Twenty-four young people were entertained at the Morrill home Friday evening with games and dancing. The participants had planned a picnic at the country club but were deterred from going by the likelihood of a storm and the picnic gave way to the party, which proved a very pleasant affair.

In the county court Friday Cyrus Russell was bound over to the district court on the charge of fraud. The complaining witness is Mrs. Norman Wilson, formerly Mrs. Bessie Hansen, who claims she gave Russell one hundred dollars for the purpose of sending Wilson, who was not then her husband, to the liquor cure institute at Grand Island, but instead of applying the money to that purpose Russell has kept it and refuses to return it to her.

**People Must Clean Premises.**  
The complaint against Chas. McDonald for failure to clean up his Front Street lot within a specified time, was dismissed Friday forenoon upon promise to clear the rubbish from the lot instantly, which promise was carried into effect before evening. In the complaint against John Herrod, a hearing will be held this forenoon.

Those who have been notified to clean up their premises, or follow instructions of Special Health Inspector Hoagland, and have failed to obey, had better do so at once, for if they do not complaints will be filed and they will be hauled before Judge Miltonberger.

This general clean-up of North Platte is necessary for the preservation of the health of our people, especially this year, when so much rain has fallen to assist the decomposition of garbage, which throws off the disease-breeding germs and microbes. With about twenty cases of small-pox and fourteen cases of typhoid fever in town, we believe that citizens generally will agree with us that this cleaning up process has not been taken in hand any too soon.

Let us all assist Inspector Hoagland in the work by promptly removing all rubbish and filth from our premises.

**Initial Move Toward Paving**  
At the meeting of the city council this evening the initial move in the paving proposition is expected to be made. President Seeberger, of the Chamber of Commerce, obtained from Hastings copies of the notices of election recently held there for issuance of \$50,000 bonds for paving intersections, and these notices have been turned over to City Attorney Keefe for his information in drafting notices for the election proposed to be held in this city in the near future. At this election in Hastings the bonds carried by a vote of three to one. In that city considerable paving has already been done, and the people realizing the benefit of such improvement, do not hesitate to vote bonds for additional districts. This will prove true in North Platte; get the paving started and everybody will be in favor of extending the work.

It is expected that at the meeting this evening the amount of bonds to be voted upon and the date of the election will be determined and that the city attorney will be instructed to draw the necessary notices. The paving district as now contemplated but not definitely settled includes Dewey and Locust from Front to Third, and perhaps Front, Sixth, Fifth and Fourth from Pine to Locust, a total of sixteen blocks.

**Land Office Business.**  
The following data gathered from the U. S. land office at North Platte, shows the business during the year from July 1, 1914, to July 1, 1915.

110 Original Homestead Entries, total acreage 32,087.
259 Final Homestead Proofs, total acreage 109,594.
9 Public land sales, total acreage, 880.

The following table gives the vacant land in the North Platte, Neb., land district by counties, July 1, 1915.

**Marriage Record Broken.**  
Last month was a record breaker so far as the issuance of marriage licenses was concerned, the total number issued by Judge French being twenty-nine. This is the greatest number that was ever issued in any one month in the history of the county, and is evidence that the young ladies of Lincoln county are so wonderfully attractive that young men can't help but fall in love with them.

**Horses for the German Cannon.**  
A dispatch from Grand Island dated last Friday says: Six hundred head of horses, making about thirty carloads, were shipped out today and six hundred yesterday for the French and British armies. Between four and five thousand head are still in the meadows east of this city. They have eaten the pastures here and have made it necessary to put in many feeding troughs for the feeding of oats. Contractors are assembling these horses here from various western states and southwestern states and are classifying them for the artillery or cavalry service. It is reported that there is some difficulty in shipping out as fast as the horses are brought in. They are consigned from here to Montreal.

Miss Grace Clark returned Friday evening from a short visit in Lexington.

**Prevent Hog Cholera**  
The B. A. Thomas Hog Powder has a record of 95 per cent cures of Hog Cholera. If you feed your hogs as directed, you never fear hog disease. And the directions are very simple, just about what you are doing plus a few cents worth of B. A. Thomas Hog Powder in the feed twice a week. Usually, though, Cholera gets in before we know it. Then it requires close attention to each hog—each hog must be dosed—and if you will dose them as directed, you will save better than 90 per cent. If you don't, the B. A. Thomas medicine costs you nothing. We—not some distant manufacturer—pay your money back. Sold by A. F. Fink.

**Weather Record Again Broken**  
For the first time in the forty-one years the weather bureau has been in existence North Platte had a frost in July. This occurred Sunday morning when Observer Shilling reported not only a temperature of forty-one degrees, but a light frost as well. The frost, however, was not sufficiently heavy to affect even the most tender vegetation, but nevertheless it was a frost.

Certainly weather conditions in western Nebraska this year are erratic. Some say that it is due to the war in Europe, but as to this we have nothing to say. We do know, however, that we have had an excess of over nine and one-half inches of rain since the first of January, that the temperature in May and June was below the normal and that we had a frost on the morning of July 4th.

**Ogalalla Wins 4 to 3.**  
In the game at Ogalalla Sunday between the Ogalalla Braves and the North Platte Boosters, the former won by a score of four to three. The Braves scored one in the first and three in the seventh, while the Boosters got in one man in the first and two in the second. Artley pitched a wonderful game for North Platte, allowing but one clean hit, while North Platte took six hits off "Dusty" Rhoades, the twirler for the Braves. The three runs made by the Braves in the seventh were unearned. Two men were on bases, when a grounder knocked to the short stop hit a rough place in the diamond, just as it reached that player and bounded far over his head allowing the two on bases to score; the third score was made by a wild throw from third to first.

Walter Gehring, of Philadelphia, is visiting with Attorney and Mrs. W. V. Hoagland while enroute to San Francisco.

Mrs. M. H. Douglas left Sunday morning for Laramie where she will visit friends for a week or longer and attend the three day celebration which is in charge of the B. P. O. E. there.

Mrs. James Kennedy left Sunday for Omaha where she was called by the illness of her brother.

## GAS RANGES MAKE HOUSEWORK EASY!

**Many Women Are Slaves.**

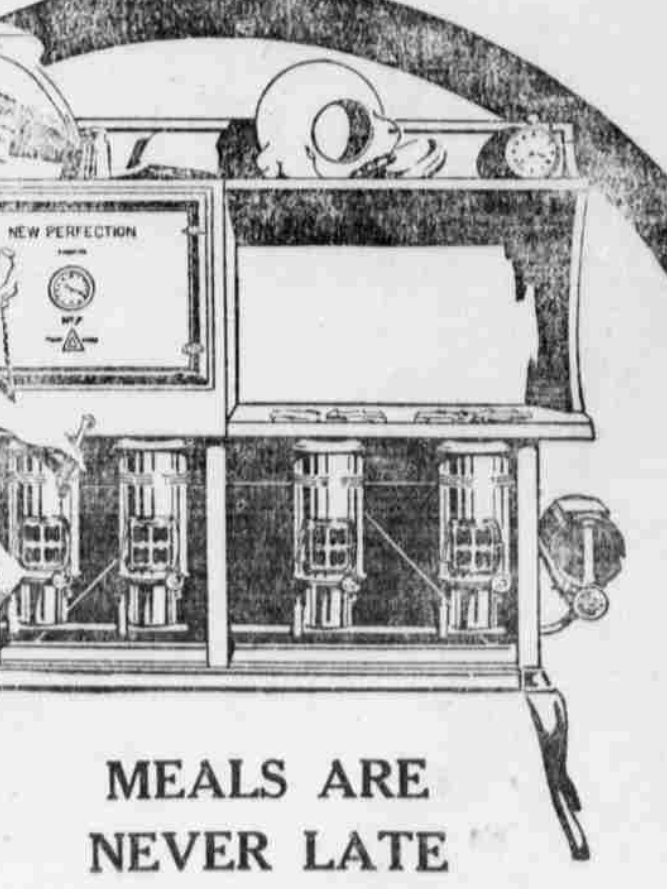

They are slaves to the kitchen coal stove—tied hand and foot by foolish custom to an old tradition. But the day of freedom has dawned.

The modern gas stove is proving the great emancipator. It turns cooking into a pleasure. It gives the housewife more time to herself.

It cooks better, faster and cleaner than the coal stove.

It is cheaper in the end.
