Having recovered several autos that had been stolen, Sheriff Sallisbury is somewhat peeved because he cannot secure a clew to the fellow who stole the Henry Clark car Sunday evening. The sheriff has been very diligent in notifying officers in surrounding towns to keep a look-out for the car, but up to this morning had received no word of its recovery. It is rather difficult for an auto thief to escape, and the sheriff still has hopes of getting his man.

T. C. Patterson spent Wednesday in Kearney, and while there inspected the street paving which is now being laid. He thinks Kearney is getting good work. The smaller size paving brick is used, set face up with asphalt filler. The base is concrete with a light covering of sand in which the brick are set. Central avenue, on which the paving is now being done, is twenty feet wider than our streets, hence the cost per lot foot is considerable more than it will be in North Platte.

They're all here now

WE'VE shown you a few of the new fall Wooltex styles, enough to tell you what are the most prominent features of the new modes.

This week we invite you to attend a style exposition of still greater interest. This is our

complete fall showing of Wooltex tailored suits and coats

Always, the Wooltex designers have kept carefully in mind the correct style tendencies, such as natural, graceful figure lines, belted or partial belted effects, and the smart flaring bottom lines of jackets and coats.

But with faithful adherence to style, they have varied the designs to provide garments that are becoming to each type of figure.

Graceful curves of a good figure are shown to the best advantage in this suit. Smart figure appears more slender. And without it is so refined and graceful. Note how it conforms to the correct style tendencies.

Wooltex garments for all types of figures

Are you stout? There are Wooltex models to give you a more slender appearance.

Are you slender? There are Wooltex models to add beauty to your graceful, supple figure.

Have you an unusually good figure? There are Wooltex models that are, as the French say, "caressing" in their charming suitability and gracefulness.

For used to the best advantage, choose this beautiful model and a very fashionable one. There is remarkable grace and charm in its graceful lines. The belt is only across the front.

Whatever your figure, whatever your tastes, whatever your purse—there's a Wooltex tailored garment that will just suit you

There's style and added value in Wooltex

In Wooltex tailored garments, you not only get correct style, but you get added value in superior materials, custom-quality tailoring, and a longer period of pleasurable service.

We'd like to show you just how Wooltex garments are made. You'll know, then, why they keep their fresh, new appearance so much longer than ordinary garments.

This week is a most favorable time to see the new Wooltex fall suits and coats, and to make your selection
