### We Are Glad.

Seven o'clock tomorrow morning will mark thirty-four years since the editor of The Tribune emerged from a car (a box car filled with coal) and set his feet on North Platte soil. In that period of time many events have occurred to gladden his soul, but few, if any, warmed the "cockles of his heart" more than did the result of Tuesday's election. To him there is no town on the face of the earth that compares with North Platte to him there are no people so dear as those of North Platte; to him one of the real pleasures of life is to assist, feebly though his efforts may be, in furthering any move that will redound to the material welfare of the town and the comfort and happiness of its residents—not only is it a pleasure, but it is a duty that he as well as all other citizens owe to the community.

The dream of long years ago—which at times seemed Utopian—that North Platte, by reason of its geographical location and its environment, would eventually become a gem city—the real commercial center of western Nebraska, an empire 250 miles east and west and 195 miles north and south, promises now to be fulfilled.

**North Platte Has Awakened.**  
It is a truthful maxim that a town is just what its people make it, and in Tuesday's election more than two-thirds of those who cast their ballots went on record as favoring a better town, a bigger town, a town possessed of more conveniences and more comforts. In thus helping ourselves to these good things we place ourselves in a position that attracts the attention of those outside who admire a progressive town and following that admiration comes the desire to come here and be one of us. More than this, the display of this spirit of progress on the part of our people is an incentive for local men of capital to make investments in additional buildings both for homes and for business purposes.

It is a source of congratulation to all that

### North Platte Has Struck Her Gait.

**Thanks Citizens for their Support.**  
In behalf of the North Platte Chamber of Commerce I wish to thank the voters and citizens in general for their loyal support of the paving and park propositions, as well as their approval of the light contract which will enable the city administration to give the people better light service.

This is a great movement forward for North Platte. In the first place we have forever shown that the city is not composed of a majority of knockers, and that the majority of our city when it is shown that they favor boosting propositions that better our city when it is shown that they are an actual betterment. The Chamber of Commerce worked for these propositions and boosted them because they believed and are firm in their opinion that they do better the city, and make it a better place to live in. They are not going to stop now, but are going to keep on investigating on the different classes and grades of pavement, and assist the mayor and city council in getting the best for their money. We are going to assist in developing the new park as well as the one in the east end of town, and make them beauty spots of the valley.

Another great forward movement that we have accomplished by yesterday's election is the bringing together of the north and the south. I am not referring to the Civil war, but to that part of town north of the track and that part south of the track. There has been times in the past that a proposition coming up for public opinion was condemned because it was to be a benefit for the people north of the track, or because it was to be a benefit to the people south of the track and not for any other reason. This certainly should not be the case, however, I agree with the people north of the track that I think at times they had a reason to feel hurt. However, I have not been able to see how it could be helped up to the present, that is with the purchase of this park. Now we can hold the most of our entertainments in this park, which will bring just as many people to the north part of town as it will to the south, and as a result there can be no hard feelings. In the vote Tuesday it showed that there was harmony. The people on the north side voted for paving almost as strong as they did for the park and the people on the south side voted for the park just as strong as they did for the paving. Let it be forever this way. Let us forget that the Union Pacific divides the town, and let us just think whether a thing is good for North Platte or not, and if it is, let's get together and boost it regardless of where it is located, provided it is located for the general public's good.

I wish to thank the citizens again for their loyal support Tuesday, and say personally that I have never been happier than I am at the result of the election.

C. F. TEMPLE, Secretary.

**DEAR FRIENDS AND PATIENTS:**  
We have tried in the past to acquaint you with our advanced method of curing Rupture without operating, as well as treating Gall stones and Appendicitis without the use of the Knife.

We wish to call your attention to the several articles in our Booklets written by our Dr. Loffler on the blood and Intravenous Treatments. These treatments are given to correct the chemical composition of the blood and bring it up to its normal Oxygen carrying power.

This is absolutely necessary in such cases as Anemia, functional nerve kidney diseases. High or low blood pressure cases cannot be successfully treated without the aid of our direct Intravenous injections into the blood stream. This particular condition of the blood is the main contributing cause of Apoplexy and Paralysis, also Epilepsy and Tuberculars.

We would be pleased to have you call at any of our offices and investigate this method of treatment, where it will be fully and cheerfully explained to you by one of our Blood Experts.

Yours truly,
