POTATO RACE. Wanted—Twenty-five horses and riders to enter potato race July 6th.

HEALTH INSPECTOR HOAGLAND ISSUES 600 NOTICES.

Special Health Inspector Hoagland, since his appointment, has visited every business and residence property in the city and inspected the sanitary condition of the premises. He inspected about 1300 premises, and in over 600 cases found it necessary to issue orders to the tenants or owners to remove garbage or abate conditions that constituted a nuisance or a menace to the health of the city. He carried cards with him, and when it was necessary to issue an order to clean up, he filled out the card and presented it personally at the time to the occupant of the premises.

Mr. Hoagland is now making a canvass of the city to see if these orders have been carried into effect. If they have been disregarded, the matter will be reported to the city attorney who will issue a complaint, and the party will be hauled up before the police judge and assessed a fine as provided by the ordinances.

In making his rounds Mr. Hoagland has run the gauntlet of irate women and savage dogs, but fortunately his heart is not soft and he does not suffer from the scoldings; his skin is tough and the dogs have not seriously injured him. At one place on east Ninth street he found one man who was harboring eighteen dogs—sort of a dog farm as it were. These dogs were not vicious, but the neighbors say that when they all get to howling at the same time, as they sometimes do, there is no sleeping within four blocks of that particular house.

Boosters Have Nice Trip. Twenty-four autos loaded with boosters for the North Platte celebration, made a trip to Hershey and Sutherland Wednesday evening. At Sutherland the Chautauqua was being held and a good part of the residents were there. However, quite a number gathered on the streets and listened to the band concert.

At both places it was promised that they would send big delegations to the North Platte celebration.

The modern gas stove is proving the great emancipator. It turns cooking into a pleasure. It gives the housewife more time to herself. It cooks better, faster and cleaner than the coal stove.
