Corn Is Doing Well.

This hot, sunshiny weather is rapidly maturing the corn crop in Lincoln county, and every day well denting ears are being brought in by farmers as samples.

If killing frost is delayed until after the first week in October Lincoln county's corn crop will be the largest ever grown. Some one has said that if we do not have frost until the present moon is full—which will be Thursday—we will escape frost for ten days thereafter. Should this prove true the greater part of the corn crop will mature.

Farmers are Sometimes Lucky.

A farmer on the Jack Morrow flats who was in the district covered by the hail about the first of July, settled with the insurance company on the basis of a forty per cent loss on his wheat. He has just completed threshing the wheat from the fields and finds the average to be forty bushels to the acre. Providing he had not suffered the forty per cent loss, the yield would have been over sixty-six bushels to the acre—but perhaps the wheat showed wonderful recuperation after the hail loss was adjusted.

Gassner-Doughty.

Miss Clara Gassner and Glenn Doughty were quietly married at the M. E. Parsonage Wednesday evening by Rev. E. J. Hayes. Miss Helen, a sister of the groom and Mrs. Hayes acted as witnesses. They departed the same evening on No. 4 for a short honeymoon but will return and make Chappell their future home. Mrs. Doughty has lived in this vicinity for several years, the last few years being spent at North Platte, Neb. Mr. Doughty has lived here for the past six years and has made many friends who the Register joins in extending the young couple best wishes.—Chappell Register.

The Sledge-Hammer Way.

W. T. Wilcox's second epistle on the North Platte depot advocates the sledge-hammer way—no further dilly-dallying about the matter. Says he to get busy on a new depot and if they fail to do by the first of next March, file a complaint with the state railway commission.

The Tribune has no objections to the sledge-hammer way, if it is deemed best. It will support any move that Mr. Wilcox or any other good boosting citizen starts toward securing a depot. President Mohler's request that the depot be dropped until the terminal improvements were made was granted; we are not unfair to Mr. Mohler in demanding that the much needed building be erected at the earliest possible date.

20,000 Bushels of Apples.

We spent an hour at the Glenburnie fruit farm north of Sutherland Sunday afternoon and in conversation with Mr. Hunter learned that the crop of apples this year will be the heaviest the orchard has ever produced. The total yield this season will be about twenty thousand bushels. On many of the trees the apples hang in clusters—almost like grapes—and the branches of the trees are bent to the ground by the weight of the fruit. The summer and fall apples have been picked and sold, and the picking of the winter varieties will begin this week. The crop of the Grimes Golden is very heavy and they are very uniform in size.

The Glenburnie fruit farm is one of the "show places" of this section of the state and a trip to the farm is well worth while.

Many women are frequently complimented on the good fit, the smart style and becomingness of their suits. You, too, will have the same experience, when you wear

Wooltex tailored suits

If you are already a wearer of Wooltex tailored garments, we know you'll be glad to see the new fall styles. If you have never worn Wooltex, you cannot get acquainted too soon for the sake of your own pleasure and satisfaction.

There is so much charm and grace in every Wooltex tailored suit or coat, whether it be for the svelte figure, for one tending to stoutness, or for the young lady just approaching womanhood. Each type has been studied out, and for each type appropriate designs have been created.

We have suits at \$25 to \$65

Coats at \$16.50 to \$45

Skirts at \$5 to \$15

Women who wear Wooltex garments are always well dressed, because the styles are correct without the transient extreme features; because Wooltex garments are made of pure wool, pre-shrunk fabrics; because every garment is as carefully tailored as a custom-tailor could make it.

Choose your Wooltex coat or suit now—this week—while the styles are newest and the wearing of them is most enjoyable. Have a garment that will retain its first "new" beauty throughout the whole season or for two seasons, if you choose. Wooltex tailored garments assure you such service.

The Human Mind.

What is the mind? In "The New Psychology," by Herbert L. Wilbur, the author declares it to be the sum total of all the impressions we get and says the sum total is constantly increasing. This, he concludes, explains the fact that all men are of a different size mentally—the fact that old men know more than young men—also that a few young men know more than some other men ever knew all their lives.

Herein, too, is where men have the advantage of women—men moving about in the world outside, where the sun total is greatest—women staying more on the inside, in the house; but, as above, some women know more than some men. The salvation of all of us is to hike—to the right place.
