## Each Take a Game

In the two games of ball with Elwood Wednesday and yesterday there was a break even, the visitors winning the first game 14 to 10, the Boosters the second 2 to 0 in six innings, the game not running full on account of rain.

In Wednesday's game the Elwood team, with Jones in the box for the Boosters, made fourteen hits and twelve runs in the first three innings. Artley was put in at the beginning of the fourth, and checked the hip hoorah of the visitors.

Yesterday Luby, for the locals, was in fine form and only once in the six innings did the visitors get a man on third. The Boosters made their two scoops in the first inning. Bullard made a safety, was advanced to second on Bauer's walk, both were advanced by Bright's sacrifice, and then Getman lined out a two bagger landing Bullard and Bauer home. For the next five innings air-tight ball was played, with neither team having any noticeable advantage over the other.

## Who's Who in North Platte?

J. W. Sumner, traveling for a well known cartoonist is in the city writing orders for personal cartoons which will appear in The Tribune. These cartoons will give a picture of the subscriber and humorously depict his business or his hobby. In order that everything may be satisfactory, the cartoon in ink is presented to the subscriber for his approval, and if satisfactory a newspaper cut is made and published in The Tribune, the collection for cost to be made after the cartoon has been published. It is a straight forward, novel and legitimate method of advertising and has not the slightest tinge of graft.

## Land Bargains.

140 acres nice valley land close in for sale. C.R.A.P. Also 150 acres of hay land farther out at \$30.00 per acre. O. H. THOLEEKE.

## Farmers to Run Store.

Col. Dave Love informs us that a deal was completed Tuesday whereby his stock of groceries and provisions in the center of the local farmers cooperative association, which organization will proceed to engage in merchandising at the Elwood building on Front street has also been leased by the association, and it is said that Harve Cornell will have charge of the store.—Sutherland Free Lance.

Judging from a signed article in the Hershey Times, The Tribune unintentionally wounded the pride of Colonel John H. Stine, manager of the Hershey ball team, whereas we are very sorry indeed. The Tribune merely repeated what some of the Hershey ball players had said—that North Platte was too heavy for Hershey and that they did not care for future games with North Platte on that account. As a result of the criticism of the North Platte team by The Tribune at the opening of the season, better ball has been played, a fact that Colonel John has probably noticed. Perhaps The Tribune's reference to the Hershey team will likewise result beneficially. Ball teams some times drop into a lethargic condition and need waking up.

Mrs. Nesbit, of Pawnee City, state organizer and field worker for the W. C. T. U. will speak at the Baptist church at 3 o'clock Sunday afternoon. London Times Demands the Truth

A demand that the nation be "told the truth about the war" is voiced by The Times in an editorial. The paper declares there is no immediate prospect of being able to compel the Germans to withdraw within their own frontiers; that it will take months to provide the British forces with the big guns, high explosives and machine guns which are necessary.

"The country has got to set its teeth," says the Times, "disregarding confusing bulletins and face the probability of a prolonged and unprogressive campaign in the west while Gen. Von Mackensen's successful march probably had postponed a resumption of the Russian offensive for several months until they are provided with guns and shells."

"To put it briefly the allies on both fronts are being held with no prospect of an early change. Moreover, the outlook in the Dardanelles, of which the less said the better, long ago ceased to offer prospects of a swift and easy diversion in the middle east."

Major White left yesterday for southern California via Denver and Galveston. At Monrovia, Cal., he will enter a sanitarium for treatment for tubercular trouble. During the past year Major weakened his physical condition by over study and later contracted a severe cold which settled on his lungs. For a couple of months past the lower part of his lungs have been compressed, and other treatment given, but it was thought best to have him go to the celebrated Monrovia tubercular sanitarium.

An accident occurred Tuesday in the Fourth ward which may result in little Lela Ketchman losing the sight of her eye. In company with a playmate, Albert Nickerson she was playing in the yard. The Nickerson boy having found a cartridge of a 22 revolver, placed it on a stone and struck it with a hammer. The shell exploded striking the child in the left eye and it was thought destroyed the sight at once but the attending physician holds out but little hope and stated that it cannot be determined for a few days just how serious it is. Both children are about four years of age.

When the well is dry then do we know the worth of the water said Benjamin Franklin. When the eyesight begins to fail, or defects appear, then we know the worth of our eyes. Did you ever stop to think that next to the heart the eye is the hardest worked of any organ in the body? From the time the eyes are opened in the morning until they are closed in sleep at night they are constantly working in your service?
