Havoc of the Harriman Strike. The havoc wrought among the 30, 000 shopmen whose strike against the so-called Harriman lines in 1911 was lost was sketched statistically this week before the United States commission on industrial relations.

The witness was Frank Comerford for many years attorney for the men One thousand question blanks were sent at random to the strikers thirty Officer John Jones was re-appointed four months after the strike. His figures, Mr. Comerford explained, applied to those 1,000 men, and he thought that a fair social survey of the whole number could be obtained

by multiplying his figures by thirty. Of the 1,000 men whoses replys were checked up according to Mr. Comerford, 186 were single when the strike was called Sept. 30 1911. There were

1,743 children, a small number which he thought might be traced to low wages and a subnormal scale of living Forty-two per cent of the men owned their homes, or were buying them. The strike cost 15 per cent of these their homes and of the whole number domiciles to even cheaper quarters. Twelve per cent of the strikers had to sell their furniture and 10 per cent to seek charity The average period suicide to the strike and nine cases of insanity.

Discuss Bridge Complications,

About fifty business men of the city were present Tuesday afternoon at the court house to discuss the complications that have arisen regarding the letting of the contract for the new bridge acrosss the Platte river east of the city.

The meeting was called to order outlined the matters as he understood County Attorney Gibbs told of the matthe delay in letting the contract was in no way the fault of the county commissioners and attorney, as had been stated but that the difficuties lay with the state board of irrigation. It appears that the new bridge as proposed will be built with certain arches and re-enforcements that are patented and The payment of this royalty was not payment of the royalty. They therefore refused to accept the contract unless the county commissioners would indemnify them against the payment of this royalty, a matter of about \$3,600

Two members of the state board of irrigation have signified their willingness to assume their half of these royaltics if the county will assume half, third memoer, Attorney eral Reed, has refused to do this The board also will not incorporate this matter within the contract, but they promise to carry it out and the Canton people will not work on a mere promise by representatives of

C. J. Pass appeared before the council and asked permission to build a cement sidewalk along the west side of his property from his residence to his green house and was instructed that he could build the walk if he would extend it along the west side of his property.

City Attorney Keele was instructed by E. F. Seeberger, and after he had to draft an ordinance relative to the dumping of garbage into the river them he called for a discussion and south of the city and to bring it up at the next meeting. The council will atter as it stands. Mr Gibbs stated that tempt to curtail the dumping of all the city's trash there where it will be an eyesore to all coming and going from the city by the south road.
