Don't Blow Your Horn

until you are safe. Don't think your-
self safe until you have your property
insured against fire. It comes when
least expected, and very often the ca-
lamity happens to the uninsured. Care-
lessness is the reason for the Fire In-
surance Policy being neglected. Some-
times it is allowed to lapse, and that is
the time the policy holder is often
caught napping. Insure with me NOW
and you will feel on the safe side.
