FREE POULTRY FROM VERMIN

Lousy Chicks or Turkeys Are More Apt to Be Affected With Gapes or Some Other Ailment.

Chicks are growing fast these days and lice are also making rapid growth. The most essential thing at this season is to keep young poultry free from Hee. They cannot thrive with vermin sapping their strength, and lousy chicks or turkeys are more likely to be affected with gapes, or some other ailment.

In looking for lice examine the little wings and around the vent. Between the long wing feathers of the little Leghorn chick or young turkey is a favorite hiding place for lice where they sap the life from the little birds until they haven't enough strength to hold up their wings. For head lice on chicks, or the ticks that prey on young turkeys look upon the neck, pushing back the feathers carefully until you reach the top of the head. A little pure lard or sweet oil on the head, neck and wings and around the vent may be used to advantage, but too much will kill the lice and chicks

RESINOL SURELY MAKES

There is immediate relief for skins itching, burning and disfigured by eczema, heat-rash, or similar tormenting skin-trouble, in a warm bath with resincl scap and a simple application of resinol ointment. The soothing, healing resinol medication sinks right into the skin, stops itching instantly, and soon clears away all trace of eruption, even in severe and stubborn cases where other treatments have had no effect. After that, the regular use of resinol soap is usually enough to keep the skin clear and healthy. Every druggist sells resinol ointment and resinol soap.-Adv.

The Meter's Record.

A representative of the gas departnent called on a householder and intimated that he was afraid something was wrong with the meter. From the official point of view, of course, meters can only show one fault, and the symptom which had cast suspicion on this meter was that it had registered less during the quarter than in the corresponding part of the previous year. But the lady of the house has a convincing explanation of the decline. "You see," she said, "my daughter was engaged last winter. She got
