained in the city. He was sure some wet, but outside of that he was none the worse off and the car was undamaged.

The Assembly club met Friday afternoon with Mrs. J. J. Weaver and Mrs. M. H. Mische at the Weaver home. A large crowd was in attendance. After several hours spent in games and contests a nice lunch was served. Everyone present reported a good time.

43,829 FORDS MADE DURING MARCH

The Motor Age has the following on the Ford:
"While summing up the daily and monthly production of the different factories there is little use to compare its (The Fords) output with that of any other factory because there is no other plant in the world that can show up to advantage when we start out by saying what Ford is doing. March production was 43,829 cars for twenty-seven working days—an average of 1,623 cars per day. Ford buyers will surely get the rebate."
