Pass Garbage Ordinance.

At the regular meeting of the city council Tuesday evening the garbage ordinance, which had been introduced at a previous meeting, passed the third reading. Garbage cans must be installed by all residents, and the cans will be emptied and the contents hauled away at the expense of the city. A stiff fine is provided for those who do not comply with the ordinance.

An extension of the fire limits was made so as to include the east half of 83 and the west half of block 84 on north Locust street between Seventh and Eighth.

Just what to do with the auto fire truck is a question with which the fire committee is wrestling. The council is not inclined to sign a two-year lease with Miner Hinman to store the truck, furnish rooms for the firemen and provide a driver for the truck at a cost of \$68 per month. The committee is inclined to believe that it would not be a bad plan to fit up the Third ward house for the reception of the truck, build a sleeping room and permanently hire a driver for the truck, the intent being to secure a driver who had the ability to keep the truck in shape.

A claim from Lee Dobson against the city for damages claimed to have resulted from the removal of his popcorn stand from Front street, was referred to the city attorney.

Files Suit for \$15,000 Damages

A suit has been filed in the district court by John Benkosky against the Tidball Lumber Company of Wellfleet for \$15,000 and costs for the death of the plaintiff's son Albert Benkosky, age 21, who had been employed by said company, and it is claimed was forced to work in their elevator, on and around powerful and dangerous machinery. He was killed last spring while at work, by being struck by an iron shaft and projecting set screws and his body torn, crushed, bruised and mangled. By his death his aged parents were deprived of their support and they claim they have been damaged to the extent of \$15,000.00. The Tidball Lumber Co. is operated by Jno. Tidball and his son John.

Civil Service Examination.

The Civil Service Commission will the annual First Grade Examination for the positions of first grade or clerical positions in the Customs Service, in the positions of clerk, storekeeper, gauger, in the internal revenue service, and for other positions that require similar qualifications, on November 6, 1915. Applications may be filed at any time not later than the hour of commencing the examination on Nov. 6 but should be filed as soon as possible.

 11 o'clock morning worship sermon: "That He might fill All Things."
 8 p. m. Evening worship, sermon subject: "The Throne and its Environs." This is the first of a series of evening sermons on John's Pictures of Paradise as described in the Book of Revelations.

The James Bound Over.

Charles, Guy and Luther James bound over to a \$3,000 bond and the latter on \$1,000 bond each by the county court. The charge against them is statutory rape upon Ethel Jones, the fifteen year old grand daughter of the former.

The forty-first annual state convention of the Nebraska Woman's Christian Temperance Union will be held in Grand Island September 21-24. Grand Island is quite centrally located, the hospitality and capability of its people is well known and a good program is in the course of construction. For these reasons it is hoped every union in the state will send delegates. Come prepared to tell the interesting things about your union. To give and to receive inspiration, to help get a broader outlook upon life and a keener sense of its beauties and responsibilities. Delegates from our union are Mrs. Maud Sawyer, Mrs. Belle Morris, Mrs. Perkins, Mrs. MINSIE PERKINS, Local Press Superintendent.

WHY IT SUCCEEDS

Because It's For One Thing Only, and North Platte People Appreciate This. Nothing can be good for everything. Doing one thing well brings success.

Doan's Kidney Pills are for one thing only. For weak or disordered kidneys. Here is North Platte evidence to prove their worth.

W. F. Blalock, North Platte, Neb., says: "I had an awful, heavy ache across my loins which seemed to take every bit of strength from me. My back was weak and I was so lame I could hardly stand erect. The kidney secretions seemed to get more disordered as the pain in my back increased and they were unnatural and too frequent in passage. I was advised to try Doan's Kidney Pills and got a box. They cured me of the complaint and I have been well since. Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Blalock had. Foster-Milburn Co., Prop., Buffalo, N. Y."

Better Babies 1915

The better babies of Lincoln county made very good scores this year. While most of the babies scored almost perfect physically they were too large for standard measurements which made them score less.

Some of our progressive neighbors went over to Fremont to attend the recent tractor demonstration there. Those who went had an admirable opportunity to see the many different makes and designs of modern farm power machinery in operation. Probably never before in the history of Nebraska has there been such an opportunity to compare the practical value of mechanical farm power with that of horses.

After seeing all the different tractors in operation, and having had the best of all chances to compare and make an unprejudiced decision, Mr. J. N. Gese has purchased an International Harvester Mogul 12-25 H. P. oil tractor from G. Kratzenstein of Brady.

The International Harvester Company has been working on tractors and power farming for close on ten years, and in that time has established a reputation which puts it at the head

Graces of Musical Comedy

Musical Comedy will always prove popular with the average theatre goer, especially those who go to the theatre to laugh. It has been said theatre goes in America go to the theatre to laugh and forget the cares of business, while in European countries going to the theatre is as essential as going to school. That is why in Europe the principalities have their national institutions that are supported by the government, while in the United States the theatrical or amusement business is left to the people. The success of an entertainment in our country depends upon the management giving their theatre patrons what they want. In the case of Musical Comedy who play at the Keiths Sept. 13 and 14, just what they are doing. They give you two hours and a quarter of good clean comedy at popular prices. Hence the company are doing a phenomenal business; undoubtedly the company will repeat last year's success in North Platte.

Bulldogs.

The origin of the bulldog for a long time has been a matter of controversy, although the origin of the name has been easy to find. It comes from the dog that was used for bull baiting, a sport that was popular some years ago. In attacking the bull the bulldog always attacked him in front and usually fastened to his lip, tongue or eye and would hold on in spite of the strenuous efforts of the bull to shake him off. Puppies of six months of age were sometimes tried against a bull to see of what mettle they were made, although a dog was not thought ready for his best work until he was fifteen or eighteen months of age and would not reach his prime until four or five years. The bulldog of today is usually well past his prime at five years of age. This undoubtedly has been brought about by inbreeding in order to get perfect show specimens, and as a result their constitutions weakened.—Exchange.

In the Days Before Coal.

People sometimes wonder how their forefathers got on in the days before coal became the staple heater. They fared ill. Wood was the chief commodity in use, both in its natural state and as charcoal, the latter being prepared in the country and suburbs of London and brought into the city in carts, the chief marts for its sale being at Smithfield and on Cornhill. By an enactment of Richard II. it was decreed that the price of charcoal should be fixed at tenpence per quarter from Michaelmas to Easter and eightpence per quarter during the remainder of the year, the regulation of its sale—as well as that of firewood—being committed to the mayor and aldermen. Among the poorer folk fern, reeds and stubble served as fuel, and quite a common method of keeping warm was to sit over pots filled with hot water.—London Chronicle.

The Battery an Historic Spot.

New York city has nature at both ends, the Bronx park at the north, while at the southern extremity one finds the Aquarium, which is so far out of the way as to be much neglected. And what changes this spot has seen! Originally a rocky point, with a few guns for defense, it became a resort for fresh air seekers and then was serviceable for public meetings, for which the enormous building was so well adapted. Here Louis Kossuth delivered his fervent eloquence to sympathizing crowds, and here Baranin held the Jenny Lind concerts, as it was the only building of sufficient size. Then it became the entrance for immigrants, where thousands first trod American soil, and last of all, it is now the wonderful Aquarium, free to the public.—Magazine of American History.
