

ATHENA Underwear

is tailored to fit the figure smoothly, snugly and entirely. It is fashioned to fit like a glove.

Here are the features that give Athena its comfort, its daintiness and its tailored fit.

Sloping Shoulders and Sleeves

Conform to the shoulders without wrinkling under arms.

Perfected Shoulder-Stay

Keeps garment from stretching across the shoulder, and holds sleeve in place.

Curved Armhole

Brings arm seams to the natural curve of the shoulder and holds garment snugly and smoothly up under arm, doing away with unnecessary cloth.

Three-Cornered Gusset Is so shaped as to relieve the usual strain at the thigh. Insures greater comfort and longer wear.

Low-Neck Sleeveless Suit

Just as a woman is fuller across the bust than the back, so this garment is made with extra fullness in front.

Patent Seat

This consists of a plait on each side of the back, instead of extra cloth in the middle where it causes discomfort. Always stays closed and allows sufficient room, sitting or standing.

A full line of everything in underwear for Ladies, Misses and Children at very moderate prices.

Alof Swanson Passes Away

Friends in this city were shocked Wednesday morning to hear of the death of Alof B. Swanson who had been ill for a short time with typhoid fever at his home on South Vine street. A little over two weeks ago he was taken ill, but his condition was not considered serious until Tuesday when it was advised to send to Omaha for a trained nurse and summer relatives. They came Wednesday morning but he had expired three hours before their arrival.

For the past five or six years Mr. Swanson had been employed as yardmaster's clerk, was faithful in his duties, popular with his fellow workmen and friends and very devoted to his family. The funeral services will be held at the Presbyterian church this afternoon and will be conducted by Rev. C. B. Harman.

Alof B. Swanson was born March 29, 1886 at Adams, Neb. In 1894 with his father and mother he moved to Nelson, Neb. and at the age of 8 his mother died.

He graduated from the Nelson high school May 20, 1904, completed a commercial course in the North Western Business College at Beatrice, Neb. in 1908 and entered the service of the Union Pacific Railroad company at North Platte.

On June 21, 1911 he was married to Ida Harriet Bostwick of Hershey, Nebraska. He leaves a wife, little daughter, father and stepmother, three brothers and a sister.

Eyes can be rested while they work. If you wear the proper glasses you will find that your eyes will stand as much work as they ever did. That is a great advantage of glasses—they give relief the minute you put them on—and give it continuously. But—the glasses must be chosen with absolute accuracy. Standard and Marshall May Fight

There is talk on the streets that the Standard and Marshall oil companies may indulge in a struggle, the Standard to take the initiative in a move to force the Marshall out of business in North Platte. The method to be pursued by the aggressor will be to lower the price of kerosene and gasoline to a point less than cost price and keep it there until the Marshall people let go.

As the Marshall company is pretty well entrenched in North Platte, the Standard may be compelled to fight for some time before it strangles its competitor. While the fight is on the public may reap a benefit, but what is saved during the strangulation period will soon be absorbed by a raise in price after the fight is over.

Charles Reynolds is displaying a number of coins and paper bills in the McDonald State Bank window which he collected while on a recent visit in Mexico and California. They are of various sizes and range in value from one to twenty dollars. By an act of congress the gold dollar, half dollar, and quarter were made to be used as a souvenir of the Panama exposition and the limited amount of 200,000 were made. They were designed by Chas. E. Barber. The directors of the exposition have taken all that were coined in the San Francisco mint and each piece brings double its value. The largest of these pieces is about the size of a dime. They are the only coins on which labor is represented. The Mexican Peso, or dollar, is worth about forty-five cents.

With a Policy Behind Him

a householder's dread of fire is considerably mitigated. Without such policy he is, indeed, to be pitied, and yet the cost of a good Fire Insurance Policy is so small that one wonders how any property owner can afford to be without one. Of course, the possession of a policy does not prevent the fire happening, but it prevents the attendant poverty should you happen to be wiped out by fire. It enables you to start afresh without loss. Come and see me about a policy.
